La. Coastland Battens Down For Hurricane

Storm, With 75 MPH Winds, Expected To Hit Mainland Today

NEW ORLEANS, Sept. 3 (AP)—The Gulf hurricane is expected to hit the Louisiana coast between Morgan City and Grand Isle shortly after midnight tonight.

The weather bureau at 8:30 p. m. Central Standard Time, reported the hurricane had moved 120 miles nearer the Louisiana coast since its afternoon advisory and that its forward speed had increased from 10 to 15 miles per hour.

The advisory said that at 9:30 p. m. (Eastern Standard Time) the storm was centered about 130 miles southwest of the mouth of the Mississippi River.

It said the hurricane is attended by winds of 75 miles per hour over a small area near the center. Gales extend outward 250 miles to the east and northeast of the center.

"Quickie" Hurricane

At 3:45 p. m. (Central Standard Time) today the forecaster located the center of the storm about 210 miles southwest of the mouth of the Mississippi River. It was moving toward the coast at 10 miles per hour.

Winds up to 45 miles per hour were reported extending 250 miles from the center to the east and northeast.

The 3:45 advisory was issued immediately after a Navy "hurricane hunter" plane from Miami had radioed information from the dead center of the hurricane.

The plane was piloted by Ensign H. E. Ream, Adel, Iowa. Lt. C. R. Barron, Grand Rapids, Mich., an aerologist, flew with him.

Warning of the storm came suddenly to coastal residents. The disturbance was reported in the Gulf Tuesday, but Wednesday appeared to be flattening into rain squalls. Then this morning an Air Force plane discovered the squalls turning into a tropical storm.

Hurricane warnings were ordered for the coast between the mouth of the Mississippi and Vermilion Bay. Storm warnings were displayed eastward to Mobile and westward to Galveston.

Boats Stream Into Harbors

Some 200 trawlers of the shrimping fleet based at Morgan City, La., were in the Gulf when they received radio warnings. About 50 oil company boats also were at work servicing offshore drilling operations.

All afternoon the small craft were streaming into the safety of harbors and bayous.

The Coast Guard reported two ships, the Hope Crown of Galveston and the tanker Gulf Caribbean of Port Arthur, Tex., were in the path of the hurricane today. Last reports placed them about 90 miles north of the storm center.

The tankers Gulf Horn of Houston, Tex., and Esso Charleston of Jacksonville, Fla., were reported about 120 miles east of the center. Later the Weather Bureau at Miami said the Esso Charleston was moving out of the storm area at 11 knots, after reporting increasing wind and seas.

Egg Tossed At Wallace After Memphis Speech

MEMPHIS, Tenn., Sept. 3 (AP)—An egg splashed against Henry A. Wallace's automobile tonight after he had finished speaking before a large, unsegragated crowd that was held back by a rope and some 30 policemen.

The presidential aspirant of the Progressive Party shrugged off the egg-tossing affair by saying "it did no harm—it was just a pullet egg."

Wallace's audience interrupted him constantly with both cheers and jeers during the 25-minute talk. Police Inspector Claude Armour estimated the crowd at between 1,500 and 2,000, half of it negroes.

In the address which followed a short radio broadcast, Wallace praised the Tennessee Valley Authority, the Mississippi River delta's cotton yield and Cordell Hull—"the greatest statesman Tennessee ever had."

The candidate's speech opened his sweep through the last southern state on his current campaign.

Mitchum's Wife Declares She'll Stand By Actor

HOLLYWOOD, Sept. 3 (AP)—Actor Robert Mitchum's wife said today she will stand by her husband who faces narcotics charges.

Mrs. Dorothy Mitchum drove in today from the East to join him at their home.

Through a representative of Mitchum's studio, Mrs. Mitchum stated:

"Our differences were the same kind that all married couples get into. We've made them up. I love my husband and am back home to stay with him.

"I am indignant that not only Bob but our whole family should have to suffer, simply because he is a motion picture star, because otherwise I don't think that all this fuss would be made just because a man may have gotten mixed up with bad company."

Polish Security Police Release Catholic Prelate

Zygmunt Kaczynski Detained 72 Hours

WARSAW, Sept. 3 (AP) — Polish security police released Msgr. Zygmunt Kaczynski from prison tonight after detaining him for 72 hours. He is the chief spokesman for the Catholic hierarchy in Poland.

An official announcement said Kaczynski, confidant and close friend of August Cardinal Hlond, primate of Poland, would be kept under surveillance pending completion of a security police investigation.

A government spokesman said Kaczynski was arrested in his apartment behind All Saints Church in Warsaw on Tuesday and accused of "anti-state activities."

Kaczynski's release came as reports spread that thousands of his parishoners were planning a demonstration demanding that he be freed.

The official announcement said security police were investigating the alleged connection of Cazimierez Studentowicz with the departure from Poland last year of Karol Popiel, who went to France. Popiel was president of the Christian Labor Party which was banned by the Polish government.

In addition to Studentowicz, five other employes of the influential Catholic weekly newspaper, Tygodnik Warzawski, were arrested a few hours before Kaczynski. Studentowicz is one of the paper's editors.

Kaczynski has been chief editorial writer and director of the publication.

Kaczynski's housekeeper said Tuesday that four militiamen took him away after searching the prelate's files and books. They offered no explanation.

At the time, Cardinal Hlond's secretary said the primate had been told of the arrest but had no further information.

Tygodnik Warzawski has for several months been at editorial odds with the pro-Communist press which is controlled by the government. These papers have rebuked the Catholic church for failure to take a stand on Poland's western frontier. They have accused Pope Pius XII of "anti-Polish statements" and have attacked a letter the Pontiff sent to German bishops a few months ago.

Security police recently arrested the editor of Tygodnik Powszechsny in Krakow. That paper usually reflects the views of Adam Cardinal Sapieha, Archbishop of Krakow.

Child Killed, 14 Hurt In Bus-Truck Collision

CHILLICOTHE, O., Sept. 3 (AP)—A six-year-old girl was injured fatally and 11 other persons were hurt today when a Greyhound bus collided with a coal truck on a narrow bridge over a creek north of here, the Highway Patrol reported.

Elsie Rhodes, Chillicothe, died in Chillicothe Hospital two hours after the accident. Her mother, Mrs. Louise Rhodes, was among four hospitalized with injuries.

The accident happened on a narrow bridge over Kinnikinnick Creek. The bus smashed into a side of the bridge and then careened into an embankment, the patrol said.

MITCHUMS REUNITED-- Movie Actor Robert Mitchum and his wife, Dorothy were reunited yesterday at Hollywood for the first time since he was arrested in a narcotics raid. She was driving across country with their two boys at the time of his arrest. Mrs. Mitchum said she will stand by her husband.

Truman Advisors See Leveling Off In Prices

Brannan Says Dewey Attempting To Wreck Farm Price Supports

WASHINGTON, Sept. 3 (INS)—Government experts foresaw today a leveling off in the general price trend after a nine-year climb.

They explained, however, that there is nothing in the picture now to arouse fears of a crash which would bring mass unemployment and widespread price breaks in its wake.

An important factor in the situation, they said, is the bumper 1948 crops and their downward pull on prices of food and things manufactured from farm products.

From an overall standpoint, top-level government economists hold out to consumers hope of relief from climbing prices for the first time since the German legions smashed into Poland September 1, 1939.

The price climb is cooling just as the political controversy over inflation is reaching the boiling point. President Truman has sought to pin the blame for inflation on the Republican-controlled Congress. Gov. Thomas E. Dewey is accusing the President of trying to keep food prices up.

Major Campaign Issue

High prices loom as the major issue in the presidential campaign, which the President will formally launch with a Labor Day speech in Detroit.

The Dewey accusation was voiced Thursday by Harold E. Stassen with the New York Governor's approval. Stassen said the Truman administration had sought to keep food prices up by announcing plans for increased purchases of farm commodities.

Agriculture Secretary Brannan, in a second reply to the charge, said GOP leaders were conducting a "very sinister attack" on the government's crop price support program.

He said Dewey and other top Republicans intend "to destroy the farmers' price supports by falsely attributing to that legislation the exorbitantly high prices of certain foods."

Stennis Hits Stassen Statement

Sen. Stennis (D) Miss., who has vigorously opposed the President's civil rights program, denounced the Stassen statement as an attack on the price support system and said it was "a demagogic attempt to provide a panacea for inflation for the big voting cities to swallow."

"Broke" Seaman Tries To Pawn Artificial Hand

BALTIMORE, Sept. 3 (AP)—Police said a 41-year-old seaman temporarily out of funds tried to pawn his artificial hand in two Baltimore loan shops today.

The sailor, was identified as Fred Burkett, Lawrenceburg, Tenn. He was charged with being drunk and committed to jail to serve out a $10 fine.

New Spy Probe Will Begin Soon

WASHINGTON, Sept. 3 (AP) — Disclosures of a third Red spy ring allegedly involving government employes will begin on Capitol Hill about the second week in October, the House Un-American Activities Committee announced today.

The timing will bring the hearings right into the thick of the presidential election campaign. Republicans have charged and Democrats have denied that the Roosevelt-Truman administration has been heavily infiltrated by Communists.

Chief Investigator Robert E. Stripling told reporters that in addition to the new spy probe, the House committee will look into:

1. Communism in Hollywood — a resumption of hearings which began nearly a year ago.
2. Communist inroads among negroes.
3. Entry of Reds into the United States.

Stripling said the committee, headed by Rep. J. Parnell Thomas (R-NJ), will resume hearings September 15 on the Hiss-Chambers case, then complete the Elizabeth Bentley hearings before going into the story of a new spy network.

Strike Violence

WILMINGTON, Calif., Sept. 3 (AP)—Striking CIO longshoremen and non-striking AFL sailors clashed today in a bloody battle at the Consolidated Lumber Company dock, where a lumber ship was being unloaded.

At least two men were knocked to the ground.

Crew Of Crippled Superfort Bails Out Over Holland

Grim Reality Added To British "Attack"

FIGHTER COMMAND HEADQUARTERS, Middlesex, England, Sept. 3—(AP)—The crew of an American Superfortress was forced to bail out over Holland today, adding grim reality to the start of a four-day mock air "battle of Britain."

The B-29, abandoned over the Sheldt Estuary due to engine trouble, crashed off the Dutch coast.

Reports here said 10 of the crew members were accounted for with one of the men seriously injured. It was not known here whether 10 or 11 were in the crew.

Dispatches from Vlissingen (Flushing), the Netherlands, said however, there were 11 crew members and all were rescued.

Fire Breaks Out

One of the crew members was quoted as saying fire broke out in one of the wings after engine trouble. When it seemed impossible to reach England after a 30-minute battle with the flames, he said, the crewmen took to their parachutes and the plane fell into the estuary.

The last two crew members rescued by fishing boat, the dispatches said, were Capt. C. J. Durocher, navigator, and Capt. James Farmer.

The dispatches said the names of the nine were Lt. Col. Harold Wilson of Oklahoma, Sgt. Walter Doyle Roquet, Frank Palzel, Franklin Dixon, T. C. Graham, B. E. Thornton, G. H. Burdge and A. Brofft. Roquet was reported to be injured seriously.

The bomber, one of 90 England-based B-29s engaged, was in an "attacking" force in the most extensive air exercises over Britain since the war. Hundreds—the exact number was kept secret—of Britain's latest model fighters, twin-engine Hornets and a dozen other types attempted to repel an "enemy" bombing force. The fighters included 600-mile-an-hour Meteor jets.

Anti-Radar Maneuver

The Superforts, flying at 30,000 feet, made daylight attacks against Birmingham, London, Hull, Coventry and other midland and southern industrial centers. Lancasters and twin-engine fighters used as bombers "attacked" tonight.

The daylight attackers swung out over Holland to get away from the

Ex-President Of Czechs Dies In Disillusionment

Eduard Benes, 64, Fought Lifetime To Keep Country Free

PRAGUE, Sept. 3 (AP) — Eduard Benes, who fought a lifetime to keep his beloved Czechoslovakia free from totalitarian rule, died today disheartened.

Twice president of a nation racked and squeezed by two great wars and their turbulent aftermaths, he died in a coma in his country home at Sezimovo Usti. Coughing spasms weakened his tired old heart and the end came at 6:10 p. m. He was 64, and died on the ninth anniversary of the beginning of the Second World War.

Benes had a stroke a year ago. His artheries hardened. Last Tuesday he became unconscious and only drug injections kept him alive.

Mrs. Benes At Bedside

Mrs. Benes was with him when he died. A special Cabinet meeting was summoned for tomorrow to arrange the funeral. Communist Premier Antonin Zapotocky arranged a broadcast to the nation.

The death of the plucky statesman who rose from ranks of the peasants to world acclaim was announced to the people by the Czechoslovak radio just before the regular evening news broadcast. The radio then began playing recorded hymns and dirges.

Although his death was expected it carried no less a sense of shock and tragedy. Members of the staff of the Czechoslovak press agency who first advised the Associated Press of his death were weeping. Mourning compositors in Prague newspapers hurriedly slapped the news into prepared black-bordered forms for extras.

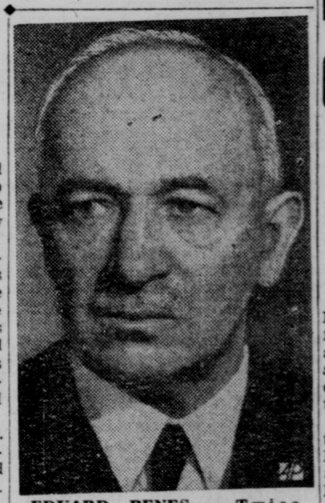

Communist Clement Gottwald, who succeeded Benes as President, was at Kolodeje Castle, his summer home outside Prague. He immediately ordered residential flags at half staff and dispatched a telegram of condolence to Mrs. Benes. In it, Gottwald said:

Resigned June 7

"A man honored and loved by all is leaving us. We bow before you who were with him in both good and bad times and were always a strength to him and stayed beside him in his last hours. Your pain should be lessened by the knowledge that we and all the nation share it with you."

Sick and disheartened, Benes resigned as President last June 7 rather than sign the new constitution the Communists drafted. He was succeeded by Gottwald, the man he had appointed Premier.

Benes had resigned once before as President when Adolf Hitler, greedy for the Czechoslovak Sudetenland, forced the Munich crisis between the two wars.

EDUARD BENES . . . Twice President of Czechoslovakia dies disheartened.

Striking Truckers Revise Demands

NEW YORK, Sept. 3—(AP)—AFL truck drivers today handed employers a new set of contract demands as the basis for settling a widespread walkout in the metropolitan area.

But there was little likelihood that the dispute, which threatens to affect some 1,800,000 workers employed in local industries, would end before Tuesday—the next date set for a joint meeting of employers and union representatives.

Meanwhile, squads of non-working members of Local 807, International Brotherhood of Teamsters, were reported roaming the city stopping trucks driven by members of Locals 816 and 282, who were not affected by the 807 dispute. The 807 efforts were successful, a spokesman for Local 282 said.

Long Port Tieup Seen

SAN FRANCISCO, Sept. 3—(AP)—West coast shipping was in the grip of a Longshore strike paralysis today from the Canadian border to Mexico.

The only vessels operating were oil tankers and bulk cargo carriers, both of which come under labor contracts separate from that affecting CIO Longshoremen and allied unions.

Picketing all major coast ports were 12,000 striking members of Harry Bridges CIO International Longshoremen's and Warehousemen's Union. Another 16,000 seafarers were idled. Caught in port were approximately 120 ships.

Bridges and the shipping industry were "hanging tough" and promising a "finish fight" on the long dispute, which the government unsuccessfully sought to stem by a Taft-Hartley law injunction.

The belligerent longshore leader predicted the strike would last four to six months.

Radcliffe May Manage Truman's Md. Campaign

BALTIMORE, Sept. 3 (AP)—Former United States Sen. George L. Radcliffe said tonight he was "quite positive" President Truman will ask him to manage the Democratic presidential campaign in Maryland.

Radcliffe said he had received a letter from the President asking him "to take a hand in the campaign." He said he had made other plans, but "if I take over the chairmanship I shall start the campaign right away."

He said both Gov. Lane and Baltimore Mayor D'Alesandro had urged him to take the helm in the campaign.

Asked To Make Record Clear On Red Backing

Dixie Anti-Truman Members Urged To Quit Demo Council

WASHINGTON, Sept. 3 (AP) — A Democratic National Committee official suggested today that "any and all" committee members who are supporting the States' Rights presidential ticket should resign from the committee.

William J. Primm, Jr., assistant to National Chairman J. Howard McGrath, made the proposal. He said such Democrats have "left the Democratic Party."

Primm's statement came in the midst of a controversy between Republicans and Democrats over Communist Party endorsement of the Roosevelt-Truman ticket in 1944.

Also, Secretary of Agriculture Brannan spoke out again on the issue of government support of some farm prices. Brannan said the GOP presidential nominee, Gov. Thomas E. Dewey and other party leaders want to destroy these supports by blaming them for high food prices.

GOP National Chairman Hugh D. Scott, Jr., demanded that President Truman say whether he accepted Communist endorsement as Mr. Roosevelt's running mate. The Democratic National Committee replied that President Roosevelt renounced such support before his fourth term election.

Proposal Refers To Thurmond

Primm's resignation proposal referred specifically to Gov. J. Strom Thurmond, South Carolina, States' Right presidential candidate, and Col. Marion Rushton, Alabama, who represent their states on the national committee.

He described Rushton as the "campaign manager for the Dixiecrats" in Alabama.

Primm said Thurmond informed McGrath in July he had resigned as national committeeman in a letter to W. P. Baskin, chairman of the State Democratic Executive Committee. A copy of the letter to Baskin went to McGrath, who expressed "regret" in reply.

But since then the state committee has refused to accept the resignation unless Thurmond insists on it.

Primm said he understood through press reports that Rushton also had resigned, but so far national headquarters has received no such notice. If he has resigned he should be commended, Primm stated.

Primm reaffirmed the national committee's promise of recognition to any pro-Truman group which officially organizes in opposition to the States' Rights ticket.

"If these people," he said referring to the States' Righters, "think they can fight the national party ticket and then come in and ask that they be seated or recognized by the national committee they are certainly mistaken."

GOP Chairman Scott's challenge of President Truman on the Communist endorsement issue came in a statement from the Republican National Committee.

He accused the President of trying to "snuff out" congressional investigations of Communists by "impetuous cries of 'red herring.'" He said he wonders if there was a "working agreement" between Mr. Truman and the Communists in 1944. If so, he asked when it was ended.

Scott referred to a statement August 12, 1944, by Eugene Dennis, Communist Party secretary, saying the Roosevelt-Truman ticket was

Dewey Says N. Y. Strike Record Is "Second To None"

Blames Washington, Moscow For Strife

ALBANY, N. Y., Sept. 3 (AP)—Gov. Thomas E. Dewey boasted today of "a strike record second to none" in New York and blamed Moscow, Washington and "selfish men" for the labor strife the state has experienced.

And the Republican presidential nominee took a quick second jab at Moscow.

In appealing for funds to provide food and clothing for relief of the people of Poland, Dewey said they have had to endure starvation, cold and disease "under a Red regime."

Dewey's labor views were expressed in his annual Labor Day proclamation, issued before he left to spend the weekend at his farm in Pawling.

Record "Second To None"

"In so far as we have been able to manage our own affairs," Dewey said, "we have achieved what is perhaps the best example of peace on a front where diverse interests must always be reconciled if free labor and free government are not to be surpressed.

"As the nation's leading industrial state, New York's strike record is second to none. Where we have had trouble, the sources of it may be traced to tap roots which are fed in Moscow or in Washington or in the designs of selfish men ruthlessly pursuing power or wealth."

Dewey did not elaborate on his coupling of Washington and Moscow. But mention of Moscow indicated he was talking about Communist influence in the labor field.

Two days ago Dewey said the job of cleaning Communists from Washington would get started "as fast as a Republican president can be elected."

New York Workers Lauded

Lauding New York's workers, the Governor said they "play an historic role in being an object lesson to the nation."

He expressed belief that "given an opportunity, their fellow workers in mills and mines and factories across America will respond in exactly the same way."

Thus he made an indirect bid for the votes of rank and file union members in the CIO and AFL, whose national leaders are backing President Truman.

"It is in our state," Dewey said, "that a living example of harmonious labor relations forecasts what can come into being for the entire nation."

Truman Victory Forecast

ROCHESTER, N. Y., Sept. 3 (AP)—A. F. Whitney, president of the Brotherhood of Railroad Trainmen, today predicted the re-election of President Truman and said the Democratic Party would "best serve the cause of liberal, progressive government."

Midget Plane Pilot Dies In Air Race Crash

CLEVELAND, Sept. 3 (INS)—The first fatality of the 1948 National Air Races marred final qualifying speed runs today at Cleveland airport.

Paul A. Deblois, 26, Longmeadow, Mass., crashed to his death when the wings of his "Beegee" midget racing plane crumpled during gravity tests at the airport.

The plane plunged into the banks of the Rocky River near the field and buried itself six feet into the ground. Deblois' body was pinned in the wreckage for several hours.

Police Break Up Woman's Sunbath Atop U. S. Capitol

WASHINGTON, Sept. 3. (INS)—A curvaceous 31-year old brunette—nude—took a sunbath atop the United States Capitol today.

Dorothy P. Smith, Malone, N. Y., was interrupted in her communion with nature on the roof of the Senate wing by police who felt the freedom symbolized by the stately Capitol dome didn't reach that far.

The woman explained that she stripped to the skin "because the sun is good for me."

The shapely miss was not without an audience, however. That proved to be her undoing.

Men painting the dome and nearby office workers stared aghast as the woman "peeled" off her clothes, emptied her purse and threw its contents off the roof.

Capitol guards said they got their first call when the woman took off her shoes and stockings. A guard reported:

"From then on in it was a play-by-play description as the telephone calls mounted.

"By the time our men got there, she was completely nude."

Miss Smith, who was taken to a Washington mental institution pending arrival of her mother, told authorities she had come to Washington to look for work. She said she decided she wanted a sun bath and figured the Capitol roof was as good a place as any.

Guards said the woman walked through the Senate library, where she told one inquisitive man she was an employe, and thence got onto the roof.

Truman Names Atomic Labor Relations Group

WASHINGTON, Sept. 3 (AP) — President Truman today appointed a three-member commission to study labor relations problems in connection with the atomic energy program.

The commission is headed by William H. Davis, former chairman of the War Labor Board and later director of the Office of Economic Stabilization.

His colleagues are Edwin E. White, chairman of the Department of Economics, University of Wisconsin, and Aaron Horwitz, now engaged in arbitration work in New York City.

A White House announcement said recent disputes at the Oak Ridge, (Tenn.) National Laboratory and at Los Alamos, N. M., "have raised serious questions as to the sufficiency of present collective bargaining methods in atomic energy installations."

Meat Outlook Will Remain Dark Despite Good Crops

WASHINGTON, Sept. 3 (AP)—Meat eaters can expect little betterment this winter in the supply of beefsteaks, lamb chops and pork, the Agriculture Department said today.

This is despite banner livestock feed supplies and a record breaking corn crop.

In fact, the department said, "meat production per capita for the rest of 1948 will run around 10 per cent less than the rate at the same time last year."

Price? The department does not hazard a guess.

The monthly "livestock and meat situation" bulletin said meat consumption in all of 1948 will total approximately 145 pounds per capita compared with 155 pounds in 1947.

But even the 145 pounds for each person is away ahead of prewar consumption. From 1935 to 1939 meat consumed per person per year averaged only 126.2 pounds. More people eat more meat now because they have more money—and that pushes up the price of steaks, chops and hams.

The department summarized the meat outlook this way:

"The banner feed supplies will allow heavier feeding and will be of slight benefit to the winter's meat supplies. They will delay the seasonal increase in supplies, as cattle and lambs are held back for grain feeding and hogs are fed to heavier weights.

"On the whole the immediate effect of big feed crops on meat output will be small, since meat animal numbers can be increased only after a considerable lapse of time.

"First chance for a large improvement in meat supplies is from the larger spring pig crop that can be expected in 1949, but hogs from that crop will not reach market until late next year."

La. Coastland Battens Down For Hurricane

Storm, With 75 MPH Winds, Expected To Hit Mainland Today

NEW ORLEANS, Sept. 3 (AP)—The Gulf hurricane is expected to hit the Louisiana coast between Morgan City and Grand Isle shortly after midnight tonight.

The weather bureau at 8:30 p. m. Central Standard Time, reported the hurricane had moved 120 miles nearer the Louisiana coast since its afternoon advisory and that its forward speed had increased from 10 to 15 miles per hour.

The advisory said that at 9:30 p. m. (Eastern Standard Time) the storm was centered about 130 miles southwest of the mouth of the Mississippi River.

It said the hurricane is attended by winds of 75 miles per hour over a small area near the center. Gales extend outward 250 miles to the east and northeast of the center.

"Quickie" Hurricane

At 3:45 p. m. (Central Standard Time) today the forecaster located the center of the storm about 210 miles southwest of the mouth of the Mississippi River. It was moving toward the coast at 10 miles per hour.

Winds up to 45 miles per hour were reported extending 250 miles from the center to the east and northeast.

The 3:45 advisory was issued immediately after a Navy "hurricane hunter" plane from Miami had radioed information from the dead center of the hurricane.

The plane was piloted by Ensign H. E. Ream, Adel, Iowa. Lt. C. R. Barron, Grand Rapids, Mich., an aerologist, flew with him.

Warning of the storm came suddenly to coastal residents. The disturbance was reported in the Gulf Tuesday, but Wednesday appeared to be flattening into rain squalls. Then this morning an Air Force plane discovered the squalls turning into a tropical storm.

Hurricane warnings were ordered for the coast between the mouth of the Mississippi and Vermilion Bay. Storm warnings were displayed eastward to Mobile and westward to Galveston.

Boats Stream Into Harbors

Some 200 trawlers of the shrimping fleet based at Morgan City, La., were in the Gulf when they received radio warnings. About 50 oil company boats also were at work servicing offshore drilling operations.

All afternoon the small craft were streaming into the safety of harbors and bayous.

The Coast Guard reported two ships, the Hope Crown of Galveston and the tanker Gulf Caribbean of Port Arthur, Tex., were in the path of the hurricane today. Last reports placed them about 90 miles north of the storm center.

The tankers Gulf Horn of Houston, Tex., and Esso Charleston of Jacksonville, Fla., were reported about 120 miles east of the center. Later the Weather Bureau at Miami said the Esso Charleston was moving out of the storm area at 11 knots, after reporting increasing wind and seas.

Egg Tossed At Wallace After Memphis Speech

MEMPHIS, Tenn., Sept. 3 (AP)—An egg splashed against Henry A. Wallace's automobile tonight after he had finished speaking before a large, unsegragated crowd that was held back by a rope and some 30 policemen.

The presidential aspirant of the Progressive Party shrugged off the egg-tossing affair by saying "it did no harm—it was just a pullet egg."

Wallace's audience interrupted him constantly with both cheers and jeers during the 25-minute talk. Police Inspector Claude Armour estimated the crowd at between 1,500 and 2,000, half of it negroes.

In the address which followed a short radio broadcast, Wallace praised the Tennessee Valley Authority, the Mississippi River delta's cotton yield and Cordell Hull—"the greatest statesman Tennessee ever had."

The candidate's speech opened his sweep through the last southern state on his current campaign.

Mitchum's Wife Declares She'll Stand By Actor

HOLLYWOOD, Sept. 3 (AP)—Actor Robert Mitchum's wife said today she will stand by her husband who faces narcotics charges.

Mrs. Dorothy Mitchum drove in today from the East to join him at their home.

Through a representative of Mitchum's studio, Mrs. Mitchum stated:

"Our differences were the same kind that all married couples get into. We've made them up. I love my husband and am back home to stay with him.

Polish Security Police Release Catholic Prelate

Zygmunt Kaczynski Detained 72 Hours

WARSAW, Sept. 3 (AP) — Polish security police released Msgr. Zygmunt Kaczynski from prison tonight after detaining him for 72 hours. He is the chief spokesman for the Catholic hierarchy in Poland.

An official announcement said Kaczynski, confidant and close friend of August Cardinal Hlond, primate of Poland, would be kept under surveillance pending completion of a security police investigation.

A government spokesman said Kaczynski was arrested in his apartment behind All Saints Church in Warsaw on Tuesday and accused of "anti-state activities."

Kaczynski's release came as reports spread that thousands of his parishoners were planning a demonstration demanding that he be freed.

The official announcement said security police were investigating the alleged connection of Cazimierez Studentowicz with the departure from Poland last year of Karol Popiel, who went to France. Popiel was president of the Christian Labor Party which was banned by the Polish government.

In addition to Studentowicz, five other employes of the influential Catholic weekly newspaper, Tygodnik Warzawski, were arrested a few hours before Kaczynski. Studentowicz is one of the paper's editors.

Kaczynski has been chief editorial writer and director of the publication.

Kaczynski's housekeeper said Tuesday that four militiamen took him away after searching the prelate's files and books. They offered no explanation.

At the time, Cardinal Hlond's secretary said the primate had been told of the arrest but had no further information.

Tygodnik Warzawski has for several months been at editorial odds with the pro-Communist press which is controlled by the government. These papers have rebuked the Catholic church for failure to take a stand on Poland's western frontier. They have accused Pope Pius XII of "anti-Polish statements" and have attacked a letter the Pontiff sent to German bishops a few months ago.

Security police recently arrested the editor of Tygodnik Powszechsny in Krakow. That paper usually reflects the views of Adam Cardinal Sapieha, Archbishop of Krakow.

Child Killed, 14 Hurt In Bus-Truck Collision

CHILLICOTHE, O., Sept. 3 (AP)—A six-year-old girl was injured fatally and 11 other persons were hurt today when a Greyhound bus collided with a coal truck on a narrow bridge over a creek north of here, the Highway Patrol reported.

Elsie Rhodes, Chillicothe, died in Chillicothe Hospital two hours after the accident. Her mother, Mrs. Louise Rhodes, was among four hospitalized with injuries.

The accident happened on a narrow bridge over Kinnikinnick Creek. The bus smashed into a side of the bridge and then careened into an embankment, the patrol said.

MITCHUMS REUNITED—Movie Actor Robert Mitchum and his wife, Dorothy were reunited yesterday at Hollywood for the first time since he was arrested in a narcotics raid. She was driving across country with their two boys at the time of his arrest. Mrs. Mitchum said she will stand by her husband.

Truman Advisors See Leveling Off In Prices

Brannan Says Dewey Attempting To Wreck Farm Price Supports

WASHINGTON, Sept. 3 (INS)—Government experts foresaw today a leveling off in the general price trend after a nine-year climb.

They explained, however, that there is nothing in the picture now to arouse fears of a crash which would bring mass unemployment and widespread price breaks in its wake.

An important factor in the situation, they said, is the bumper 1948 crops and their downward pull on prices of food and things manufactured from farm products.

From an overall standpoint, top-level government economists hold out to consumers hope of relief from climbing prices for the first time since the German legions smashed into Poland September 1, 1939.

The price climb is cooling just as the political controversy over inflation is reaching the boiling point. President Truman has sought to pin the blame for inflation on the Republican-controlled Congress. Gov. Thomas E. Dewey is accusing the President of trying to keep food prices up.

Major Campaign Issue

High prices loom as the major issue in the presidential campaign, which the President will formally launch with a Labor Day speech in Detroit.

The Dewey accusation was voiced Thursday by Harold E. Stassen with the New York Governor's approval. Stassen said the Truman administration had sought to keep food prices up by announcing plans for increased purchases of farm commodities.

Agriculture Secretary Brannan, in a second reply to the charge, said GOP leaders were conducting a "very sinister attack" on the government's crop price support program.

He said Dewey and other top Republicans intend "to destroy the farmers' price supports by falsely attributing to that legislation the exorbitantly high prices of certain foods."

Stennis Hits Stassen Statement

Sen. Stennis (D) Miss., who has vigorously opposed the President's civil rights program, denounced the Stassen statement as an attack on the price support system, and said it was "a demagogic attempt to provide a panacea for inflation for the big voting cities to swallow."

"Broke" Seaman Tries To Pawn Artificial Hand

BALTIMORE, Sept. 3 (AP)—Police said a 41-year-old seaman temporarily out of funds tried to pawn his artificial hand in two Baltimore loan shops today.

The sailor, was identified as Fred Burkett, Lawrenceburg, Tenn. He was charged with being drunk and committed to jail to serve out a $10 fine.

New Spy Probe Will Begin Soon

WASHINGTON, Sept. 3 (AP) — Disclosures of a third Red spy ring allegedly involving government employes will begin on Capitol Hill about the second week in October, the House Un-American Activities Committee announced today.

The timing will bring the hearings right into the thick of the presidential election campaign. Republicans have charged and Democrats have denied that the Roosevelt-Truman administration has been heavily infiltrated by Communists.

Chief Investigator Robert E. Stripling told reporters that in addition to the new spy probe, the House committee will look into:

1. Communism in Hollywood — a resumption of hearings which began nearly a year ago.
2. Communist inroads among negroes.
3. Entry of Reds into the United States.

Stripling said the committee, headed by Rep. J. Parnell Thomas (R-NJ), will resume hearings September 15 on the Hiss-Chambers case, then complete the Elizabeth Bentley hearings before going into the story of a new spy network.

Strike Violence

WILMINGTON, Calif., Sept. 3 (AP)—Striking CIO longshoremen and non-striking AFL sailors clashed today in a bloody battle at the Consolidated Lumber Company dock, where a lumber ship was being unloaded.

At least two men were knocked to the ground.

Crew Of Crippled Superfort Bails Out Over Holland

Grim Reality Added To British "Attack"

FIGHTER COMMAND HEADQUARTERS, Middlesex, England, Sept. 3—(AP)—The crew of an American Superfortress was forced to bail out over Holland today, adding grim reality to the start of a four-day mock air "battle of Britain."

The B-29, abandoned over the Sheldt Estuary due to engine trouble, crashed off the Dutch coast.

Reports here said 10 of the crew members were accounted for with one of the men seriously injured. It was not known here whether 10 or 11 were in the crew.

Dispatches from Vlissingen (Flushing), the Netherlands, said however, there were 11 crew members and all were rescued.

Fire Breaks Out

One of the crew members was quoted as saying fire broke out in one of the wings after engine trouble. When it seemed impossible to reach England after a 30-minute battle with the flames, he said, the crewmen took to their parachutes and the plane fell into the estuary.

The last two crew members rescued by fishing boat, the dispatches said, were Capt. C. J. Durocher, navigator, and Capt. James Farmer.

The dispatches said the names of the nine were Lt. Col. Harold Wilson of Oklahoma, Sgt. Walter Doyle Roquet, Frank Palzel, Franklin Dixon, T. C. Graham, B. E. Thornton, G. H. Burdge and A. Brofft. Roquet was reported to be injured seriously.

The bomber, one of 90 England-based B-29s engaged, was in an "attacking" force in the most extensive air exercises over Britain since the war. Hundreds—the exact number was kept secret—of Britain's latest model fighters, twin-engine Hornets and a dozen other types attempted to repel an "enemy" bombing force. The fighters included 600-mile-an-hour Meteor jets.

Anti-Radar Maneuver

The Superforts, flying at 30,000 feet, made daylight attacks against Birmingham, London, Hull, Coventry and other midland and southern industrial centers. Lancasters and twin-engine fighters used as bombers "attacked" tonight.

The daylight attackers swung out over Holland to get away from the

Ex-President Of Czechs Dies In Disillusionment

Eduard Benes, 64, Fought Lifetime To Keep Country Free

PRAGUE, Sept. 3 (AP) — Eduard Benes, who fought a lifetime to keep his beloved Czechoslovakia free from totalitarian rule, died today disheartened.

Twice president of a nation racked and squeezed by two great wars and their turbulent aftermaths, he died in a coma in his country home at Sezimovo Usti. Coughing spasms weakened his tired old heart and the end came at 6:10 p. m. He was 64, and died on the ninth anniversary of the beginning of the Second World War.

Benes had a stroke a year ago. His artheries hardened. Last Tuesday he became unconscious and only drug injections kept him alive.

Mrs. Benes At Bedside

Mrs. Benes was with him when he died. A special Cabinet meeting was summoned for tomorrow to arrange the funeral. Communist Premier Antonin Zapotocky arranged a broadcast to the nation.

The death of the plucky statesman who rose from ranks of the peasants to world acclaim was announced to the people by the Czechoslovak radio just before the regular evening news broadcast. The radio then began playing recorded hymns and dirges.

Although his death was expected it carried no less a sense of shock and tragedy. Members of the staff of the Czechoslovak press agency who first advised the Associated Press of his death were weeping. Mourning compositors in Prague newspapers hurriedly slapped the news into prepared black-bordered forms for extras.

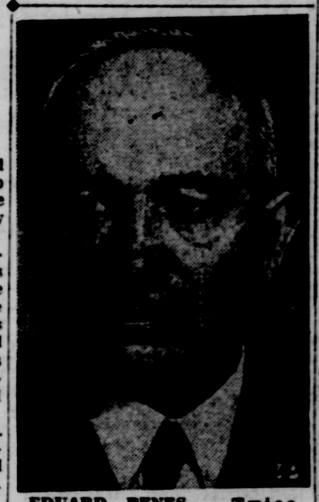

Communist Clement Gottwald, who succeeded Benes as President, was at Kolodeje Castle, his summer home outside Prague. He immediately ordered residential flags at half staff and dispatched a telegram of condolence to Mrs. Benes. In it, Gottwald said:

Resigned June 7

"A man honored and loved by all is leaving us. We bow before you who were with him in both good and bad times and were always a strength to him and stayed beside him in his last hours. Your pain should be lessened by the knowledge that we and all the nation share it with you."

Sick and disheartened, Benes resigned as President last June 7 rather than sign the new constitution the Communists drafted. He was succeeded by Gottwald, the man he had appointed Premier.

Benes had resigned once before as President when Adolf Hitler, greedy for the Czechoslovak Sudetenland, forced the Munich crisis between the two wars.

EDUARD BENES ... Twice President of Czechoslovakia dies disheartened.

Striking Truckers Revise Demands

NEW YORK, Sept. 3—(AP)—AFL truck drivers today handed employers a new set of contract demands as the basis for settling a widespread walkout in the metropolitan area.

But there was little likelihood that the dispute, which threatens to affect some 1,800,000 workers employed in local industries, would end before Tuesday—the next date set for a joint meeting of employers and union representatives.

Meanwhile, squads of non-working members of Local 807, International Brotherhood of Teamsters, were reported roaming the city stopping trucks driven by members of Locals 816 and 282, who were not affected by the 807 dispute. The 807 efforts were successful, a spokesman for Local 282 said.

Long Port Tieup Seen

SAN FRANCISCO, Sept. 3—(AP)—West coast shipping was in the grip of a Longshore strike paralysis today from the Canadian border to Mexico.

The only vessels operating were oil tankers and bulk cargo carriers, both of which come under labor contracts separate from that affecting CIO Longshoremen and allied unions.

Picketing all major coast ports were 12,000 striking members of Harry Bridges CIO International Longshoremen's and Warehousemen's Union. Another 16,000 seafarers were idled. Caught in port were approximately 120 ships.

Bridges and the shipping industry were "hanging tough" and promising a "finish fight" on the long dispute, which the government unsuccessfully sought to stem by a Taft-Hartley law injunction.

The belligerent longshore leader predicted the strike would last four to six months.

Radcliffe May Manage Truman's Md. Campaign

BALTIMORE, Sept. 3 (AP)—Former United States Sen. George L. Radcliffe said tonight he was "quite positive" President Truman will ask him to manage the Democratic presidential campaign in Maryland.

Radcliffe said he had received a letter from the President asking him "to take a hand in the campaign." He said he had made other plans, but "if I take over the chairmanship I shall start the campaign right away."

He said both Gov. Lane and Baltimore Mayor D'Alesandro had urged him to take the helm in the campaign.

Dewey Says N. Y. Strike Record Is "Second To None"

Blames Washington, Moscow For Strife

ALBANY, N. Y., Sept. 3 (AP)—Gov. Thomas E. Dewey boasted today of "a strike record second to none" in New York and blamed Moscow, Washington and "selfish men" for the labor strife the state has experienced.

And the Republican presidential nominee took a quick second jab at Moscow.

In appealing for funds to provide food and clothing for relief of the people of Poland, Dewey said they have had to endure starvation, cold and disease "under a Red regime."

Dewey's labor views were expressed in his annual Labor Day proclamation, issued before he left to spend the weekend at his farm in Pawling.

Record "Second To None"

"In so far as we have been able to manage our own affairs," Dewey said, "we have achieved what is perhaps the best example of peace on a front where diverse interests must always be reconciled if free labor and free government are not to be surpressed.

"As the nation's leading industrial state, New York's strike record is second to none. Where we have had trouble, the sources of it may be traced to tap roots which are fed in Moscow or in Washington or in the designs of selfish men ruthlessly pursuing power or wealth."

Dewey did not elaborate on his coupling of Washington and Moscow. But mention of Moscow indicated he was talking about Communist influence in the labor field.

Two days ago Dewey said the job of cleaning Communists from Washington would get started "as fast as a Republican president can be elected."

New York Workers Lauded

Lauding New York's workers, the Governor said they "play an historic role in being an object lesson to the nation."

He expressed belief that "given an opportunity, their fellow workers in mills and mines and factories across America will respond in exactly the same way."

Thus he made an indirect bid for the votes of rank and file union members in the CIO and AFL, whose national leaders are backing President Truman.

"It is in our state," Dewey said, "that a living example of harmonious labor relations forecasts what can come into being for the entire nation."

Truman Victory Forecast

ROCHESTER, N. Y., Sept. 3 (AP)—A. F. Whitney, president of the Brotherhood of Railroad Trainmen, today predicted the re-election of President Truman and said the Democratic Party would "best serve the cause of liberal, progressive government."

Asked To Make Record Clear On Red Backing

Dixie Anti-Truman Members Urged To Quit Demo Council

WASHINGTON, Sept. 3 (AP) — A Democratic National Committee official suggested today that "any and all" committee members who are supporting the States' Rights presidential ticket should resign from the committee.

William J. Primm, Jr., assistant to National Chairman J. Howard McGrath, made the proposal. He said such Democrats have "left the Democratic Party."

Primm's statement came in the midst of a controversy between Republicans and Democrats over Communist Party endorsement of the Roosevelt-Truman ticket in 1944.

Also, Secretary of Agriculture Brannan spoke out again on the issue of government support of some farm prices. Brannan said the GOP presidential nominee, Gov. Thomas E. Dewey and other party leaders want to destroy these supports by blaming them for high food prices.

GOP National Chairman Hugh D. Scott, Jr., demanded that President Truman say whether he accepted Communist endorsement as Mr. Roosevelt's running mate. The Democratic National Committee replied that President Roosevelt renounced such support before his fourth term election.

Proposal Refers To Thurmond

Primm's resignation proposal referred specifically to Gov. J. Strom Thurmond, South Carolina, States' Right presidential candidate, and Col. Marion Rushton, Alabama, who represent their states on the national committee.

He described Rushton as the "campaign manager for the Dixiecrats" in Alabama.

Primm said Thurmond informed McGrath in July he had resigned as national committeeman in a letter to W. P. Baskin, chairman of the State Democratic Executive Committee. A copy of the letter to Baskin went to McGrath, who expressed "regret" in reply.

But since then the state committee has refused to accept the resignation unless Thurmond insists on it.

Primm said he understood through press reports that Rushton also had resigned, but so far national headquarters has received no such notice. If he has resigned he should be commended, Primm stated.

Primm reaffirmed the national committee's promise of recognition to any pro-Truman group which officially organizes in opposition to the States' Rights ticket.

"If these people," he said referring to the States' Righters, "think they can fight the national party ticket and then come in and ask that they be seated or recognized by the national committee they are certainly mistaken."

GOP Chairman Scott's challenge of President Truman on the Communist endorsement issue came in a statement from the Republican National Committee.

He accused the President of trying to "snuff out" congressional investigations of Communists by "impetuous cries of 'red herring.'" He said he wonders if there was a "working agreement" between Mr. Truman and the Communists in 1944. If so, he asked when it was ended.

Scott referred to a statement August 12, 1944, by Eugene Dennis, Communist Party secretary, saying the Roosevelt-Truman ticket was

Midget Plane Pilot Dies In Air Race Crash

CLEVELAND, Sept. 3 (INS)—The first fatality of the 1948 National Air Races marred final qualifying speed runs today at Cleveland airport.

Paul A. Deblois, 26, Longmeadow, Mass., crashed to his death when the wings of his "Beegee" midget racing plane crumpled during gravity tests at the airport.

The plane plunged into the banks of the Rocky River near the field and buried itself six feet into the ground. Deblois' body was pinned in the wreckage for several hours.

Police Break Up Woman's Sunbath Atop U. S. Capitol

WASHINGTON, Sept. 3. (INS)—A curvaceous 31-year old brunette—nude—took a sunbath atop the United States Capitol today.

Dorothy P. Smith, Malone, N. Y., was interrupted in her communion with nature on the roof of the Senate wing by police who felt the freedom symbolized by the stately Capitol dome didn't reach that far.

The woman explained that she stripped to the skin "because the sun is good for me."

The shapely miss was not without an audience, however. That proved to be her undoing.

Men painting the dome and nearby office workers stared aghast as the woman "peeled" off her clothes, emptied her purse and threw its contents off the roof.

Capitol guards said they got their first call when the woman took off her shoes and stockings. A guard reported:

"From then on in it was a play-by-play description as the telephone calls mounted.

"By the time our men got there, she was completely nude."

Miss Smith, who was taken to a Washington mental institution pending arrival of her mother, told authorities she had come to Washington to look for work. She said she decided she wanted a sun bath and figured the Capitol roof was as good a place as any.

Guards said the woman walked through the Senate library, where she told one inquisitive man she was an employe, and thence got onto the roof.

Truman Names Atomic Labor Relations Group

WASHINGTON, Sept. 3 (AP) — President Truman today appointed a three-member commission to study labor relations problems in connection with the atomic energy program.

The commission is headed by William H. Davis, former chairman of the War Labor Board and later director of the Office of Economic Stabilization.

His colleagues are Edwin E. White, chairman of the Department of Economics, University of Wisconsin, and Aaron Horwitz, now engaged in arbitration work in New York City.

A White House announcement said recent disputes at the Oak Ridge, (Tenn.) National Laboratory and at Los Alamos, N. M., "have raised serious questions as to the sufficiency of present collective bargaining methods in atomic energy installations."

Meat Outlook Will Remain Dark Despite Good Crops

WASHINGTON, Sept. 3 (AP)—Meat eaters can expect little betterment this winter in the supply of beefsteaks, lamb chops and pork, the Agriculture Department said today.

This is despite banner livestock feed supplies and a record breaking corn crop.

In fact, the department said, "meat production per capita for the rest of 1948 will run around 10 per cent less than the rate at the same time last year."

Price? The department does not hazard a guess.

The monthly "livestock and meat situation" bulletin said meat consumption in all of 1948 will total approximately 145 pounds per capita compared with 155 pounds in 1947.

But even the 145 pounds for each person is away ahead of prewar consumption. From 1935 to 1939 meat consumed per person per year averaged only 126.2 pounds. More people eat more meat now because they have more money—and that pushes up the price of steaks, chops and hams.

The department summarized the meat outlook this way:

"The banner feed supplies will allow heavier feeding and will be of slight benefit to the winter's meat supplies. They will delay the seasonal increase in supplies, as cattle and lambs are held back for grain feeding and hogs are fed to heavier weights.

"On the whole the immediate effect of big feed crops on meat output will be small, since meat animal numbers can be increased only after a considerable lapse of time.

"First chance for a large improvement in meat supplies is from the larger spring pig crop that can be expected in 1949, but hogs from that crop will not reach market until late next year."

Woman Stabbed; Suitor Arrested

CAMBRIDGE, Md., Sept. 3—(AP)—A 34-year-old beauty operator was stabbed on a downtown street as she went to work today and police quickly arrested her suitor on a nearby corner with a knife in his hand.

Chief of Police Grason Price said Harley William Davenport, 42-year-old barber, told him:

"We were supposed to get married but she double-crossed me."

The victim was Mrs. Edith Plummer Brohawn, a divorcee. Doctors at Cambridge Hospital said late today they had been able to stop the flow of blood from two knife wounds in her back. They described her condition as satisfactory.

Chief Price said the intervention of Cleveland Todd, one of a dozen who saw the attack, was apparently the only thing that saved Mrs. Brohawn from being killed.

Todd ran across Muir Street when he saw the couple struggling and hit Davenport. The barber turned and knocked Todd down. Someone in the gathering crowd had a shovel. Todd grabbed it and beat Davenport off. Others hurried Mrs. Brohawn into a car and took her to the hospital.

When Chief Price and Officer Howard Smith arrived a few moments later, about 8 a. m. (EST), Davenport was standing at the corner of Muir and Race Street 200 feet away with a dagger in his left hand.

Chief Price said it had been bloodied to the hilt. He took a smaller knife and a straight-edge razor from Davenport's pockets.

representative not only of the Democratic Party but of important and wider sections of the camp of national unity."

"If Mr. Truman did, in fact, accept or approve such official endorsement of the Communists in the 1944 campaign, he owes it to the American people today to set the record straight," Scott added.

The Democratic National Committee, in reply, recalled that President Roosevelt had renounced Communist support in a speech October 5, 1944.

German Governors Hold Longest Session Of Week

BERLIN, Sept. 3 (AP)—The four military governors of Germany held their longest session of the week tonight amid speculation they were completing recommendations on settling the East-West Berlin crisis.

A news blackout on the negotiations continued.

Responsible Allied officials still declined to give a clue to the progress of the talks, now in their fourth day. This indicated to some observers that considerable hard bargaining was going on.

The length of today's session—4½ hours—seemed to lend support to speculation in the French-licensed German press that political quarters expected the military governors' report to be "prepared today and transmitted to their governments and the envoys assigned to negotiate with the Kremlin."

Marie May Be Asked To Form French Cabinet

PARIS, Sept. 3 (AP) — Radical Socialist Leader Andre Marie, whose French Cabinet collapsed a week ago, may be asked to form a new one, it appeared tonight. In any case, no candidate for the premiership will be chosen until tomorrow.

Premier-Designate Robert Schuman gave up trying to form a new government today and the prospects grew that that France would have to hold new national elections to work herself out of the current political deadlock. That is what Gen. Charles DeGaulle and his rightist Rally of the French People (RPF) have been urging for months as a step toward De Gaulle's return to power.

143 Marylanders Will Be Drafted In November

BALTIMORE, Sept. 3 (AP)—Maryland's first draft quota will be 143 for November, Col. Henry C. Stanwood, state Selective Service director, said today.

Col. Stanwood said questionnaires will be mailed beginning Tuesday to those who registered this week. After these are returned, he said, they will be able to determine whether the first quota will be filled from men born in 1922 or younger ones.

Church Council Report Condemning Communism, Capitalism Revised

AMSTERDAM, The Netherlands, Sept. 3 (AP) — The report to the World Council of Churches condemning both Communism and capitalism was revised today along lines proposed by Charles P. Taft, a brother of the United States Senator.

The original report by a section of 125 delegates to the assembly of 450 said "the Christian churches should reject the ideologies of both Communism and capitalism."

The revised version said the churches should reject the "ideologies of both Communism and laissez-faire (uncontrolled) capitalism."

Taft, an Episcopal lay delegate, earlier had told the press he would propose the revision because "while there is an ideology of Communism with all its inconsistencies, capitalism exists in so many variations that is was always difficult, and is today impossible, to state an ideology which even approximately represents capitalism in every country of the world."

He said the revised wording represented the "meaning which I believe was in the mind of the vast majority of the members of the section."

The revised version was read to the assembly by Dr. Henry P. Van Dusen, Presbyterian, of the Union Theological Seminary, New York. He was in the chair near the end of the session.

No delegate raised any objection but the amendment may come up for final action tomorrow. The assembly yesterday "received" the report for recommendation to the member churches. Officials said the action was not an approval or adoption.

Probe Of State Mental Institutions Proposed

BALTIMORE, Sept. 3 (AP) — A lawmaker and a state official recommended today the appointment of Legislative Council committees to investigate state mental institutions.

Letters proposing the move were sent to Sen. Joseph R. Byrnes (D-Balto 5th), chairman of the council, by Delegate Gordon Boone (D-Baltimore) and Dr. George H. Preston, commissioner of mental hygiene.

Dr. Preston suggested that Sen. Byrnes name a small committee of two or three members for each of the five mental hospitals.

Boone, a Towson attorney, specifically called for an investigation of "overcrowded conditions" at Crownsville State Hospital. But he expressed the belief that other state institutions should come in for similar attention.

Circle Begins Fall Activities

Mrs. Roy Eves assumed leadership of Circle 4, WSCS, of Centre Street Methodist Church, succeeding Mrs. L. E. Daugherty. The meeting was held Thursday night at the church and greeting cards were signed for absent members. Birthday greetings were sung for Mrs. Virgil Hartsock and Mrs. Jesse Straw.

The program consisted of a devotional by Mrs. Elizabeth Brown; reading of the Bible by Miss Mary Brengle, and Mrs. Ethel Barnard explained the meaning of a new committee.

Hostesses for the evening were Mrs. Ross Prysock, Mrs. Roy Snyder, Mrs. Jack Ault, Mrs. Lewis Twigg. Others present were Mrs. George W. Brown, Mrs. H. J. Wentz, Mrs. Guy Brengle, Mrs. Carl Goetz, Mrs. G. Frank Malin, Mrs. R. L. Frantz, Mrs. A. G. T. Twigg, Mrs. J. J. Woman Stabbed; Suitor Arrested

CAMBRIDGE, Md., Sept. 3—(AP)—A 34-year-old beauty operator was stabbed on a downtown street as she went to work today and police quickly arrested her suitor on a nearby corner with a knife in his hand.

Chief of Police Grason Price said Harley William Davenport, 42-year-old barber, told him:

"We were supposed to get married but she double-crossed me."

The victim was Mrs. Edith Plummer Brohawn, a divorcee. Doctors at Cambridge Hospital said late today they had been able to stop the flow of blood from two knife wounds in her back. They described her condition as satisfactory.

Chief Price said the intervention of Cleveland Todd, one of a dozen who saw the attack, was apparently the only thing that saved Mrs. Brohawn from being killed.

Todd ran across Muir Street when he saw the couple struggling and hit Davenport. The barber turned and knocked Todd down. Someone in the gathering crowd had a shovel. Todd grabbed it and beat Davenport off. Others hurried Mrs. Brohawn into a car and took her to the hospital.

When Chief Price and Officer Howard Smith arrived a few moments later, about 8 a. m. (EST), Davenport was standing at the corner of Muir and Race Street 200 feet away with a dagger in his left hand.

Chief Price said it had been bloodied to the hilt. He took a smaller knife and a straight-edge razor from Davenport's pockets.

representative not only of the Democratic Party but of important and wider sections of the camp of national unity."

"If Mr. Truman did, in fact, accept or approve such official endorsement of the Communists in the 1944 campaign, he owes it to the American people today to set the record straight," Scott added.

The Democratic National Committee, in reply, recalled that President Roosevelt had renounced Communist support in a speech October 5, 1944.

German Governors Hold Longest Session Of Week

BERLIN, Sept. 3 (AP)—The four military governors of Germany held their longest session of the week tonight amid speculation they were completing recommendations on settling the East-West Berlin crisis.

A news blackout on the negotiations continued.

Responsible Allied officials still declined to give a clue to the progress of the talks, now in their fourth day. This indicated to some observers that considerable hard bargaining was going on.

The length of today's session—4½ hours—seemed to lend support to speculation in the French-licensed German press that political quarters expected the military governors' report to be "prepared today and transmitted to their governments and the envoys assigned to negotiate with the Kremlin."

Marie May Be Asked To Form French Cabinet

PARIS, Sept. 3 (AP) — Radical Socialist Leader Andre Marie, whose French Cabinet collapsed a week ago, may be asked to form a new one, it appeared tonight. In any case, no candidate for the premiership will be chosen until tomorrow.

Premier-Designate Robert Schuman gave up trying to form a new government today and the prospects grew that that France would have to hold new national elections to work herself out of the current political deadlock. That is what Gen. Charles DeGaulle and his rightist Rally of the French People (RPF) have been urging for months as a step toward De Gaulle's return to power.

143 Marylanders Will Be Drafted In November

BALTIMORE, Sept. 3 (AP)—Maryland's first draft quota will be 143 for November, Col. Henry C. Stanwood, state Selective Service director, said today.

Col. Stanwood said questionnaires will be mailed beginning Tuesday to those who registered this week. After these are returned, he said, they will be able to determine whether the first quota will be filled from men born in 1922 or younger ones.

Church Council Report Condemning Communism, Capitalism Revised

AMSTERDAM, The Netherlands, Sept. 3 (AP) — The report to the World Council of Churches condemning both Communism and capitalism was revised today along lines proposed by Charles P. Taft, a brother of the United States Senator.

The original report by a section of 125 delegates to the assembly of 450 said "the Christian churches should reject the ideologies of both Communism and capitalism."

The revised version said the churches should reject the "ideologies of both Communism and laissez-faire (uncontrolled) capitalism."

Taft, an Episcopal lay delegate, earlier had told the press he would propose the revision because "while there is an ideology of Communism with all its inconsistencies, capitalism exists in so many variations that is was always difficult, and is today impossible, to state an ideology which even approximately represents capitalism in every country of the world."

He said the revised wording represented the "meaning which I believe was in the mind of the vast majority of the members of the section."

The revised version was read to the assembly by Dr. Henry P. Van Dusen, Presbyterian, of the Union Theological Seminary, New York. He was in the chair near the end of the session.

No delegate raised any objection but the amendment may come up for final action tomorrow. The assembly yesterday "received" the report for recommendation to the member churches. Officials said the action was not an approval or adoption.

the President's Council of Economic Advisers, foresaw the price trend languishing into "a sidewise movement." But he added:

"Anything you would call a break I don't see in the picture."

Dr. Nourse called at the White House and gave the President one of his periodic reports on the economic situation. Afterward, he said to newsmen:

"Prices are still advancing but they are not running wild. There is a creeping advance in prices generally."

Telephone Union Has Fall Dance

The Telephone Union entertained members and friends with a semi-formal fall dance last night at Clary Club. The first party since the summer recess, it was attended by approximately 200 guests. Music was by the Modernaires from 9 until 1 o'clock.

Miss Ina Tichnell was chairman of arrangements.

Johnson Leading

DALLAS, Sept. 3 (AP) — Lyndon Johnson held a slim lead of 17 votes over Coke Stevenson in the Texas Election Bureau's latest revision of totals from last Saturday's Democratic runoff primary for the United States Senate.

80 Dead In Train Wreck

HONG KONG, Saturday, Sept. 4 (AP)—At least 80 Chinese were reported killed and 105 other persons, including two Americans, were injured yesterday in the wreck of a passenger train north of Hong Kong.

Probe Of State Mental Institutions Proposed

BALTIMORE, Sept. 3 (AP) — A lawmaker and a state official recommended today the appointment of Legislative Council committees to investigate state mental institutions.

Letters proposing the move were sent to Sen. Joseph R. Byrnes (D-Balto 5th), chairman of the council, by Delegate Gordon Boone (D-Baltimore) and Dr. George H. Preston, commissioner of mental hygiene.

Dr. Preston suggested that Sen. Byrnes name a small committee of two or three members for each of the five mental hospitals.

Boone, a Towson attorney, specifically called for an investigation of "overcrowded conditions" at Crownsville State Hospital. But he expressed the belief that other state institutions should come in for similar attention.

Just Between Us

Go Ahead And Ask; Waiting, Worrying Will Not Help You

By NANCY MOTTRAM

(Q) "Dear Nancy: I believe that you should give some advice to boys about how to ask a girl for a date. A lot of fellows would like to take girls out, but never get around to asking them because they're afraid the girls will say no, or they're too embarrassed to come right out with it. I think a few hints on the proper way to dress for a date would come in handy, too, and it might solve a lot of questions for other fellows as well as myself."

Nancy Mottram

(A) The girl you have on your mind as definitely datable isn't going to walk up to you and suggest that you two take in a movie or go bowling this coming weekend. You're going to have to do the asking — it's up to you — and the longer you wait, the more chance there is for someone else to begin taking up her time. It doesn't take much effort to dial her number and, after a couple of minutes of talk, ask her if she'd like to go out Saturday night. If you don't know her too well, fix up a double date, and the conversation and success of the evening will be shared while you get to know her better. For regular dates, suits and ties and shoes that don't look as though they'd lately come through the Sahara are preferred. For a party, it's suit coats, or jeans, depending on whether it's a casual get-together or an affair by invitation.

•—•—•

(Q) "Dear Nancy: I've never had a regular date with this boy, but he once walked me home from a dance. Since then, he hasn't paid any particular attention to me. I tried to forget him, but every time I see him, although he just says "Hi," and walks on, I find that I still care for him. Do you think I should ask him what is wrong?"

(A) If you had been dating and this happened, it would be the simplest thing to do, but in this case, no. You have no claims on his attention, and asking him why he hasn't called or bothered to stop and talk would be admitting your feelings, when you don't know about his. Just bide your time and don't let him ever guess that his attitude is bothering you. Keep your thoughts away from him by dating other boys, and although he may show interest again, it's best not to count on it.

•—•—•

(Q) "Dear Nancy: I've known this girl for some time and we used to date quite a bit. I'm sure she likes to go out with me, but for one simple reason, I haven't been seeing her lately. I don't have a part-time job any longer, and I just haven't the means to take her out. Should I explain this to her, or just let things go on the way they are?"

(A) At this point, she's probably wondering what happened to make you lose all interest in her. By not dating her, or explaining why, you might be losing her, and you'd better clear matters up right away. You don't have to go to the most ultra place in town to enjoy a date. It's easy to arrange a casual party with the girls collaborating on the sandwiches and the fellows chipping in for the coke. Talk to her and tell her your situation, and between you, you're sure to come to an understanding.

Nancy can help with all your teen-age problems. Write her in care of this newspaper.

What The Investigation Into Spying Has Proved

Following the Administration's curious policy of pooh-poohing the loyalty inquiry by Congress, Secretary of Commerce Sawyer told a Veterans of Foreign Wars Encampment that "the interesting and comforting thing" about the hearings is that "they have proved so little."

Coming from an official of an Administration which has done its utmost to obstruct the inquiry, that assurance is not very comforting. To begin with, some important facts have been proved by the House and Senate committees. They have proved that at least two men were given responsible posts in the Government during wartime and were promoted even though they were known to be suspected and under investigation for disloyalty. Few Americans will regard that as a "little" matter.

It is true that the charges of Elizabeth Bentley and Whittaker Chambers have not yet been proved. But the hearings have brought out a number of exceedingly curious facts, and definite proofs may come before the investigations are concluded. The testimony of Adolph A. Berle, former New Deal braintruster, about Alger Hiss is "interesting" and not at all "comforting." It's a little early to be crowing over what the committees have failed to "prove."

But the plot thickens in the Hiss-Chambers case by the release of secret testimony by Louis Budenz, ex-Communist and former editor of the Communist Daily Worker. When the House committee staged its "public confrontation," Chabers steadily insisted that Hiss was a member of an underground Communist elite group in Washington, while Hiss readily retorted that his accuser was lying. The committee naturally concluded that one of the two must be guilty of perjury and called upon the Justice Department to take appropriate action. The Department must now carefully sift the testimony of Louis Budenz.

This man, who used to be high up in the American Communist Party, told the committee under oath that he had always considered Hiss to be "under Communist Party discipline." He added that Hiss was associated with Nathan Witt, whom Budenz says he also knew as a Communist, and who has refused to tell the committee whether he is or ever was a Communist.

It is baffling and confusing but it will have to be untangled to the benefit of Hiss or Chambers. There is no doubt in any reasonable mind today that the House group must get to the bottom of this mysterious business, no matter how long it takes or how painful the process may be to a number of individuals. The facts of the Communist infiltration into the higher places of our Government must be established. The issues involved in the Hiss-Chambers case are so grave that any further talk about "witch hunts" may be regarded as an effort to suppress the truth.

Meantime, it has been proved to the dullest mind that the congressional committees have been handicapped by the President's refusal to release official records, even under elaborate safeguards for confidential sources. In effect, Mr. Truman has encouraged witnesses to abuse the protection of the Constitution. We can see nothing for the Administration to boast about in the fact that so many persons suspected of disloyalty have refused to answer questions on the ground that they might incriminate themselves.

In view of the whole Administration attitude, to belittle the results of the inquiry to date is like tripping a man and then accusing him of being unsteady on his feet.

Dixiecrats Talk Of Swinging All The Way

The Dixiecrats got out of the Democratic Party immediately after the Philadelphia convention and put a separate ticket in the field headed by Gov. Thurmond of South Carolina and Gov. Wright of Mississippi. Now there is another movement afoot in the South, which is to make the party exodus complete in some states by voting for Dewey and Warren. As the Savannah (Ga.) Morning News puts it, "the South, by voting the Republican ticket, will stand a much better chance of political recognition in Washington."

Texas, where the movement is strongest, offers a fair illustration of the procedure to be followed. As the Southern Weekly (published in Dallas) recites, the Republican Party there is fairly strong and the Truman forces apparently in the minority. But if the opposition to the President is divided between the Dixiecrats and the Republicans, he will get something over a third of the total votes and will carry the state. But if the Dixiecrats vote in the Republican column the President may be decisively defeated.

The Southern Weekly puts it this way: "In Mississippi, in Alabama and in South Carolina, where the Republican vote is negligible and where the Dixiecrats are the official Democratic Party, Thurmond and Wright are doing a great service to the South. But in Texas and some other Southern States the proper course is to vote Republican!"

What stands out is that, right now, the South takes its traditional affiliation with the Democratic Party anything but seriously, while it acutely dislikes that Border State Democrat, Mr. Harry Truman.

More Money

It is hardly surprising to anybody that individual incomes in the United States during 1947 reached an all-time peak. How could it have been otherwise?

With work available to nearly every person who wanted it and with wages much higher than ever before, it was inevitable that 1947 would be a record year for the amount of money it put in the hands of the people.

Presumably, too, the present year will show an improvement over last year. Employment is still at a peak and wage scales have been further increased. Unless, therefore, there is a recession in the next few months 1948 will set another record.

Gratifying as the prospect is, the average person knows that he is not so much better off financially as the bare figures indicate. Unless prices become stabilized, an increase in national income is not necessarily significant of anything except the fact that there is a lot of money in circulation.

A doctor says the dark glasses fad is making this a nation of moles. In addition to shutting out all the rosy outlooks.

HOW TO KEEP WELL

By Dr. Theodore R. Van Dellen

To the limit of space, questions pertaining to the prevention of disease will be answered. Personal replies will be made under proper limitations, when return stamped envelope is enclosed. Dr. Van Dellen will not make diagnosis or prescribe for individual diseases.

The Need For Eye Surgery

Eye surgery has reached a high state of perfection and physicians in this field are capable of doing many wonderful things. Age is no longer a hazard,, and according to Knapp, operations can be performed during the first few weeks of life or the last. This should be reassuring to those who believe that they are too old to undergo operations of this type.

Dr. Van Dellen

Many other factors besides age influence the decision as to the advisability of eye surgery. It is never done when the problem can be solved in a safer and easier manner. It is wise, therefore, to determine whether additional medical treatment will control or improve the malady. The important exception is when the risk of going blind is greater through the use of eye drops and other drugs than can be expected from surgery.

•—•—•

Victims of high blood pressure, diabetes, hardening of the arteries, and other generalized disturbances need not fear the ordeal. These conditions can be controlled sufficiently for the operation, and even in emergencies, rarely constitute a hazard. The presence of an eye infection is different because an incision into inflamed tissues encourages the spread of bacteria. Nevertheless, since the advent of penicillin and streptomycin, this situation is no longer a serious threat.

The exact time to perform the operation is an individual problem. Opinions differ, for example, with cataracts but we know that there is no need to put it off until the lens has ripened. This concept was followed in the past and many persons waited for 10 or more years, in a state of partial blindness, for the cataract to mature. Had the operation been done earlier, many years of good vision would have been possible. The need for high visual acuity is not so great in housewives and laborers and they can afford to postpone the procedure until sight is so poor that they are unable to perform their duties. In this disorder, therefore, it is a matter of how long the sufferer wants to go about with imperfect vision.

•—•—•

In glaucoma, however, incurable blindness ensues if the abnormality is not rectified. But here, medical management is valuable and surgery is recommended only when these measures fail. Cross-eye may be treated in several ways including drops, the application of a patch on the good side, or utilizing orthoptics. But when these methods do not correct the defect, something else must be done otherwise the crossed eye will become blind ultimately. For this reason, straightening should be the rule before the age of six years.

When a tumor exists and the life of the patient is at stake, removal of the orbit (enucleation) is necessary. Excision is also recommended when a blind eye is painful because it is sheer folly to suffer from a useless organ. Sympathetic ophthalmia is another affliction that demands this radical procedure. Removal is essential because one eye is already blind and is endangering the sight of the other. Enucleation is advised occasionally for cosmetic reasons when injury or disease has left the structure so unsightly that it is far better to substitute a glass eye.

ONLY ONE ORGANISM

M. S. writes: Is there more than one kind of tuberculosis?

Reply

Yes, if you refer to sites of invasion such as the lungs, bones, kidneys, etc. but the organism is the same, regardless of where it chooses to settle. We also refer to primary and secondary tuberculosis. The former is the initial infection. It occurs during childhood, and is usually so mild that it escapes detection. The secondary form develops later in life and is due to re-infection. It differs from the primary attack because the individual has developed a sensitivity to the germ.

It Says Here

Don't "spoke" to me.

Twenty-one-year-old Norma Jean Belloff recently finished a New York-to-California bicycle solo in 53 days . . . of course, she hit a lot of stop lights.

When she jumped off her bicycle in Los Angeles, they had to hold her . . . her feet were still going around.

It's lucky she had only a bicycle. If they'd given her a motor scooter, she'd probably be wiring home from the Foreign Legion for money.

This 53-day bicycle trip doesn't really surprise me . . . my brother's been peddling all his life.

But this girl's got the real pioneer spirit. In fact, if she'd been born a hundred years ago, Horace Greeley would have said, "Go west, young woman . . . and when you get there, say 'hello' to Norma Jean."

While en route she worked to earn enough to keep going. When she reached California and they found out how far she'd traveled by bike, they automatically told her to take off her shoes, and offered her a job crushing grapes.

Norma explains her unusual journey by saying, "I had all this energy and nothing to do with it." The next time she plans a trip, she ought to have the Atomic Energy Commission work out her route.

Justice Department To Crack Down On Lobbyists; Presidential Campaign To Be Family Affair; Wallace Backers Admit He Will Not Carry A State

Says ROBERT S. ALLEN

(Ed. Note:—While Drew Pearson is on a brief vacation, the Washington Merry-Go-Round is being written by his old partner, Robert S. Allen.)

WASHINGTON, Sept. 3—The Justice Department is preparing to crack down on four prominent unregistered lobbyists who wielded a lot of influence in Congress. One played a leading role in blocking repeal of the federal tax on oleomargarine.

A White House guard detained Supreme Court Justice William Douglas for five minutes when he attempted to leave by a side entrance after a recent visit with the President.

Senator Edward Robertson, facing a tough re-election fight, has received no word yet to his appeals that Governor Dewey come to Wyoming to put in a plug for him. . . . Comment on a Truman crony by Joe Borkin, ace former Justice Department official: "Every time that guy opens his mouth, his shoelaces fall out."

Politics

The Presidential battle will be a family affair. President Truman's wife and daughter will accompany him on his electioneering trips and Mrs. Dewey and a son will tour with the Republican standard-bearer. . . . The Republican National Committee is sending special publicity men to help GOP Senatorial candidates in doubtful states. Also, the Committee has earmarked $500,000 for these contests. . . . Wallace lieutenants, in candid moments, admit he won't carry a single state . . . . Representative Everett Dirksen, able, hard-working Illinosian retiring from Congress, is a good bet for Secretary of Agriculture in the Dewey Cabinet—if there is one.

Latest Minnesota poll shows Senator Joe Ball trailing Minneapolis Mayor Hubert Humphrey by an eight-point margin. . . Dave Beck, potent West Coast teamsters czar, will back the Dewey-Warren ticket. Beck has long been on close terms with Governor Warren.

Thomas Emerson, Yale law professor, is continuing to run as the third-party candidate for Governor of Connecticut despite a statement he would withdraw if the Democrats nominated Chester Bowles, former OPA director. . . . Bill McAdams, press aide to Senator Taft during his pre-convention campaign, is staying on in the Capital despite attractive offers elsewhere. "I guess it's Potomac fever," McAdams grins. "It's the same disease Clark Clifford in the White House has."

Around the Circuit

Gen. Lucius Clay has a $150,000-a-year job waiting for him when he retires from the Army. . . . Philip (Moon) Mullen, member of the Mississippi Legislature, is waging a fearless battle against race hatred in his state. . . . One member of the House un-American Activities Committee comes from Moscow. He is Representative Abe Goff of Moscow, Idaho. . . . Under the title, "Three To Make Ready," it deals with the problems of raising a family in a Capital suburb. . . . Champion father on Capitol Hill is A. J. Burbon, administrative assistant t Maryland Senator Herbert O'Conor. Burbon has 11 children—6 boys and 5 girls, ranging from 8 to 25 years.

The four chief wartime assistants of the late great General Patton are now back in the U. S. They are Maj. Gen. Hobart Gay, Chief of Staff, now commander of the Washington Military District; Brig. Gen. Walter J. Muller G-4, now with the Army field forces; Col. Oscar Koch, G-2, now assistant commandant at Fort Riley; and Col. Halley Maddox, G-3, now holding the same post in the new Hq. Third Army. . . . The Washington AVC chapter has opened a handsome new clubhouse that is being run on a nonsegregation basis. . . . The National Foundation for G.I. Joe, Inc., headed by Col. William G. Nicklas, has launched a drive to raise funds to provide entertainment for hospital-immured veterans.

Col. James E. Kilian, convicted for mistreating soldiers during the war, will make another attempt to get his case reopened if Dewey is elected President.

India, which won its independence largeley through the efforts of the late, peace-loving Mahatma Gandhi, has embarked on a large military program. . . . Newsmen rate Comdr. W. J. According to a Pentagon tabulation based on Chinese Nationalist and Communist claims, each has killed more of their rivals than both have in their armies.

In one of its campaign publications, the Michigan Republican State Central Committee attacks the great Tennessee Valley Authority as a "Communistic project.". . . . Addressing the International Bar Association at The Hague, former Assistant Attorney General Norman Littell declared that American private enterprise is making European recovery possible. . . . The American Federation of the Physically handicapped, whose recent national convention was warmly commended by President Truman, is organizing a number of new state departments, including one in Washington.

The bomber tops the B-36 and will be the most powerful in the world. . . . The father of Brazilian Ambassador Mauricio Nabuco is the Abraham Lincoln of that country. The elder Nabuco abolished slavery in Brazil in 1888. . . . A favorite pastime of General Eisenhower is cooking. . . . Says Rev. Peter Marshall, plain-talking Senate Chaplain, "There are no politics in prayer, but there should be a lot more prayer in politics.

Doubtful Voters Will Want A President Of A Split Party

By MARK SULLIVAN

President Truman on Monday begins his campaign with a formidable effort and array: a major opening speech from Mr. Truman himself; speeches by four cabinet members—Secretaries Tobin of Labor, Brannan of Agriculture, Royall of the Army, Attorney General Clark; speeches by four Senators—Pepper of Florida, Kilgore of West Virginia, Murray of Montana, McGrath of Rhode Island who is also Chairman of the Democratic National Committee.

Superficially that seems formidable, the welcome should sound loud. But beneath that surface glitter of massed oratory lie the facts Mr. Truman faces. These are formidable in a different and more real sense. One basic condition, party cleavage, is alone enough to be ominous. What was the Democratic Party four years ago is today three parties, each formally organized with a Presidential candidate—the Democrats, Mr. Henry A. Wallace's Progressive Party, and the States' Rights Party.

Mr. Wallace's Progressive Party, though not even faintly formidable as respects prospect of victory, is formidable indeed in its effect on Mr. Truman's prospects. Whatever the number of votes Mr. Wallace may receive, practically all will be a subtraction from Mr. Truman—it is difficult to imagine anyone voting for Mr. Wallace who otherwise would have voted for Mr. Dewey.

Wallace Given 5,000,000 Votes

As of the present, estimates of the Wallace strength vary from four to six millions, some 10 per cent of the total electorate. The average, five millions, if subtracted from the vote Roosevelt got in 1944, would have defeated him. Moreover, an extremely large proportion of the Wallace vote will come from New York City and hence detract from Mr. Truman's chance of carrying New York State. And in only one Presidential election in more than fifty years has a party lost New York State and been able to carry the county.

The States' Rights Party, even if it should not take from Mr. Truman any state in the Democratic solid south, which is the new party's home, might still be a material detriment to him. The new party's principles are cherished by Democrats in the border states—Maryland, West Virginia, Kentucky and Missouri. These states are always doubtful, they go one way or another by narrow majorities. A defection of as little as 5 per cent might lose them for Mr. Truman.

In addition to the cleavage which expresses itself in two formally organized parties with candidates for President, there is another within the Democratic Party as it now stands. What remains of the shorn party is composed of two main groups. One consists of old-school Democrats, among whom the most effective in elections are those symbolized by the leaders in big northern cities. The other consists of liberals many of whom, when they found Mr. Henry A. Wallace too far left for them, organized Americans for Democratic Action. This group was active at the Democratic National Convention and had a considerable hand in bringing about the platform. The two groups, ADA and Northern city bosses, as far apart as possible in political thought, are superficially united behind Mr. Truman.

Leaders Predicted His Defeat

Yet before Mr. Truman was nominated, leaders of both groups made attacks upon him, and predictions of his defeat. Leaders of ADA issued a statement saying, "There is so little public enthusiasm for the Truman Administration that the Democratic Party would face a very difficult uphill fight if he were nominated."

About the same time, less than a week before the convention, 19 old-school Democratic leaders issued a call for a rump caucus (not actually held) to oppose nomination of Mr. Truman. The group included Mayor William O'Dwyer of New York, Leader Frank Hague of New Jersey, Illinois leader Jacob M. Arvey, Governor Tuck of Virginia and James M. Roosevelt, son of the late President. One of the group, Mr. Hague said: "Every leader I conferred with has informed me that if President Truman is the candidate, it means a landslide on the Republican side."

These are not statements by rivals of Mr. Truman for the nomination, they represent important groups. No matter if leaders who made such statements now recant or practice an embarrassed silence, the statements are likely to remain in the minds of voters, whose memories will be refreshed by Republican orators. And there is a fundamental doubt whether two groups so different in political thoughts as ADA, and party leaders and followers in Northern cities, can both be stirred to enthusiastic support of Mr. Truman. Mr. Truman faces also a doubt whether voters generally will wish the country to be in charge of a party so divided.

Truman Considered It Proper That Russia Be Given Secrets

By DAVID LAWRENCE

WASHINGTON, Sept. 3 — President Truman was provoked by a reporter's question into a reiteration of his claim that the current investigation of Communists is still a political "red herring." But, unfortunately for the President, he overlooked the fact that the testimony before the commissioner of immigration this week on whether to deport certain Communists was not conducted by politicians but was a part of the legal proceedings of the Department of Justice.

The revelations concerning the Communist "J. Peters" at this hearing had nothing to do with any political "red herring." Yet they tie in directly with and corroborate some of the testimony before the House Committee on un-American Activities.

The national political campaign will be over within nine or ten weeks and congressional committees will then continue their inquiries. They have been doing this kind of investigation for several years. When the election is over, will Mr. Truman still tell the American people that the disclosures about Communists inside and outside the government are a "red herring" across a political campaign?

Tries To Justify Acts

Mr. Truman went out of his way in his press conference to repeat some of the fallacies which have been spread in recent weeks about the disclosure of information by Americans to Russians during the war. The President pointed out that during the war Russia was an ally. He inferred that it was therefore all right to tell the Russians our war secrets.

Yet on the same day that Mr. Truman was holding his press conference, an article by General Spaatz, formerly commander of our air forces, was published in "Life" magazine, stating that the Russians fired on an American B-29 in August 1945 and deliberately stole the equipment and contents.

Likewise there were, as the President well knows, certain security regulations during the war which did not permit anyone in the Government to give out information except through authorized channels. The Chambers and Bentley testimony before the House committee indicates that certain information was given out to Russian agents. Does the President mean to say that it was all right for officials to give any information indiscriminately to Russian agents?

U. S.-Russian Relations

Doesn't the President know that relations between Russia and the United States were far from close where military information was concerned? Thus the Russians for a long time refused to permit American military observers to witness operations on the German-Russian front.

Also it is a fact that when American intelligence authorities uncovered, in advance of the Hitler attack on the Soviets in June 1941, the fact that the Nazis planned on a certain day to invade Russia and told it to the Russian Ambassador in Washington, he promptly went to the German embassy and naively asked the Germans about it.

All through the war there were suspicions that some of the Russians who had acted as a front in the United States for the Germans during the 1939-to-1941 period of the war, when America was theoretically neutral, still did business for the Nazis. Certainly the German intelligence bureaus were not so stupid as to employ as their agents persons who spoke with a German accent. They preferred to use persons of other nationalities. For the President to excuse the transmittal of information by governmental officials to outsiders who claimed to be Russians or friends of any other country, on the ground that Russia was an ally and that the only spies were Germans or Japanese, is to take a careless view of security. One may hope that Mr. Truman will not allow that innocent view of espionage methods to become official hereafter.

U. S. Business Carried On Loosely

The current investigations have uncovered how loosely the Government business was conducted and how easy it was for Communist agents to get information from our own government. No amount of excusing of that sort of looseness will sit well with the American people even if the object is to offset a piece of political strategy in a campaign.

There has been lately a tendency to belittle the evidence furnished by self-confessed spies—as if the witnesses need not be believed because they were spies. Many a guilty person would have escaped punishment in America in the past if the testimony of witnesses who turned "state's evidence" had not been given credence.

Mr. Truman had many other effective answers he could have made to the cry that Communists penetrated the government during and since the war. But he has added much fuel to the flames and, by his challenges, has actually goaded the investigators to prolonged hearings. It would be to the best interest of the country if all the hearings by the congressional committees were suspended until immediately after the election, when it is to be hoped the Administration will cooperate fully in exposing to view all those misguided persons in the Government who were tied in any way with the Russian spy rings and activities. It can't continue to be a "red herring" in December and January.

These Days

By GEORGE E. SOKOLSKY

The Case Of "The Nation"

The argument over the withdrawal of "The Nation" from the public schools of New York City has gone so far afield that it is necessary to restate some of the principles involved:

1. No public school system can afford to keep in its library all the daily newspapers, weekly and monthly magazines published in the United States. A selection has to be made to conform with budgetary requirements and the particular needs of the particular institutions. New York City publishes 100 daily newspapers in English; in the United States, there are 1,769 such newspapers. The number of magazines published is varyingly enormous.

That act of selection involves discrimination and the normal prejudices and sentiments of human beings. A librarian or principal who prefers "The New York Times" or "The Sun" to "The Daily Worker" or "Women's Wear" is not necessarily engaging in censorship. If the budget allows for five out of 100, he has to make a choice.

2. Some publications lose their usefulness. I let my subscription to "The Nation" drop many years ago. Yet I subscribe to "The New Republic," "Mainstream and the New Masses," buy the "New Times" published in Moscow. Annually I go through my subscriptions and cut out those which I no longer find useful.

Of the publications on the Left, I found "The Nation" the least useful even for the presentation of the Leftist point of view. In my judgment, it has gone to pot.

That does not involve any question of censorship, but of selectivity. "The Nation" was once the best weekly published in the United States and it was edited by an outstanding personality and journalist, Oswald Garrison Villard. That is no longer true, and the magazine shows it.

3. The immediate row now before the public started over a series of articles on the Catholic Church by Paul Blanshard. I have not read the articles, but the argument arising from them would indicate that Mr. Blanshard does not approve of the Catholic Church and states his reasons in polemic style. No one questions the right of Mr. Blanshard to oppose the Catholic Church, or "The Nation" to publish his polemics.

The New York City schools include children who are Catholics. The Anti-Defamation League, a Jewish organization, has for many years waged an active campaign against the use of literature for children which tends to increase Anti-Semitism among children. I recall opposition to Shakespeare's "Merchant of Venice" and to "Dickens's "Oliver Twist" and "A Child's Life of Christ," and to Walter Scott's "Ivanhoe"—masterpieces of English literature.

If the Jews can object to literature which they regard as creating antagonism among children before they are old enough to discriminate, the Catholics are justified in objecting to Mr. Blanshard's articles in "The Nation".

4. The assumption that a public school child is old enough to make its own selections is pedagogically false. How did the child, between the ages of 6 and 14, come upon such wisdom? And if the child is so wise and knowing, why have the teachers at all? Why go to school? Why not make the child the professor? Why not permit adolescent children to read, instead of Longfellow and Louisa May Alcott, Boccaccio's "Decameron," "The Heptameron," James Joyce's "Ulysses" and perhaps to top it off, instead of an arithmetic book, Einstein's general theory and Tonybee's nine volumes?

There must be selectivity according to age and acceptability; selection and mental discipline are the basis of education. Maybe one reason why some teachers resent disciplining the child is because they have never disciplined themselves—but that is another matter.

5. Finally, we must never forget that under our system of life, the parent is the legal guardian and trustee for the child. Such responsibility has never been transferred from the parent to the State in this country, although it has been in Soveit Russia. Any parent has the legal and moral right to control the reading of his minor children in accordance with his judgment and conscience, and he has the right of citizenship to fight with all that he possesses against the corruption of the mind and morality of his children by any agency, even the State. That is the essence of the American system.

What The Investigation Into Spying Has Proved

Following the Administration's curious policy of pooh-poohing the loyalty inquiry by Congress, Secretary of Commerce Sawyer told a Veterans of Foreign Wars Encampment that "the interesting and comforting thing" about the hearings is that "they have proved so little."

Coming from an official of an Administration which has done its utmost to obstruct the inquiry, that assurance is not very comforting. To begin with, some important facts have been proved by the House and Senate committees. They have proved that at least two men were given responsible posts in the Government during wartime and were promoted even though they were known to be suspected and under investigation for disloyalty. Few Americans will regard that as a "little" matter.

It is true that the charges of Elizabeth Bentley and Whittaker Chambers have not yet been proved. But the hearings have brought out a number of exceedingly curious facts, and definite proofs may come before the investigations are concluded. The testimony of Adolph A. Berle, former New Deal braintruster, about Alger Hiss is "interesting" and not at all "comforting." It's a little early to be crowing over what the committees have failed to "prove."

But the plot thickens in the Hiss-Chambers case by the release of secret testimony by Louis Budenz, ex-Communist and former editor of the Communist Daily Worker. When the House committee staged its "public confrontation," Chabers steadily insisted that Hiss was a member of an underground Communist elite group in Washington, while Hiss readily retorted that his accuser was lying. The committee naturally concluded that one of the two must be guilty of perjury and called upon the Justice Department to take appropriate action. The Department must now carefully sift the testimony of Louis Budenz.

This man, who used to be high up in the American Communist Party, told the committee under oath that he had always considered Hiss to be "under Communist Party discipline." He added that Hiss was associated with Nathan Witt, whom Budenz says he also knew as a Communist, and who has refused to tell the committee whether he is or ever was a Communist.

It is baffling and confusing but it will have to be untangled to the benefit of Hiss or Chambers. There is no doubt in any reasonable mind today that the House group must get to the bottom of this mysterious business, no matter how long it takes or how painful the process may be to a number of individuals. The facts of the Communist infiltration into the higher places of our Government must be established. The issues involved in the Hiss-Chambers case are so grave that any further talk about "witch hunts" may be regarded as an effort to suppress the truth.

Meantime, it has been proved to the dullest mind that the congressional committees have been handicapped by the President's refusal to release official records, even under elaborate safeguards for confidential sources. In effect, Mr. Truman has encouraged witnesses to abuse the protection of the Constitution. We can see nothing for the Administration to boast about in the fact that so many persons suspected of disloyalty have refused to answer questions on the ground that they might incriminate themselves.

In view of the whole Administration attitude, to belittle the results of the inquiry to date is like tripping a man and then accusing him of being unsteady on his feet.

Dixiecrats Talk Of Swinging All The Way

The Dixiecrats got out of the Democratic Party immediately after the Philadelphia convention and put a separate ticket in the field headed by Gov. Thurmond of South Carolina and Gov. Wright of Mississippi. Now there is another movement afoot in the South, which is to make the party exodus complete in some states by voting for Dewey and Warren. As the Savannah (Ga.) Morning News puts it, "the South, by voting the Republican ticket, will stand a much better chance of political recognition in Washington."

Texas, where the movement is strongest, offers a fair illustration of the procedure to be followed. As the Southern Weekly (published in Dallas) recites, the Republican Party there is fairly strong and the Truman forces apparently in the minority. But if the opposition to the President is divided between the Dixiecrats and the Republicans, he will get something over a third of the total votes and will carry the state. But if the Dixiecrats vote in the Republican column the President may be decisively defeated.

The Southern Weekly puts it this way: "In Mississippi, in Alabama and in South Carolina, where the Republican vote is negligible and where the Dixiecrats are the official Democratic Party, Thurmond and Wright are doing a great service to the South. But in Texas and some other Southern States the proper course is to vote Republican!"

What stands out is that, right now, the South takes its traditional affiliation with the Democratic Party anything but seriously, while it acutely dislikes that Border State Democrat, Mr. Harry Truman.

More Money

It is hardly surprising to anybody that individual incomes in the United States during 1947 reached an all-time peak. How could it have been otherwise?

With work available to nearly every person who wanted it and with wages much higher than ever before, it was inevitable that 1947 would be a record year for the amount of money it put in the hands of the people.

Presumably, too, the present year will show an improvement over last year. Employment is still at a peak and wage scales have been further increased. Unless, therefore, there is a recession in the next few months 1948 will set another record.

Gratifying as the prospect is, the average person knows that he is not so much better off financially as the bare figures indicate. Unless prices become stabilized, an increase in national income is not necessarily significant of anything except the fact that there is a lot of money in circulation.

A doctor says the dark glasses fad is making this a nation of moles. In addition to shutting out all the rosy outlooks.

HOW TO KEEP WELL

By Dr. Theodore R. Van Dellen

To the limit of space, questions pertaining to the prevention of disease will be answered. Personal replies will be made under proper limitations, when return stamped envelope is enclosed. Dr. Van Dellen will not make diagnosis or prescribe for individual diseases.

The Need For Eye Surgery

Eye surgery has reached a high state of perfection and physicians in this field are capable of doing many wonderful things. Age is no longer a hazard, and according to Knapp, operations can be performed during the first few weeks of life or the last. This should be reassuring to those who believe that they are too old to undergo operations of this type.

Dr. Van Dellen

Many other factors besides age influence the decision as to the advisability of eye surgery. It is never done when the problem can be solved in a safer and easier manner. It is wise, therefore, to determine whether additional medical treatment will control or improve the malady. The important exception is when the risk of going blind is greater through the use of eye drops and other drugs than can be expected from surgery.

●—●—●

Victims of high blood pressure, diabetes, hardening of the arteries, and other generalized disturbances need not fear the ordeal. These conditions can be controlled sufficiently for the operation, and even in emergencies, rarely constitute a hazard. The presence of an eye infection is different because an incision into inflamed tissues encourages the spread of bacteria. Nevertheless, since the advent of penicillin and streptomycin, this situation is no longer a serious threat.

The exact time to perform the operation is an individual problem. Opinions differ, for example, with cataracts but we know that there is no need to put it off until the lens has ripened. This concept was followed in the past and many persons waited for 10 or more years, in a state of partial blindness, for the cataract to mature. Had the operation been done earlier, many years of good vision would have been possible. The need for high visual acuity is not so great in housewives and laborers and they can afford to postpone the procedure until sight is so poor that they are unable to perform their duties. In this disorder, therefore, it is a matter of how long the sufferer wants to go about with imperfect vision.

●—●—●

In glaucoma, however, incurable blindness ensues if the abnormality is not rectified. But here, medical management is valuable and surgery is recommended only when these measures fail. Cross-eye may be treated in several ways including drops, the application of a patch on the good side, or utilizing orthoptics. But when these methods do not correct the defect, something else must be done otherwise the crossed eye will become blind ultimately. For this reason, straightening should be the rule before the age of six years.

When a tumor exists and the life of the patient is at stake, removal of the orbit (enucleation) is necessary. Excision is also recommended when a blind eye is painful because it is sheer folly to suffer from a useless organ. Sympathetic ophthalmia is another affliction that demands this radical procedure. Removal is essential because one eye is already blind and is endangering the sight of the other. Enucleation is advised occasionally for cosmetic reasons when injury or disease has left the structure so unsightly that it is far better to substitute a glass eye.

ONLY ONE ORGANISM

M. S. writes: Is there more than one kind of tuberculosis?

Reply

Yes, if you refer to sites of invasion such as the lungs, bones, kidneys, etc. but the organism is the same, regardless of where it chooses to settle. We also refer to primary and secondary tuberculosis. The former is the initial infection. It occurs during childhood, and is usually so mild that it escapes detection. The secondary form develops later in life and is due to re-infection. It differs from the primary attack because the individual has developed a sensitivity to the germ.

When she jumped off her bicycle in Los Angeles, they had to hold her . . . her feet were still going around.

It's lucky she had only a bicycle. If they'd given her a motor scooter, she'd probably be wiring home from the Foreign Legion for money.

This 53-day bicycle trip doesn't really surprise me . . . my brother's been peddling all his life.

But this girl's got the real pioneer spirit. In fact, if she'd been born a hundred years ago, Horace Greeley would have said, "Go west, young woman . . . and when you get there, say 'hello' to Norma Jean."

While en route she worked to earn enough to keep going. When she reached California and they found out how far she'd traveled by bike, they automatically told her to take off her shoes, and offered her a job crushing grapes.

Norma explains her unusual journey by saying, "I had all this energy and nothing to do with it." The next time she plans a trip, she ought to have the Atomic Energy Commission work out her route.

Justice Department To Crack Down On Lobbyists; Presidential Campaign To Be Family Affair; Wallace Backers Admit He Will Not Carry A State

WASHINGTON, Sept. 3—The Justice Department is preparing to crack down on four prominent unregistered lobbyists who wielded a lot of influence in Congress. One played a leading role in blocking repeal of the federal tax on oleomargarine.

A White House guard detained Supreme Court Justice William Douglas for five minutes when he attempted to leave by a side entrance after a recent visit with the President.

The Presidential battle will be a family affair. President Truman's wife and daughter will accompany him on his electioneering trips and Mrs. Dewey and a son will tour with the Republican standard-bearer. . . . The Republican National Committee is sending special publicity men to help GOP Senatorial candidates in doubtful states. Also, the Committee has earmarked $500,000 for these contests. . . . Latest Minnesota poll shows Senator Joe Ball trailing Minneapolis Mayor Hubert Humphrey by an eight-point margin. . . Dave Beck, potent West Coast teamsters czar, will back the Dewey-Warren ticket. Beck has long been on close terms with Governor Warren.

Thomas Emerson, Yale law professor, is continuing to run as the third-party candidate for Governor of Connecticut despite a statement he would withdraw if the Democrats nominated Chester Bowles, former OPA director. . . . Bill McAdams, press aide to Senator Taft during his pre-convention campaign, is staying on in the Capital despite attractive offers elsewhere. "I guess it's Potomac fever," McAdams grins. Doubtful Voters Will Want A President Of A Split Party

By MARK SULLIVAN

President Truman on Monday begins his campaign with a formidable effort and array: a major opening speech from Mr. Truman himself; speeches by four cabinet members—Secretaries Tobin of Labor, Brannan of Agriculture, Royall of the Army, Attorney General Clark; speeches by four Senators—Pepper of Florida, Kilgore of West Virginia, Murray of Montana, McGrath of Rhode Island who is also Chairman of the Democratic National Committee.

Superficially that seems formidable, the welcome should sound loud. But beneath that surface glitter of massed oratory lie the facts Mr. Truman faces. These are formidable in a different and more real sense. One basic condition, party cleavage, is alone enough to be ominous. What was the Democratic Party four years ago is today three parties, each formally organized with a Presidential candidate—the Democrats, Mr. Henry A. Wallace's Progressive Party, and the States' Rights Party.

Mr. Wallace's Progressive Party, though not even faintly formidable as respects prospect of victory, is formidable indeed in its effect on Mr. Truman's prospects. Whatever the number of votes Mr. Wallace may receive, practically all will be a subtraction from Mr. Truman—it is difficult to imagine anyone voting for Mr. Wallace who otherwise would have voted for Mr. Dewey.

Wallace Given 5,000,000 Votes

As of the present, estimates of the Wallace strength vary from four to six millions, some 10 per cent of the total electorate. The average, five millions, if subtracted from the vote Roosevelt got in 1944, would have defeated him. Moreover, an extremely large proportion of the Wallace vote will come from New York City and hence detract from Mr. Truman's chance of carrying New York State. And in only one Presidential election in more than fifty years has a party lost New York State and been able to carry the county.

The States' Rights Party, even if it should not take from Mr. Truman any state in the Democratic solid south, which is the new party's home, might still be a material detriment to him. The new party's principles are cherished by Democrats in the border states—Maryland, West Virginia, Kentucky and Missouri. These states are always doubtful, they go one way or another by narrow majorities. A defection of as little as 5 per cent might lose them for Mr. Truman.

In addition to the cleavage which expresses itself in two formally organized parties with candidates for President, there is another within the Democratic Party as it now stands. What remains of the shorn party is composed of two main groups. One consists of old-school Democrats, among whom the most effective in elections are those symbolized by the leaders in big northern cities. The other consists of liberals many of whom, when they found Mr. Henry A. Wallace too far left for them, organized Americans for Democratic Action. This group was active at the Democratic National Convention and had a considerable hand in bringing about the platform. The two groups, ADA and Northern city bosses, as far apart as possible in political thought, are superficially united behind Mr. Truman.

Leaders Predicted His Defeat

Yet before Mr. Truman was nominated, leaders of both groups made attacks upon him, and predictions of his defeat. Leaders of ADA issued a statement saying, "There is so little public enthusiasm for the Truman Administration that the Democratic Party would face a very difficult uphill fight if he were nominated."

About the same time, less than a week before the convention, 19 old-school Democratic leaders issued a call for a rump caucus (not actually held) to oppose nomination of Mr. Truman. The group included Mayor William O'Dwyer of New York, Leader Frank Hague of New Jersey, Illinois leader Jacob M. Arvey, Governor Tuck of Virginia and James M. Roosevelt, son of the late President. One of the group, Mr. Hague said: "Every leader I conferred with has informed me that if President Truman is the candidate, it means a landslide on the Republican side."

These are not statements by rivals of Mr. Truman for the nomination, they represent important groups. No matter if leaders who made such statements now recant or practice an embarrassed silence, the statements are likely to remain in the minds of voters, whose memories will be refreshed by Republican orators. And there is a fundamental doubt whether two groups so different in political thoughts as ADA, and party leaders and followers in Northern cities, can both be stirred to enthusiastic support of Mr. Truman. Mr. Truman faces also a doubt whether voters generally will wish the country to be in charge of a party so divided.

Truman Considered It Proper That Russia Be Given Secrets

By DAVID LAWRENCE

WASHINGTON, Sept. 3 — President Truman was provoked by a reporter's question into a reiteration of his claim that the current investigation of Communists is still a political "red herring." But, unfortunately for the President, he overlooked the fact that the testimony before the commissioner of immigration this week on whether to deport certain Communists was not conducted by politicians but was a part of the legal proceedings of the Department of Justice.

The revelations concerning the Communist "J. Peters" at this hearing had nothing to do with any political "red herring." Yet they tie in directly with and corroborate some of the testimony before the House Committee on un-American Activities.

The national political campaign will be over within nine or ten weeks and congressional committees will then continue their inquiries. They have been doing this kind of investigation for several years. When the election is over, will Mr. Truman still tell the American people that the disclosures about Communists inside and outside the government are a "red herring" across a political campaign?

Tries To Justify Acts

Mr. Truman went out of his way in his press conference to repeat some of the fallacies which have been spread in recent weeks about the disclosure of information by Americans to Russians during the war. The President pointed out that during the war Russia was an ally. He inferred that it was therefore all right to tell the Russians our war secrets.

Yet on the same day that Mr. Truman was holding his press conference, an article by General Spaatz, formerly commander of our air forces, was published in "Life" magazine, stating that the Russians fired on an American B-29 in August 1945 and deliberately stole the equipment and contents.

Likewise there were, as the President well knows, certain security regulations during the war which did not permit anyone in the Government to give out information except through authorized channels. The Chambers and Bentley testimony before the House committee indicates that certain information was given out to Russian agents. Does the President mean to say that it was all right for officials to give any information indiscriminately to Russian agents?

U. S.-Russian Relations

Doesn't the President know that relations between Russia and the United States were far from close where military information was concerned? Thus the Russians for a long time refused to permit American military observers to witness operations on the German-Russian front.

Also it is a fact that when American intelligence authorities uncovered, in advance of the Hitler attack on the Soviets in June 1941, the fact that the Nazis planned on a certain day to invade Russia and told it to the Russian Ambassador in Washington, he promptly went to the German embassy and naively asked the Germans about it.

All through the war there were suspicions that some of the Russians who had acted as a front in the United States for the Germans during the 1939-to-1941 period of the war, when America was theoretically neutral, still did business for the Nazis. Certainly the German intelligence bureaus were not so stupid as to employ as their agents persons who spoke with a German accent. They preferred to use persons of other nationalities. For the President to excuse the transmittal of information by governmental officials to outsiders who claimed to be Russians or friends of any other country, on the ground that Russia was an ally and that the only spies were Germans or Japanese, is to take a careless view of security. One may hope that Mr. Truman will not allow that innocent view of espionage methods to become official hereafter.

U. S. Business Carried On Loosely

The current investigations have uncovered how loosely the Government business was conducted and how easy it was for Communist agents to get information from our own government. No amount of excusing of that sort of looseness will sit well with the American people even if the object is to offset a piece of political strategy in a campaign.

There has been lately a tendency to belittle the evidence furnished by self-confessed spies—as if the witnesses need not be believed because they were spies. Many a guilty person would have escaped punishment in America in the past if the testimony of witnesses who turned "state's evidence" had not been given credence.

Mr. Truman had many other effective answers he could have made to the cry that Communists penetrated the government during and since the war. But he has added much fuel to the flames and, by his challenges, has actually goaded the investigators to prolonged hearings. It would be to the best interest of the country if all the hearings by the congressional committees were suspended until immediately after the election, when it is to be hoped the Administration will cooperate fully in exposing to view all those misguided persons in the Government who were tied in any way with the Russian spy rings and activities. It can't continue to be a "red herring" in December and January.

These Days

By GEORGE E. SOKOLSKY

The Case Of "The Nation"

The argument over the withdrawal of "The Nation" from the public schools of New York City has gone so far afield that it is necessary to restate some of the principles involved:

1. No public school system can afford to keep in its library all the daily newspapers, weekly and monthly magazines published in the United States. A selection has to be made to conform with budgetary requirements and the particular needs of the particular institutions. New York City publishes 100 daily newspapers in English; in the United States, there are 1,769 such newspapers. The number of magazines published is varyingly enormous.

That act of selection involves discrimination and the normal prejudices and sentiments of human beings. A librarian or principal who prefers "The New York Times" or "The Sun" to "The Daily Worker" or "Women's Wear" is not necessarily engaging in censorship. If the budget allows for five out of 100, he has to make a choice.

2. Some publications lose their usefulness. I let my subscription to "The Nation" drop many years ago. Yet I subscribe to "The New Republic," "Mainstream and the New Masses," buy the "New Times" published in Moscow. Annually I go through my subscriptions and cut out those which I no longer find useful.

Of the publications on the Left, I found "The Nation" the least useful even for the presentation of the Leftist point of view. In my judgment, it has gone to pot.

That does not involve any question of censorship, but of selectivity. "The Nation" was once the best weekly published in the United States and it was edited by an outstanding personality and journalist, Oswald Garrison Villard. That is no longer true, and the magazine shows it.

3. The immediate row now before the public started over a series of articles on the Catholic Church by Paul Blanshard. I have not read the articles, but the argument arising from them would indicate that Mr. Blanshard does not approve of the Catholic Church and states his reasons in polemic style. No one questions the right of Mr. Blanshard to oppose the Catholic Church, or "The Nation" to publish his polemics.

The New York City schools include children who are Catholics. The Anti-Defamation League, a Jewish organization, has for many years waged an active campaign against the use of literature for children which tends to increase Anti-Semitism among children. I recall opposition to Shakespeare's "Merchant of Venice" and to "Dicken's "Oliver Twist" and "A Child's Life of Christ," and to Walter Scott's "Ivanhoe"—masterpieces of English literature.

If the Jews can object to literature which they regard as creating antagonism among children before they are old enough to discriminate, the Catholics are justified in objecting to Mr. Blanshard's articles in "The Nation".

4. The assumption that a public school child is old enough to make its own selections is pedagogically false. How did the child, between the ages of 6 and 14, come upon such wisdom? And if the child is so wise and knowing, why have the teachers at all? Why go to school? Why not make the child the professor? Why not permit adolescent children to read, instead of Longfellow and Louisa May Alcott, Boccaccio's "Decameron," "The Heptameron," James Joyce's "Ulysses" and perhaps to top it off, instead of an arithmetic book, Einstein's general theory and Tonybee's nine volumes?

There must be selectivity according to age and acceptability; selection and mental discipline are the basis of education. Maybe one reason why some teachers resent disciplining the child is because they have never disciplined themselves—but that is another matter.

5. Finally, we must never forget that under our system of life, the parent is the legal guardian and trustee for the child. Such responsibility has never been transferred from the parent to the State in this country, although it has been in Soveit Russia. Any parent has the legal and moral right to control the reading of his minor children in accordance with his judgment and conscience, and he has the right of citizenship to fight with all that he possesses against the corruption of the mind and morality of his children by any agency, even the State. That is the essence of the American system.

Teachers Told Lack Of Education Causes Corruption

"A corrupt government goes hand in hand with a poor school curriculum," Dr. Hamden L. Forkner, professor of education at Columbia University's Teachers College, told Allegany County public school teachers at their annual pre-school assembly in Allegany High School auditorium yesterday.

Dr. Forkner told his audience, "If students do not learn to operate a political organization while in school we cannot expect good government.

"Yesterday's pattern of education is not designed for today's living," Dr. Forkner emphasized as he charged the teachers with their responsibility to present and future generations in America.

Speaking on the subject, "The Arts We Live By," Dr. Forkner contended that education holds the key to future welfare, happiness and peace, and teachers in public schools have the responsibility of molding the intellect and thinking of individuals along sound constructive lines, which will help people live better, more constructive lives.

The necessary arts by which we live, Dr. Forkner stated, include:

1, Getting along with other people; 2, Making a living, maintaining a home and a family; 3, learning to live on what we make, and in being intelligent consumers; 4, being effective members of our political community, possession of political competence; 5, acquiring social competence, and 6, developing family competence.

Dr. Forkner defined education as all things which change the way people think and act. "When the school teaches youngsters to evaluate their community, to discover its evils and to seek to eradicate them, it is doing a good job, and citizens will soon realize that the school is the most important factor in the community".

That education was sadly lacking in the United States was evident during World War II, he said, when 360,000 young men could not sign their draft questionnaires, and another 750,000 could sign their names but could not read well enough to fill in the answers.

"In America between December 7, 1941, and December 7, 1944, more money was spent for war than was spent for public education since the Pilgrims landed."

Concluding his address, Dr. Forkner suggested that teachers drop the things that do not contribute to changing the students' way of thinking toward making a better community and a better world.

Dr. Forkner was introduced by Richard T. Rizer, assistant superintendent of schools in Allegany county. Charles L. Kopp, superintendent of schools, made a few remarks and introduced new teachers.

During the afternoon, teachers went to their respective schools where faculty meetings were held and plans outlined for opening the fall term Tuesday morning. Half-day sessions are scheduled for Tuesday and Wednesday. All-day sessions will be held Thursday and Friday of next week.

Work To Start On Union Street Building Soon

Work is expected to get underway within a few days on the fire-gutted Union Street County Building, it was disclosed yesterday by Hunter B. Helfrich of Wright-Richardson Company, low bidders on the job.

Bids were opened yesterday by the Board of Allegany County Commissioners and the contract let to Wright-Richardson for $55,060. The only other bidder was John I. Vandegrift Company which offered to complete the project for $57,120.

Helfrich conferred with board members after the meeting and said "with a fair break in the weather, the job can be completed by January 1."

The structure, formerly three stories, will have to be trimmed down to a two-story height before the new roof can be erected. Helfrich indicated his company would start work at once.

The project will consist mostly of rebuilding the second floor as the main floor was only partly damaged. Rewiring, plastering, flooring, painting, and construction of partitions are some of the items called for in the specifications.

Settlement of three fire insurance claims last month provided the county with $38,000 towards the project with the balance of $17,060 to be paid out of the levy. The commissioners said it may be possible to start using the first floor, which housed the Trial Magistrates' Court, county engineer, VA offices, and state's attorney's offices, as soon as the building is roofed.

Police Investigate Clothing Theft

Three local men, booked as Joseph Koelker, Harry Reger and Arthur Cleal Charlton, are being held in City Jail for investigation in connection with the alleged theft of clothing from Cleland Crites, Moorefield. W. Va., Thursday night.

Palmer Howser, Beans Cove, Pa., was also being held last night for investigation, after being arrested at 3:15 a. m. by Lt. James E. Van and Officer Leo P. Law.

A man booked as Robert L. Day, Rockingham County, is being held for State Police after being arrested at 11:20 p. m. Thursday by First Sgt. W. E. O'Hara and Cpl. Harry Holsinger.

Man Robbed, Beaten In South Cumberland

Police are investigating the complaint of Harold Wilbur Schell, 34, 1306 Michigan Avenue, that he was beaten and robbed of $110 at about 11:50 p. m. Thursday behind a Virginia Avenue theater.

Chief of Police R. Emmett Flynn said Schell told investigating officers he was walking from an alley to Virginia Avenue when he was struck down by two or more men.

His attackers removed the money from his wallet, he said, and left the wallet at the scene.

Move Started To Aid Alcoholics

Action has been started by General Assembly leaders to provide state aid for chronic alcoholics, according to Noel Speir Cook, Frostburg, member of the House of Delegates from Allegany county.

Cook has been named to a special committee of the Legislative Council which will investigate and present statistics on the alcoholism situation in the state.

Equity Suit Filed

A bill of complaint was docketed in Circuit Court yesterday by Retha M. McKenzie vs William L. McKenzie.

County Board Has Routine Session

A contribution of $200 towards the expense of having the Freedom Train brought to Cumberland was ordered yesterday by the Allegany County Board of Commissioners.

The money will be taken from the contingent fund. The commissioners stated that having the train, with its priceless cargo of historical documents, brought to this county is a timely event in view of attacks on the democratic system by subversive elements.

A bid of a Cumberland decorator to place flags and bunting on the Court House for the Rededication Week being held in connection with the appearance of the Freedom Train was held in abeyance. The commissioners wish to have the building washed prior to having it decorated. This work has been contracted for.

A letter was received from Col. Henry C. Wolfe, of the Corps of Army Engineers, in which the county's formal notification of cooperation in connection with the flood project in Cumberland was accepted.

The county passed a $1,000,000 bond issue towards the $12,000,000 project. Col. Wolfe said bids on the various parts of the contract would be let soon and the commissioners notified through liaison between the federal government and the City of Cumberland.

A bid of the George Construction Company to make certain alterations in the county tax collector's office was accepted. The firm offered to do the work for $497. It will include extension of the counter and installation of a new door.

The board ordered $4,709.50 worth of accounts charged against persons with relatives in Springfield State Hospital be written off the county records as not collectible.

There were 19 such accounts and the board stated that in most instances the persons who had been paying for relatives in the institution had either died or else were unable to make further payments. Some of the accounts went back to 1943.

After a delegation of residents of the Lower Town Creek section appeared seeking erection of a bridge across the stream the board told them that the county engineer would inspect the site.

The delegates, James A. Smith, Taylor McLaughlin, Roy V. Ringler and L. L. Robinette, said they only wanted a low-water bridge or some other type structure which would not be too expensive. They pointed out that in winter and other times of the year high waters marooned them.

Teachers Told Lack Of Education Causes Corruption

"A corrupt government goes hand in hand with a poor school curriculum," Dr. Hamden L. Forkner, professor of education at Columbia University's Teachers College, told Allegany County public school teachers at their annual pre-school assembly in Allegany High School auditorium yesterday.

Dr. Forkner told his audience, "If students do not learn to operate a political organization while in school we cannot expect good government.

"Yesterday's pattern of education is not designed for today's living," Dr. Forkner emphasized as he charged the teachers with their responsibility to present and future generations in America.

Speaking on the subject, "The Arts We Live By," Dr. Forkner contended that education holds the key to future welfare, happiness and peace, and teachers in public schools have the responsibility of molding the intellect and thinking of individuals along sound constructive lines, which will help people live better, more constructive lives.

The necessary arts by which we live, Dr. Forkner stated, include:

Dr. Forkner defined education as all things which change the way people think and act. "When the school teaches youngsters to evaluate their community, to discover its evils and to seek to eradicate them, it is doing a good job, and citizens will soon realize that the school is the most important factor in the community".

Court Dismisses Action On County Road Dispute

Chief Judge William A. Huster, in an opinion in Circuit Court yesterday dismissed a suit brought by Elmer C. Furlow against the Waddell Fuel Company and Samuel Lepley for damages alleged to have been done to a road leading from the Mt. Savage road to the plaintiff's farm.

Judge Huster held that "There seems to be no doubt about the plaintiff having a right-of-way over said road in question, but it is not an exclusive right-of-way.

"The Waddell Fuel Company owns the fee simple title to the land over which the plaintiff has this right-of-way and he seeks to hold the Waddell Fuel Company responsible in damages caused by Samuel Lepley using the road to haul timber he had purchased from the Waddell Fuel Company. The evidence is conclusive that the Waddell Fuel Company had not used the road nor had it authorized Samuel Lepley as their employe or agent to use said road and, therefore, the suit against the Waddell Fuel Company will be dismissed.

"In the suit against Samuel Lepley, in which plantiff alleges that Samuel Lepley in using the right-of-way in hauling timber from the tract of land he had purchased from the Waddell Fuel Company damaged the road to an extent that he could not drive his automobile over said road, evidence shows that in using heavy trucks on the road it had been damaged to some extent.

"The evidence further shows that the defendant had repaired the road from time to time. When the court, with the respective counsel on the day of the trial inspected the road in question, there were some places in the road that needed repairs and particularly the place known as the "turn-a-round" needed to be drained and some ruts in the road needed to be filled to put it in fair condition.

"The court is of the opinion that the defendant, Samuel Lepley, should repair the road in question by putting it in as good condition as it was prior to the time he began hauling timber over said road.

"The court does not feel that any monetary damages should be awarded in this case as the road was never in such bad condition that it could not be used by the plaintiff during the time the defendants had been using the road, which road he had a right to use, and it was his duty to keep the road in repair and since he has completed the hauling of timber over the road and places it in as good condition as it was prior to the time he began using the road, he should not be held for further damages.

"The court will sign an order that Samuel Lepley shall repair the road by putting it in as good condition as it was when he began using it. The defendant will be required to pay the court costs."

Albert A. Doub, Jr., represented Furlow while Thomas B. Finan was counsel for the defendants.

of union meetings upon company bulletin boards.

"Your refusal to post the notice. . . raises a serious question of the good faith of your corporation in its relationship with our local.

"We are definitely of the opinion that the existence of a strike at Rome. . .plant is a matter which has been published in the local press and does not represent any source of original information which may be damaging to the corporation's prestige.

"Your refusal is in strange contrast to your published statement of August 5, 1948, wherein you publicly objected to our union's failing to indicate on a union notice the specific business for which the meeting was being called."

Aldridge said Rome workers went on strike August 15 after rejecting an eight per cent wage offer, adding members of Local 689, TWUA, there are being pressed for payments of rent on some 800 housing units owned by Tubize and are facing possible eviction.

Asks Words Changed

Allan flatly denied the company refused to allow the notice to be posted, explaining he had asked the union to make certain changes in the wording of the bulletin.

Pointing out that Local 1874 and the Amcelle plant are at peace, he said he saw no reason why the plant bulletin boards should be used for any purpose which does not directly affect the relations between the company and the union here.

The company is perfectly willing, he added, to allow the posting of the notices when the portion to which the company objects is removed. The bulletin board is intended for company and union business but not for publicity purposes, he said.

B. and O. station because the trucks could not get through.

Amos Perdew said the flood resulted in a huge flow of mail when the waters finally went down. The clerks had this to contend with while taking turns spraying mud from office equipment with hoses.

Another clerk, Willis Robertson, Route 5, is a nephew of the Perdew brothers and he has been there for 11 months.

Only one brother, Charles Perdew, a Celanese worker, is not involved in the carrying of the mails. There seems little chance of there being a Perdew-postoffice dynasty, either, because most of the rest of the family is female. Amos A. Perdew, Jr., is a Celanese worker like his uncle.

Third Water Line Estimate Approved

Payment of $70,324.33 to the Cumberland Contracting Company for the third estimate of construction costs of the city's new auxiliary water line was approved at a special session yesterday of Mayor Thomas S. Post and the Council.

For consideration of right-of-way for the water line across properties lying in Election District 23, council members authorized payment of $50 to Patrick B. Duckworth and his wife Virginia and $150 to Joseph Seymour Hutton and his wife Ella. Hutton and Duckworth originally asked for water taps instead of money.

The council approved an order introduced by Street Commissioner Edgar H. Reynolds that Route 40 (North Mechanic Street) be resurfaced with blacktop material from the Cumberland and Pennsylvania Railway siding to the city limit line at a cost of approximately $2,800.

Court Dismisses Action On County Road Dispute

Chief Judge William A. Huster, in an opinion in Circuit Court yesterday dismissed a suit brought by Elmer C. Furlow against the Waddell Fuel Company and Samuel Lepley for damages alleged to have been done to a road leading from the Mt. Savage road to the plaintiff's farm.

Judge Huster held that "There seems to be no doubt about the plaintiff having a right-of-way over said road in question, but it is not an exclusive right-of-way.

"The Waddell Fuel Company owns the fee simple title to the land over which the plaintiff has this right-of-way and he seeks to hold the Waddell Fuel Company responsible in damages caused by Samuel Lepley using the road to haul timber he had purchased from the Waddell Fuel Company. The evidence is conclusive that the Waddell Fuel Company had not used the road nor had it authorized Samuel Lepley as their employe or agent to use said road and, therefore, the suit against the Waddell Fuel Company will be dismissed.

"In the suit against Samuel Lepley, in which plantiff alleges that Samuel Lepley in using the right-of-way in hauling timber from the tract of land he had purchased from the Waddell Fuel Company damaged the road to an extent that he could not drive his automobile over said road, evidence shows that in using heavy trucks on the road it had been damaged to some extent.

"The evidence further shows that the defendant had repaired the road from time to time. When the court, with the respective counsel on the day of the trial inspected the road in question, there were some places in the road that needed repairs and particularly the place known as the "turn-a-round" needed to be drained and some ruts in the road needed to be filled to put it in fair condition.

"The court is of the opinion that the defendant, Samuel Lepley, should repair the road in question by putting it in as good condition as it was prior to the time he began hauling timber over said road.

"The court does not feel that any monetary damages should be awarded in this case as the road was never in such bad condition that it could not be used by the plaintiff during the time the defendants had been using the road, which road he had a right to use, and it was his duty to keep the road in repair and since he has completed the hauling of timber over the road and places it in as good condition as it was prior to the time he began using the road, he should not be held for further damages.

"The court will sign an order that Samuel Lepley shall repair the road by putting it in as good condition as it was when he began using it. The defendant will be required to pay the court costs."

Albert A. Doub, Jr., represented Furlow while Thomas B. Finan was counsel for the defendants.

of union meetings upon company bulletin boards.

"Your refusal to post the notice. . . raises a serious question of the good faith of your corporation in its relationship with our local.

"We are definitely of the opinion that the existence of a strike at Rome. . .plant is a matter which has been published in the local press and does not represent any source of original information which may be damaging to the corporation's prestige.

"Your refusal is in strange contrast to your published statement of August 5, 1948, wherein you publicly objected to our union's failing to indicate on a union notice the specific business for which the meeting was being called."

Aldridge said Rome workers went on strike August 15 after rejecting an eight per cent wage offer, adding members of Local 689, TWUA, there are being pressed for payments of rent on some 800 housing units owned by Tubize and are facing possible eviction.

Asks Words Changed

Allan flatly denied the company refused to allow the notice to be posted, explaining he had asked the union to make certain changes in the wording of the bulletin.

Pointing out that Local 1874 and the Amoelle plant are at peace, he said he saw no reason why the plant bulletin boards should be used for any purpose which does not directly affect the relations between the company and the union here.

The company is perfectly willing, he added, to allow the posting of the notices when the portion to which the company objects is removed. The bulletin board is intended for company and union business but not for publicity purposes, he said.

B. and O. station because the trucks could not get through.

Amos Perdew said the flood resulted in a huge flow of mail when the waters finally went down. The clerks had this to contend with while taking turns spraying mud from office equipment with hoses.

Another clerk, Willis Robertson, Route 5, is a nephew of the Perdew brothers and he has been there for 11 months.

Only one brother, Charles Perdew, a Celanese worker, is not involved in the carrying of the mails. There seems little chance of there being a Perdew-postoffice dynasty, either, because most of the rest of the family is female. Amos A. Perdew, Jr., is a Celanese worker like his uncle.

Payment of $70,324.33 to the Cumberland Contracting Company for the third estimate of construction costs of the city's new auxiliary water line was approved at a special session yesterday of Mayor Thomas S. Post and the Council.

For consideration of right-of-way for the water line across properties lying in Election District 23, council members authorized payment of $50 to Patrick B. Duckworth and his wife Virginia and $150 to Joseph Seymour Hutton and his wife Ella. Hutton and Duckworth originally asked for water taps instead of money.

The council approved an order introduced by Street Commissioner Edgar H. Reynolds that Route 40 (North Mechanic Street) be resurfaced with blacktop material from the Cumberland and Pennsylvania Railway siding to the city limit line at a cost of approximately $2,800.

Both entered guilty pleas to charges of being drunk and disorderly.

Committee To Study Board Election Idea

BALTIMORE, Sept. 3 (AP)—State Senator Robert B. Kimble (R-Allegany) and Delegate Jacob R. Ramsburg (R-Frederick), minority leaders in the state legislature, said today they have appointed a committee to study the advisability of election of county boards of education.

Board members now are appointed by the governor.

Chairman of the new committee is Senator Roy Tasco Davis (R-Montgomery).

Kimble said if Davis' committee decided against recommending legislation for election of boards of education, or if the bill failed to pass, he would introduce a bill in the senate to increase the membership of Allegany County's board from three to five members.

An AMERICAN GOES TO WORK

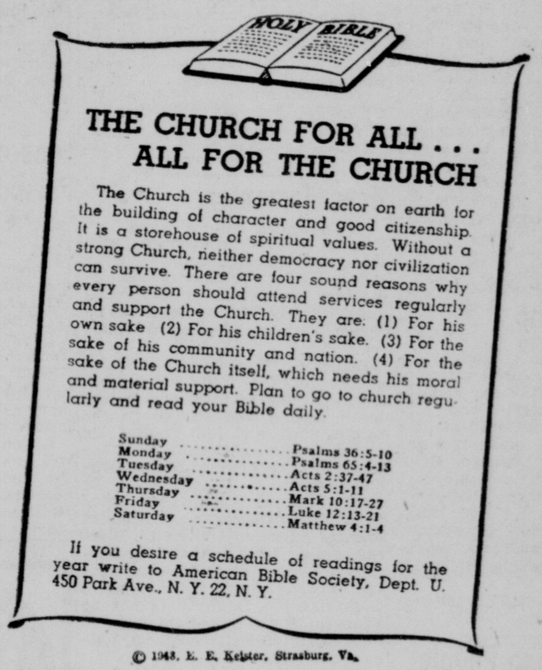

Lunch box, leather jacket and a smile . . . symbols of American Labor . . . of America *going to work*.

The lunch box is our emblem of abundance. In many lands a working man carries his scant ration in an old paper bag — if, indeed, he owns a paper bag!

The leather jacket is a symbol of our standard of living. In many lands a working man shivers under a burlap shawl — if, indeed, he owns a burlap shawl!

But the smile speaks most eloquently of all. It's the living expression of our happiness . . . our freedom . . . our FAITH. In many lands a working man cannot smile!

Thank God for the blessings this land has been able to bestow on those who build it. Worship God in the churches whose joyous faith safeguards man's right to smile!

Boston's Braves Beat Phils, 3-1, Recapture Lead

Sain Scores 17th Win On Heath's Home Run

BOSTON, Sept. 3 (AP)—The Boston Braves were held to three hits by righthander Emil Leonard but they made such good use of them, thanks to Jeff Heath's 17th homer, that they defeated the Philadelphia Phillies, 3-1, today in the opener of a four-game series.

Johnny Sain, the Tribal righthand ace who has lost more than a few pitching duels this season because his teammates failed him at the plate, gave up seven hits, including Eddie Miller's 13th fourbagger, while chalking up his 17th win.

Leonard retired the Braves in order in all innings except their three-run fourth and the eighth.

Miller put the Phillies into a 1-0 lead in the second frame and then the Braves clinched matters in the fourth, when Al Dark doubled and scored from second on Earl Torgeson's infield out, Bob Elliott walked and Heath lashed into the Phils' bullpen in right field.

Sibby Sisti got the third Boston hit, a two-bagger in the eighth, and was one of the two Tribesmen left stranded during the speedy 91-minute game.

Willie Turnesa And Ray Billows Play For Title

New Yorkers Defeat Dahlbender And Coe

International News Service Sports Writer

MEMPHIS, Tenn., Sept. 3 (INS) —Finesse and experience paid off today for two 34-year-old veterans from New York State—Willie Turnesa and Ray Billows — as they smashed to the finals of the 48th National Amateur Golf Tournament.

Ex-champion Turnesa, of Elmsford, N. Y., belted out Gene Dahlbender, Jr., of Atlanta by a score of 8 and 6 in one semi-final match today.

At the same time Billows, Poughkeepsie, N. Y., salesman, was evicting Charles Coe of Oklahoma City, 6 and 5, over the 6,617-yard Memphis Country Club links.

Turnesa, who won the U. S. Amateur in 1938, and Billows, who was runner-up both the year before that and the year after, will meet for the title at 36 holes of match play tomorrow.

Turnesa's calm putting and steady iron play brought him victory today after he overcame a one-up lead which Dahlbender had fashioned on the outgoing nine this morning.

Willie, who won the 1947 British Amateur Tournament, squared the match on the ninth hole and took the lead once and for all on the 11th.

Turnesa was 4 up at the end of the morning round, and Dahlbender could do no better than record a medal score of 37 on the outgoing nine this afternoon. Turnesa, meanwhile, had a 36, and increased his lead to 5 up.

With only nine holes left, Dahlbender realized he could not win and cracked under the strain. Turnesa won the 28th, 29th and 30th holes to close out the match, 8 and 6.

With Coe, it was his early nervousness which stopped him from giving Billows a closer battle. Billows struck quickly to win the first three holes, and Coe could never recover.

Billows' putting was nothing short of sensational and carried him out of difficulty several times. He drove a ball out of bounds on the 24th hole, but was still able to win in by sinking a ten-foot putt after reaching the green in three.

HOGAN TIES TORONTO IN RENO OPEN GOLF

RENO, Nev., Sept. 3 (AP)—Tournament favorite Ben Hogan missed a four-foot putt on the 18th green today but still carded a five-under-par 67 to tie for the early lead in the first round of the 72-hole $25,000 Reno Open Golf Tournament.

The National and P.G.A. champion hooked up nines of 33-34 to move into a tie with Frank Toronto, Sacramento amateur. Toronto, earlier had toured the par 36-36—72 Washoe Country Club course in 34-33—67.

Other early finishers traveling at a sub-par pace included Lloyd Mangrum, Niles, Ill., 34-34—68; Clayton Heafner, Charlotte, N. C., 35-33—68; George Schneiter, Ogden, Utah, 34-35—69 and Eric Monti, Santa Monica, 35-34—69; Harry Bassler, Los Angeles, 32-37—69; George Schoux, San Fruno, Calif., and Joe Moniz, Jr., Los Gatos, Calif., both 36-34—70.

E. J. (Dutch) Harrison of Little Rock, Ark., who won the 1947 Reno Open, came in with an initial 35-36—71.

Bob Hamilton, Landover, Md., winner of the first Reno Open two years ago, equalled par 72 but was far off the pace.

Dodgers Knocked From 1st Place By New Yorkers

Durocher's Men Cop Pair, 7-5 And 6-3

NEW YORK, Sept. 3—(INS)—The New York Giants knocked Brooklyn out of the National League lead today by taking both ends of a twin bill from the Dodgers at Ebbets Field 7 to 5 and 6 to 3.

Darkness halted the nightcap after eight innings.

The Dodgers now trail the pacesetting Braves by a game and a half, and are only half a game in front of the third-place St. Louis Cardinals, who were idle today.

In the first game the Giants knocked Joe Hatten out of the box in the first inning before he could retire a man. Later, Sid Gordon increased New York's lead with two homers.

Wally Westrum's two-run homer put the Giants in front early in the nightcap, and they picked up four more tallies due mainly to two timely singles by Willard Marshall. Box:

NEW YORK, Sept. 3—Jolting Joe DiMaggio went on a batting rampage today, blasting three home runs and driving in seven tallies to lead the New York Yankees to 6-2 and 5-2 triumphs over the Washington Senators.

The victories enabled the Yanks to move to within two percentage points of the front-running Boston Red Sox. The Red Sox met the A's in a night game at Philadelphia tonight.

DiMaggio banged his 30th and 31st homers of the season and drove in four runs in the first game. He connected with two on in the first inning and again with the bases empty in the third off starting and losing pitcher Forest Thompson. The Yanks clipped Thompson for their final two runs in the seventh inning.

Ted Beard, Hoosier Outfielder, To Join Pittsburgh Pirates

PITTSBURGH, Sept. 3 (AP)—The pennant-minded Pittsburgh Pirates received an assist today in the form of rightfielder Ted Beard of the Bucs' Indianapolis farm club.

The Bucs had kept hands off the sparkling American Association team, but when it clinched the association flag with a 4-1 victory over Columbus last night, the Bucs moved quickly themselves.

The news brought considerable cheer to Pirate Manager Billy Meyer, who is anxious to make the most of the Bucs' chances. Although they dropped a close 5-4 decision to the New York Giants last night, the Corsairs are still only three games behind first place Brooklyn.

Beard will definitely help the Pirates, Meyer declared.

U. S. Team Favored To Retain Trophy

By DAVIS J. WALSH
International News Service Sports Writer

NEW YORK, Sept. 3 (INS) — Box office business and Australia's immediate outlook rose suddenly today as Anzac and American tennis principals put in a bit of curtain-call primping before their 13th meeting for the Davis Cup.

By post-time at 2 p. m. tomorrow, upward of 10,000 paid-up policy holders are expected to gather within the celebrated Forest Hills elipse and all, therefore, was ostensibly serene on the west side front. Enough so, anyhow, to indicate that the earlier threat of a new low in modern challenge round receipts no longer is active.

The event, however, continues to lack good "theatre" in the matter of Aussie Menace, and having neither star nor name-guy in its cast of characters. Just, in fact, a lot of "working stiffs" of the amateur lawn tennis pitch, as shown by the line up for the all-dominant singles:

Frank Parker, America's outstanding deadpan, versus Billy Sidwell, of Australia, consorting with the upper-crust of internationalism for the first time.

Frederick R. (Ted) Schroeder, a mere Davis Cup dilletante, versus Adrian Quist, a hardened old artery from Australia.

Boston's Braves Beat Phils, 3-1, Recapture Lead

Sain Scores 17th Win On Heath's Home Run

BOSTON, Sept. 3 (AP)—The Boston Braves were held to three hits by righthander Emil Leonard but they made such good use of them, thanks to Jeff Heath's 17th homer, that they defeated the Philadelphia Phillies, 3-1, today in the opener of a four-game series.

Johnny Sain, the Tribal righthand ace who has lost more than a few pitching duels this season because his teammates failed him at the plate, gave up seven hits, including Eddie Miller's 13th fourbagger, while chalking up his 17th win.

Leonard retired the Braves in order in all innings except their three-run fourth and the eighth.

Miller put the Phillies into a 1-0 lead in the second frame and then the Braves clinched matters in the fourth, when Al Dark doubled and scored from second on Earl Torgeson's infield out, Bob Elliott walked and Heath lashed into the Phils' bullpen in right field.

Sibby Sisti got the third Boston hit, a two-bagger in the eighth, and was one of the two Tribesmen left stranded during the speedy 91-minute game.

Willie Turnesa And Ray Billows Play For Title

New Yorkers Defeat Dahlbender And Coe

International News Service Sports Writer

MEMPHIS, Tenn., Sept. 3 (INS)—Finesse and experience paid off today for two 36-year-old veterans from New York State—Willie Turnesa and Ray Billows — as they smashed to the finals of the 48th National Amateur Golf Tournament.

Ex-champion Turnesa, of Elmsford, N. Y., belted out Gene Dahlbender, Jr., of Atlanta by a score of 8 and 6 in one semi-final match today.

At the same time Billows, Poughkeepsie, N. Y., salesman, was evicting Charles Coe of Oklahoma City, 6 and 5, over the 6,617-yard Memphis Country Club links.

Turnesa, who won the U. S. Amateur in 1938, and Billows, who was runner-up both the year before that and the year after, will meet for the title at 36 holes of match play tomorrow.

Turnesa's calm putting and steady iron play brought him victory today after he overcame a one-up lead which Dahlbender had fashioned on the outgoing nine this morning.

Willie, who won the 1947 British Amateur Tournament, squared the match on the ninth hole and took the lead once and for all on the 11th.

Turnesa was 4 up at the end of the morning round, and Dahlbender could do no better than record a medal score of 37 on the outgoing nine this afternoon. Turnesa, meanwhile, had a 36, and increased his lead to 5 up.

With only nine holes left, Dahlbender realized he could not win and cracked under the strain. Turnesa won the 28th, 29th and 30th holes to close out the match, 8 and 6.

With Coe, it was his early nervousness which stopped him from giving Billows a closer battle. Billows struck quickly to win the first three holes, and Coe could never recover.

Billows' putting was nothing short of sensational and carried him out of difficulty several times. He drove a ball out of bounds on the 24th hole, but was still able to win in by sinking a ten-foot putt after reaching the green in three.

HOGAN TIES TORONTO IN RENO OPEN GOLF

RENO, Nev., Sept. 3 (AP)—Tournament favorite Ben Hogan missed a four-foot putt on the 18th green today but still carded a five-under-par 67 to tie for the early lead in the first round of the 72-hole $25,000 Reno Open Golf Tournament.

The National and P.G.A. champion hooked up nines of 33-34 to move into a tie with Frank Toronto, Sacramento amateur. Toronto, earlier had toured the par 36-36—72 Washoe Country Club course in 34-33—67.

Other early finishers traveling at a sub-par pace included Lloyd Mangrum, Niles, Ill., 34-34—68; Clayton Heafner, Charlotte, N. C., 35-33—68; George Schneiter, Ogden, Utah, 34-35—69 and Eric Monti, Santa Monica, 35-34—69; Harry Bassler, Los Angeles, 32-37—69; George Schoux, San Fruno, Calif., and Joe Moniz, Jr., Los Gatos, Calif., both 36-34—70.

E. J. (Dutch) Harrison of Little Rock, Ark., who won the 1947 Reno Open, came in with an initial 35-36—71.

Bob Hamilton, Landover, Md., winner of the first Reno Open two years ago, equalled par 72 but was far off the pace.

Dodgers Knocked From 1st Place By New Yorkers

Durocher's Men Cop Pair, 7-5 And 6-3

NEW YORK, Sept. 3—(INS)—The New York Giants knocked Brooklyn out of the National League lead today by taking both ends of a twin bill from the Dodgers at Ebbets Field 7 to 5 and 6 to 3.

Darkness halted the nightcap after eight innings.

The Dodgers now trail the pace-setting Braves by a game and a half, and are only half a game in front of the third-place St. Louis Cardinals, who were idle today.

In the first game the Giants knocked Joe Hatten out of the box in the first inning before he could retire a man. Later, Sid Gordon increased New York's lead with two homers.

Wally Westrum's two-run homer put the Giants in front early in the nightcap, and they picked up four more tallies due mainly to two timely singles by Willard Marshall. Box:

DiMaggio On Swat Spree, Yankees Grab Twin Bill

Hits Three Homers, Nats Lose, 6-2, 5-2

NEW YORK, Sept. 3—Jolting Joe DiMaggio went on a batting rampage today, blasting three home runs and driving in seven tallies to lead the New York Yankees to 6-2 and 5-2 triumphs over the Washington Senators.

The victories enabled the Yanks to move to within two percentage points of the front-running Boston Red Sox. The Red Sox met the A's in a night game at Philadelphia tonight.

DiMaggio banged his 30th and 31st homers of the season and drove in four runs in the first game. He connected with two on in the first inning and again with the bases empty in the third off starting and losing pitcher Forest Thompson. The Yanks clipped Thompson for their final two runs in the seventh inning.

Lefty Ed Lopat limited the Senators to six hits in posting his 15th victory.

In the nightcap, DiMaggio poled his 32nd round-tripper with two aboard in the fifth inning. The blow was an inside the park drive. The seven runs batted-in increased DiMaggio's league-leading total to 125.

Frank Shea, who turned in a one-hit shutout against Detroit his last time out, went the distance for the Yanks to gain his eighth victory. He has lost 10. Shea drove in the first two runs of the game with a triple in the second inning.

Shea blanked the Nats on three hits going into the eighth inning when a walk and doubles by Early Wynn and Ed Stewart produced two runs for Washington. Box:

Parker, Sidwell, Schroeder, Quist To Tangle Today

U. S. Team Favored To Retain Trophy

By DAVIS J. WALSH
International News Service Sports Writer

NEW YORK, Sept. 3 (INS) — Box office business and Australia's immediate outlook rose suddenly today as Anzac and American tennis principals put in a bit of curtain-call primping before their 13th meeting for the Davis Cup.

By post-time at 2 p. m. tomorrow, upward of 10,000 paid-up policy holders are expected to gather within the celebrated Forest Hills elipse and all, therefore, was ostensibly serene on the west side front. Enough so, anyhow, to indicate that the earlier threat of a new low in modern challenge round receipts no longer is active.

The event, however, continues to lack good "theatre" in the matter of Aussie Menace, and having neither star nor name-guy in its cast of characters. Just, in fact, a lot of "working stiffs" of the amateur lawn tennis pitch, as shown by the line up for the all-dominant singles:

Frank Parker, America's outstanding deadpan, versus Billy Sidwell, of Australia, consorting with the upper-crust of internationalism for the first time.

Frederick R. (Ted) Schroeder, a mere Davis Cup dilletante, versus Adrian Quist, a hardened old artery from Australia.

In spite of the fact that America is entering the Cup lists without an established bellwether for the first time since McLaughlin's Day, the defenders are liberally rated as 2½-1 favorites.

But late sentiment seemed inclined to look for a closer score than the 4 to 1 by which Schroeder and Jack Kramer retained the cup last year against a largely dissimilar set of Aussies, of whom only Colin Long actively remains. The latter seems likely to be nominated for Sunday's doubles in which, with ex-amateur Dinny Pails, he scored the lone Anzac win against ex-amateur Kramer and the Schroeder man in 1947.

National champions Gardnar Mulloy and Billy Talbert are the expected American nominees against Long and either Quist or Sidwell—depending upon how well, if at all, they fare in the opening singles.

Quist, second only to Tilden in the matter of Davis Cup seniority, thus may feel forced to accept the necessity of picking up "top-weight" in the event at the tender age of 35.

Briefly, the Aussies may not have much for this 37th challenge round meeting of the famous cup series. With Schroeder, the part-time hero, apparently not quite up snuff at this point. America isn't so hot itself. But at least the Chill's finally off the box office.

Ted Beard, Hoosier Outfielder, To Join Pittsburgh Pirates

PITTSBURGH, Sept. 3 (AP)—The pennant-minded Pittsburgh Pirates received an assist today in the form of rightfielder Ted Beard of the Bucs' Indianapolis farm club.

The Bucs had kept hands off the sparkling American Association team, but when it clinched the association flag with a 4-1 victory over Columbus last night, the Bucs moved quickly themselves.

The news brought considerable cheer to Pirate Manager Billy Meyer, who is anxious to make the most of the Bucs' chances. Although they dropped a close 5-4 decision to the New York Giants last night, the Corsairs are still only three games behind first place Brooklyn.

Beard will definitely help the Pirates, Meyer declared.

Sgt. Carrico was born at Coketon, October 29, 1921, a son of Mrs. Laura Carrico, Davis, and the late Lee Carrico. He was graduated from Davis High School in the class of 1939 and attended a trade school at Arthurdale where he received his diploma in radio and teletype operation.

He enlisted in the Air Corps, May 26, 1941, and trained at West Palm Beach, Fla., and Key Field, Miss. He was sent to overseas duty as a radio and teletype operator on April 30, 1943, being stationed in Australia for a short time and then was sent to New Guinea where he served for 17 months. His son was born while he was stationed there in 1943.

Sgt. Carrico took an interest in the chapel and aided the chaplain in organizing a choir of 50 men. He received a special commendation for that work and also received a medal for "Exemplary behavior, efficiency and fidelity" while stationed there. From that station he was sent to Netherlands, East Indies, and after a few months went to the Philippines where he met his death in action.

Youth Pleads Guilty To Theft Charge

KEYSER, W. Va.—Pleading guilty to a charge of theft, Eugene Swick, 17-year-old Keyser youth, was placed in Mineral County Jail Thursday night, following a hearing before Justice of the Peace Madalyn Bazzle.

Swick was charged with the theft of batteries from a junk yard at the rear of the Liberty Theater, West Piedmont Street, which is operated by Edward Faulk.

Authorities said the Swick youth then sold the same batteries back to Roy Clark, an employe at the junk yard. City police arrested him on a warrant obtained by Clark.

Judge Ernest A. See indicated yesterday another boy was involved, but withheld action because it was his first offense.

Swick pleaded guilty to burglary on May 17, 1945, was ordered sent to the state industrial school, but received a parole. During his parole on March 29, 1946, authorities pointed out, Swick created a disturbance in Keyser High School and was again taken before authorities, but no action was taken at that time.

Swick is now in the custody of Sheriff James A. Dixon.

Driver Fined $50 For Resklessness

KEYSER, W. Va.—Alvin C. Fazenbaker, 308 Hammond Street, Westernport, was fined $50 and costs at a hearing before City Judge A. A. Jordan Thursday on a charge of reckless driving, following an accident at the West Virginia entrance to the Keyser - McCoole bridge Wednesday at 10:45 p. m.

According to City Police who investigated the accident, Claude C. Heavener, Route 1, Keyser, driver of a 1947 truck owned by James E. Smith, 85 Ward Avenue, Keyser, had stopped at the Keyser entrance to the bridge to wait until the bridge was clear of traffic before crossing.

Fazenbaker, headed south on the bridge in a car owned by Donald Fazenbaker, Westernport, made no attempt to stop or slow down as he approached the truck, police said, but instead, increased his speed and crashed against the truck. Authorities pointed out that there was ample clearance for the car to pass the truck.

After hitting the truck, police said, Fazenbaker left the scene of the accident and returned about 20 minutes later when he was apprehended by officers and placed in Mineral County jail to await a hearing.

Before World War II, about 40 per cent of all United States exports went to the British empire.

Grant County School Enrollment Rises; Schools "Overcrowded"

PETERSBURG, W. Va.—C. P. Hott, superintendent of Grant County schools, announced yesterday that county schools will open Monday, September 13, with 81 teachers and 2,000 students.

Twelve school busses and one privately-owned vehicle will carry about 930 students to and from schools, and 900 children are expected to eat their lunches at the schools.

Enrollment in most schools in the county will be larger this year than last year, Hott said. Petersburg High School expects 130 more students, and Petersburg Grade, Mt. Storm and Bayard Grade all expect sizeable increases in enrollment, he added.

Mt. Storm will possibly be the most overcrowded school, Hott said, as another room is needed. Petersburg Grade School will not be able to assimilate any large increase this year, Hott said, adding that the population of Petersburg continues to grow rapidly.

The extra levy passed last April made possible the correction of some bad conditions existing in and around school buildings, Hott said. At Bayard Grade School a furnace had been on the school grounds for a year but could not be installed, due to inadequate funds. The furnace was installed this smmer, as more money was available, Hott explained.

The walls at Bayard High School, which were believed dangerous, were examined and found to be in much worse condition than was thought to be the case, the school official reported. The walls were torn down and completely rebuilt. About 4,000 feet of bad flooring in the building have been replaced, and the heating system has been renovated, Hott said.

The Town Hall school house has been torn down and a modern two-room building is being constructed to replace it, after the old building was examined and found to be unsafe.

Construction of the Petersburg High School lunch room will begin as soon as the Town Hill school is completed, Hott said.

Frost Reported In Garret County

OAKLAND—Extremes in summer temperatures were experienced within six days of each other, going from a high point of 95 for the year last Friday to a low of 36 degrees Wednesday morning.

The hot wave came to an end suddenly with an electrical storm which included some hail. The climax to the week's weather came Wednesday morning when the mercury slid to 36 degrees and a light frost was reported in some sections of the county.

Catch Of Two Bass May Have Been Omen

OAKLAND—In The Republican newspaper issue of August 12, there appeared a picture of Hugh Ream, of the Swallow Falls section, holding two big bass, weighing a total of 11 pounds, with the caption, "Not satisfied with one."

This week that headline was repeated but for another reason. Mr. and Mrs. Hugh Ream announced the birth of twins at their home on Friday, August 27. The total weight was something less than the two big bass, with Richard Dale weighing five pounds and Donna Sue weighing three pounds.

They were the ninth and tenth children for the couple. Mrs. Ream is the former Leona Foster.

Throp-Hankins Vows Exchanged

OAKLAND—Miss Martha Louise Hankins, daughter of Mrs. Dudley Porter Ranney, Framingham, Mass., and the late William Edgar Hankins, Uniontown, Pa., became the bride of Russell Raymond Thorp, Jr., Meadow Estates, Wheeling, W. Va., son of Mr. and Mrs. Russell Raymond Thorp, at a garden wedding at the summer home of Mr. and Mrs. Ranney on Deep Creek Lake last Saturday afternoon, August 28.

The vows were exchanged before a screen of rhododendron, banked on each side by bouquets of salmon colored gladioli. Rev. Gordon H. Sperry, Allentown, Pa., performed the ceremony.

The bride was attired in an ivory satin gown and carried a bouquet of white orchids, baby's breath and white roses. Her veil and petticoat were family heirlooms. Her two attendants were Mrs. James Darby, New York City, and Miss Margaret Ranney, Framingham. Both wore identical white organza dresses over taffeta and carried bouquets of blue flowers. John Garden, Wheeling, W. Va., was best man.

The bride was graduated from the National Cathedral School, Washington, D. C., and the University of Maryland. She is a member of Kappa Kappa Gamma Sorority. The groom at present is a student in the College of Engineering, West Virginia University, Morgantown. He is a veteran of World War II, serving overseas with the 99th Division.

A large number of persons from surrounding states, as well as guests from Oakland, were present for the ceremony. Following their honeymoon the couple will reside at 436 Hess street, Morgantown.

B. & O. Continues Industrial Check In Oakland Area

Possible Plant Sites Are Being Surveyed

OAKLAND — Going ahead with the promise of making a survey for possible sites for industrial development in the Oakland area, E. J. Southerington, engineer for the industrial development for the Baltimore and Ohio Railroad, was in Oakland this week to collect information that any future concern may desire if contemplating an industry here.

Southerington was accompanied by E. W. Adams, Oakland, in a tour throughout the Oakland area, and vacant properties along the railroad. The Industrial Development Committee of the Mt. Top Chamber of Commerce will collect the specific data of the survey, according to Charles L. Briner, president, including estimates of water supply, climate, living conditions, local government, transportation facilities and labor supply. The report is to go to B. and O. headquarters for tabulation and then be returned to the Chamber of Commerce for distribution to any interested persons.

A. G. Gortner, chairman of the Industrial Development Committee for the Chamber, reported that the collection of such information would take about a month to complete. He further reported that the B. and O. had placed over 300 industries along the road in the past and that Oakland has a chance of acquiring one.

OAKLAND — A quiet country wedding was solemnized at the old Bishoff home near Hoyes, now owned by Mr. and Mrs. Emerson Bishoff, on Sunday, August 29, when Roselle Bishoff Gow, daughter of Mrs. T. E. Bishoff and the late Mr. Bishoff, Oakland, became the bride of Marion Thomas Bart, Frederick.

Dr. Denver C. Pickens, pastor of St. Paul's Methodist Church, Oakland, performed the ceremony. Miss Sisk, Oakland, sang three selections and also played the wedding march. Youth Pleads Guilty To Theft Charge

KEYSER, W. Va.—Pleading guilty to a charge of theft, Eugene Swick, 17-year-old Keyser youth, was placed in Mineral County Jail Thursday night, following a hearing before Justice of the Peace Madalyn Bazzle.

Swick was charged with the theft of batteries from a junk yard at the rear of the Liberty Theater, West Piedmont Street, which is operated by Edward Faulk.

Authorities said the Swick youth then sold the same batteries back to Roy Clark, an employe at the junk yard. City police arrested him on a warrant obtained by Clark.

Judge Ernest A. See indicated yesterday another boy was involved, but withheld action because it was his first offense.

Swick pleaded guilty to burglary on May 17, 1945, was ordered sent to the state industrial school, but received a parole. During his parole on March 29, 1946, authorities pointed out, Swick created a disturbance in Keyser High School and was again taken before authorities, but no action was taken at that time.

Swick is now in the custody of Sheriff James A. Dixon.

Driver Fined $50 For Reskiessness

KEYSER, W. Va.—Alvin C. Fazenbaker, 308 Hammond Street, Westernport, was fined $50 and costs at a hearing before City Judge A. A. Jordan Thursday on a charge of reckless driving, following an accident at the West Virginia entrance to the Keyser - McCoole bridge Wednesday at 10:45 p. m.

According to City Police who investigated the accident, Claude C. Heavener, Route 1, Keyser, driver of a 1947 truck owned by James E. Smith, 85 Ward Avenue, Keyser, had stopped at the Keyser entrance to the bridge to wait until the bridge was clear of traffic before crossing.

Fazenbaker, headed south on the bridge in a car owned by Donald Fazenbaker, Westernport, made no attempt to stop or slow down as he approached the truck, police said, but instead, increased his speed and crashed against the truck. Authorities pointed out that there was ample clearance for the car to pass the truck.

After hitting the truck, police said, Fazenbaker left the scene of the accident and returned about 20 minutes later when he was apprehended by officers and placed in Mineral County jail to await a hearing.

Before World War II, about 40 per cent of all United States exports went to the British empire.

Grant County School Enrollment Rises; Schools "Overcrowded"

PETERSBURG, W. Va.—C. P. Hott, superintendent of Grant County schools, announced yesterday that county schools will open Monday, September 13, with 81 teachers and 2,000 students.

Twelve school busses and one privately-owned vehicle will carry about 930 students to and from schools, and 900 children are expected to eat their lunches at the schools.

Enrollment in most schools in the county will be larger this year than last year, Hott said. Petersburg High School expects 130 more students, and Petersburg Grade, Mt. Storm and Bayard Grade all expect sizeable increases in enrollment, he added.

Mt. Storm will possibly be the most overcrowded school, Hott said, as another room is needed. Petersburg Grade School will not be able to assimilate any large increase this year, Hott said, adding that the population of Petersburg continues to grow rapidly.

The extra levy passed last April made possible the correction of some bad conditions existing in and around school buildings, Hott said. At Bayard Grade School a furnace had been on the school grounds for a year but could not be installed, due to inadequate funds. The furnace was installed this smmer, as more money was available, Hott explained.

The walls at Bayard High School, which were believed dangerous, were examined and found to be in much worse condition than was thought to be the case, the school official reported. The walls were torn down and completely rebuilt. About 4,000 feet of bad flooring in the building have been replaced, and the heating system has been renovated, Hott said.

The Town Hall school house has been torn down and a modern two-room building is being constructed to replace it, after the old building was examined and found to be unsafe.

Construction of the Petersburg High School lunch room will begin as soon as the Town Hill school is completed, Hott said.

The hot wave came to an end suddenly with an electrical storm which included some hail. The climax to the week's weather came Wednesday morning when the mercury slid to 36 degrees and a light frost was reported in some sections of the county.

Possible Plant Sites Are Being Surveyed

OAKLAND — Going ahead with the promise of making a survey for possible sites for industrial development in the Oakland area, E. J. Southerington, engineer for industrial development for the Baltimore and Ohio Railroad, was in Oakland this week to collect information that any future concern may desire if contemplating an industry here.

Southerington was accompanied by E. W. Adams, Oakland, in a tour throughout the Oakland area, and vacant properties along the railroad. The Industrial Development Committee of the Mt. Top Chamber of Commerce will collect the specific data of the survey, according to Charles L. Briner, president, including estimates of water supply, climate, living conditions, local government, transportation facilities and labor supply. The report is to go to B. and O. headquarters for tabulation and then be returned to the Chamber of Commerce for distribution to any interested persons.

A. G. Gortner, chairman of the Industrial Development Committee for the Chamber, reported that the collection of such information would take about a month to complete. He further reported that the B. and O. had placed over 300 industries along the road in the past and that Oakland has a chance of acquiring one.

HOLLYWOOD

By LOUELLA PARSONS

HOLLYWOOD, Sept. 3—(INS)—I believe a title with box-office potentialities will get people into the theater almost as quickly as big star names. That's what Lester Cowan figures, so his next picture is "The Customer Is Always Right."

Norma Shearer

Lester tells me that he's starting the picture soon with Ilona Massey, Marion Hutton, and Vera-Ellen, the three charmers who were in his Marx Brothers comedy.

"The Customer Is Always Right" is based on a story by the late Alice Duer Miller.

•—•—•

Tonight James Mason met with Mike Curtiz and Jerry Wald to discuss "Flamingo Road." All but the end of the script is completed, and the unpredictable James declared himself so delighted with what he had read that if this measures up to expectations, he will put his sought-after signature on the dotted line.

Of course, the chance to star with Joan Crawford is also a contributing factor in Mr. Mason's decision. He admires Miss Joan and very frankly says he is interested in making a picture with her.

•—•—•

Norma Shearer, who is leaving Sunday for Europe, called to say au revoir. She and Marty Arrouge and Katherine Thalberg are leaving to spend the winter, and possibly the spring in Switzerland. She said they are going to rent their house and that Irving Thalberg, Jr., who is 18, believe it or not, has motored on to New York, where he'll meet them.

•—•—•

Chatter in Hollywood: Jimmie Stewart, with that dry humor that has always appealed to me, told me about the christening of his plane, "Thunderbird," which is entered tomorrow in the Bendix air race, which takes off for Cleveland.

"I wanted Joan Fontaine to christen my ship, but—well—because—you know she expects a child, we thought it would be dangerous for her to crack a champagne bottle. They are heavy and besides it might break in her face—so," says Jimmie, "I had a bottle made of candy filled with beer, and Joan did the honors in great style."

•—•—•

Van Heflin, the red-haired M.G.M. actor who has yet to give a bad performance, was the guest of honor at the showing of the documentary film "The Secret Land" in San Diego aboard a seaplane.

Heflin is one of the three narrators of this true story movie which tells about the men and ships of the U.S. Navy who were in the Byrd Antarctic Expedition. Robert Montgomery and Robert Taylor are the other two.

•—•—•

Snapshots of Hollywood collected at random:

Danny Kaye gifted his Sylvia with beautiful diamond earrings, on her birthday. I'm so happy to see how well these two have worked out their problems.

Molly O'Day is back in Hollywood, but Jack Durant's dates will keep him in England until Christmas. They went to Ireland, where they visited Barry Fitzgerald's sister.

Howard Duff is looking for a house to buy, and Ava Gardner is helping him.

Mickey Rooney started something I fear, when he put Lillian Lowe, who has been his fan for eight years, in his next picture. Lillian received 300 autographs from him during that time.

Julie Starr, the former Mrs. Jimmy Starr, whose raven locks are now blonde, was at Charley Foy's with Mickey Ryan, her new steady.

Everybody at Mocambo the other night was blinded by the diamond brooch Georgette Windsor wore. Even though she and Harry Cushing are separated he flew here from the east to give her the pin on their anniversary.

Jimmy Lydon's new romance is M'Liss McClure. They are seen very often at the Beverly Tropics.

When Ann Sheridan took off for Europe, Ross Hunter and his gang were at the station to say au revoir, all wearing black arm bands. They love the girl.

I regret to say there is no reconciliation for Jane Wyman and Ronald Reagan, even though they did see each other when they were at Lake Tahoe.

That's all today.

Labor Day Radio Programs Varied; Sports Hold Spot

NEW YORK, Sept. 3—Start of the long Labor Day weekend Saturday will bring a number of events to the networks, including the Cleveland air races.

This event, exclusively CBS under contract will be on the air in two sections—the Tinnerman trophy at 3:30 p. m., preceded by the Bendix trophy at 3. There will be more programs on Sunday and Monday.

Also Chief Justice Fred M. Vinson is to be a CBS Speaker. His talk at 10 will come from the Phi Delta centennial convention at Miami university, Oxford, Ohio.

Following at 10:30 on CBS, is another speaker, Sec. of Defense James Forrestal who will be addressing the banquet of the American Veterans convention at Chicago.

More about the U. S. amateur golf tournament as it takes place at Memphis, Tenn., will bring Bill Stern on the NBC network three times. The schedule calls for 2, 4 and 6:15.

The National Guard military ball, a new weekly half-hour for CBS, gets a listing at 11:15. Ray Heatherton is to do the MC-ing, and a different band will participate each time. . .Hans Lange is to conduct the NBC summer symphony at 6:30 in the first of two broadcasts. . .B. Gimpel is to be on the podium for the ABC Symphony hour at 3:30, which soon will be giving way to football.

Danes Export Medicine

COPENHAGEN — (AP) — Denmark imported most of her medicines before World War II. Now she is exporting medicine to most of the countries of Europe and has found a new market in China. Prewar imports came mostly from Germany, but the medical industry there was destroyed by bombs.

Two large penicillin factories have been built recently and Denmark expects to export large quantities before the end of this year. Danish laboratories are also working on new types of streptomycin which they believe may be better than that from America.

Europe Fights Beetles

LONDON—(AP)—Britain has invited all European Governments to an international conference to try to check the inroads of the Colorado Beetle. The meeting will be held in Geneva in October. V. E. Wilkins of the Ministry of Agriculture said most European countries are aware of the danger of the crop pest and are taking effective measures to eradicate it. Recently, he said, more than one million acres of potato crops along the frontiers of Germany, Holland, Belgium, Luxembourg and France were sprayed with DDT preparations.

Holland has more than five hundred inspectors fighting the pest and France and Belgium are effective in putting it down. But he added "the pest has gained a widespread foothold in many areas of Europe and effective control will take a long time.

SALLY'S SALLIES

"I fixed it up for those poor church mice we hear so much about."

A German chemist made the first DDT the powerful insecticide that became so popular after its extensive use by the United States Army in World War II, says the World Book Encyclopedia.

Yesterday's Answer

DAILY CRYPTOQUOTE—Here's how to work it:

A X Y D L B A A X R
is L O N G F E L L O W

One letter simply stands for another. In this example A is used for the three L's, X for the two O's, etc. Single letters, apostrophes, the length and formation of the words are all hints. Each day the code letters are different.

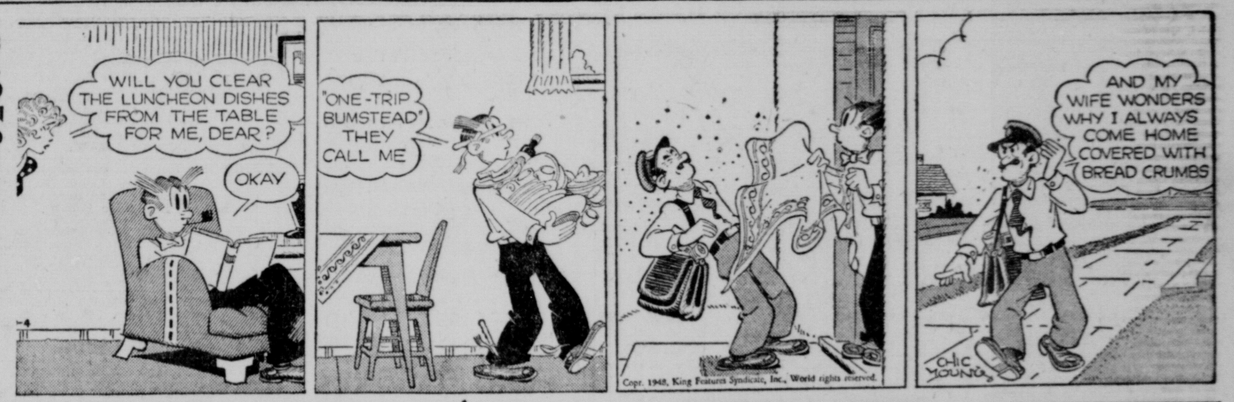

A Cryptogram Quotation

Z X R X Y J Q C Y O U F U Y C Y X J G O U T T,
U X A C Q R F U H Z M A R U C Q I G O C V R
C L Z A A R X Z X P R — Q Z L U P R.

Yesterday's Answer

DAILY CRYPTOQUOTE—Here's how to work it:

A X Y D L B A A X R
is L O N G F E L L O W

One letter simply stands for another. In this example A is used for the three L's, X for the two O's, etc. Single letters, apostrophes, the length and formation of the words are all hints. Each day the code letters are different.

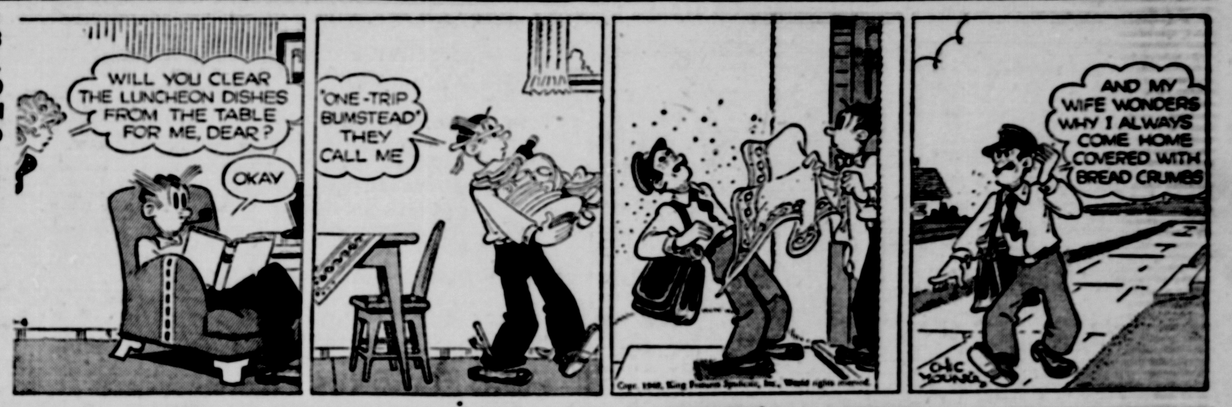

A Cryptogram Quotation

ZXR XYJQC YO UFUYCYXJ GO UTT, UXA CQR FUH ZM ARUCQ IGOC VR CLZAARX ZXPR—QZLUPR.

Yesterday's Cryptoquote: EVERYTHING WHICH IS UNKNOWN IS TAKEN FOR MAGNIFICENT—TACITUS.

Late Pickup In Demand Saves Stock Market From Posting Losing Score

NEW YORK, Sept. 3 (AP)—A late pickup in demand saved the stock market from turning in a losing score today.

Trading activity slowed down to the sluggish rate which prevailed most of last month. Turnover of only 660,000 shares contrasted with 900,000 Thursday and 920,000 Wednesday.

Packing house shares took a licking after the surprise announcement that Armour and Company had skipped a common dividend. Armour closed 2⅜ lower at 10¼ and Cudahy dipped ⅞ to 10⅛, each a new low for the year. Armour preferred had 4¼ points lopped off at 96 and Wilson common was a point down at 13⅝.

The Armour dividend was omitted after three payments of 30 cents each. The company resumed dividends last December after a 10-year interval.

The railroad group, which was among the stronger sections of the market in the past two days, developed a definite wobbly streak. Rock Island edged up to a new high for the year at 42 and higher prices were posted for Santa Fe, Great Northern preferred, and Northern Pacific.

Lower, though, were New York Central at 17¾, Pennsylvania 19⅞, Southern Pacific 61¼, Southern Railway 48½, Atlantic Coast Line 56½, and Illinois Central 41¼.

Among the gainers were Packard, United States Rubber, Caterpillar Tractor, Douglas Aircraft, Schenley, Texas Pacific Land Trust (up 2⅛ at 45⅛), American Telephone, Electric Power and Light, Kennecott Copper, American Can, Radio Corporation, and Standard Oil (NJ).

Du Pont dropped 2¼ to 170½ and fractional declines appeared for United States Steel, General Motors, Chrysler, Anaconda Copper, Philip Morris, Paramount Pictures, and Gulf Oil.

In the curb, Quaker Oats gained two points on odd-lot sales. Smaller improvement was noted in Colon Development and Imperial Oil. Lower were Cities Service, Humble Oil and Aluminum Company. Sales of 160,000 shares compared with 210,000 Thursday.

Price changes were narrow and irregular in the bond market as trading interest dwindled sharply.

United States governments clung close to previous price levels in over-the-counter dealings. Pernambuco stamped 7s advanced two points to 26 in the foreign dollar section.

Court Cases Hit All-Time High

OAKLAND—An all-time high in the number of cases heard by Trial Magistrate H. A. Loraditch in Oakland was established last month, surpassing the former record of 118 cases in June by six. "This is probably more than they had in prohibition days," the magistrate said.

The cause for the unusual number, Loraditch reported, is the fact that boating regulations are being enforced with more than just warnings this year, and indifference to the law is a big factor."

Late Pickup In Demand Saves Stock Market From Posting Losing Score

NEW YORK, Sept. 3 (AP)—A late pickup in demand saved the stock market from turning in a losing score today.

Trading activity slowed down to the sluggish rate which prevailed most of last month. Turnover of only 660,000 shares contrasted with 900,000 Thursday and 920,000 Wednesday.

Packing house shares took a licking after the surprise announcement that Armour and Company had skipped a common dividend. Armour closed 2¾ lower at 10¼ and Cudahy dipped ⅞ to 10⅛, each a new low for the year. Armour preferred had 4¼ points lopped off at 96 and Wilson common was a point down at 13⅝.

The Armour dividend was omitted after three payments of 30 cents each. The company resumed dividends last December after a 10-year interval.

The railroad group, which was among the stronger sections of the market in the past two days, developed a definite wobbly streak. Rock Island edged up to a new high for the year at 42 and higher prices were posted for Santa Fe, Great Northern preferred, and Northern Pacific.

Lower, though, were New York Central at 17⅜, Pennsylvania 19⅞, Southern Pacific 61¼, Southern Railway 48½, Atlantic Coast Line 56½, and Illinois Central 41¼.

Among the gainers were Packard, United States Rubber, Caterpillar Tractor, Douglas Aircraft, Schenley, Texas Pacific Land Trust (up 2¼ at 45¼), American Telephone, Electric Power and Light, Kennecott Copper, American Can, Radio Corporation, and Standard Oil (NJ).

Du Pont dropped 2¼ to 170½ and fractional declines appeared for United States Steel, General Motors, Chrysler, Anaconda Copper, Philip Morris, Paramount Pictures, and Gulf Oil.

In the curb, Quaker Oats gained two points on odd-lot sales. Smaller improvement was noted in Colon Development and Imperial Oil. Lower were Cities Service, Humble Oil and Aluminum Company. Sales of 160,000 shares compared with 210,000 Thursday.

Price changes were narrow and irregular in the bond market as trading interest dwindled sharply.

United States governments clung close to previous price levels in over-the-counter dealings. Pernambuco stamped 7s advanced two points to 26 in the foreign dollar section.

Court Cases Hit All-Time High

OAKLAND—An all-time high in the number of cases heard by Trial Magistrate H. A. Loraditch in Oakland was established last month, surpassing the former record of 118 cases in June by six. "This is probably more than they had in prohibition days," the magistrate said.

The cause for the unusual number, Loraditch reported, is the fact that boating regulations are being enforced with more than just warnings this year, and indifference to the law is a big factor."

Suspect Held In Attack On Taxi Driver

Two Others Still Sought

Police indicated late last night they were holding a suspect in the attack on Chester "Slim" O'Neal, 52, driver for the 71 Taxi concern, early Wednesday morning at Bean's Cove, Pa., when his cab was stolen.

Chief of Police R. Emmett Flynn said the suspect was arrested yesterday by Detective Lt. Edwin R. Lilya, but declined to disclose his name or the conditions leading to his arrest.

Meanwhile, State Police also reported some progress in the case, saying that the exact scene of the attack had been determined, and that O'Neal's lower denture plate was found in good condition there, along with his watch and the frames of his glasses. The lenses were broken, they reported. O'Neal's hat, they said, was found two miles from the scene of the attack.

Cab Recovered

O'Neal said he picked up three men at about 1:40 a. m. at the B. and O. YMCA Wednesday morning. They told him to take them to Leary's Tavern on the Bean's Cove Road, and attacked him near McLuckie's, he said.

The first break in the case came Wednesday night when the stolen cab, owned by William See, proprietor of the taxi service, was recovered at about 8:30 on Monroe Street near the Navay Armory. Only about four gallons of gasoline had been used between the time of the attack and the time the cab was found, police said.

Police are still looking for the other two attackers, who were said to have entered Leary's Tavern shortly after the assault. However, the suspects left before police arrived.

The attack was interrupted by the arrival of David Shank, Cresaptown, who told police he rounded a bend in the road in his truck Wednesday morning and saw two men by the road beating O'Neal. Seeing his lights, one of them ran into the brush and the other escaped in the cab, he said.

Shank and his two companions, Randall Beachy and Kenneth Stotlemeyer, also of Cresaptown, took O'Neal to Leary's Tavern, where they notified State Police.

Recognized Two Men

O'Neal later said he recognized two of the men involved in the assault while he was receiving first aid at the tavern, but was afraid to identify them at the time for fear he would receive another beating.

The injured man was taken to Memorial Hospital, where he was reported to be in "good" condition late last night.

Trooper First Class William F. Baker, criminal investigator, has been investigating for state police.

ONE FAMILY MAIL STAFF-- The three Perdew brothers, a son, and a nephew, could operate a postoffice without extra help. Working at the local postoffice are (left to right, front) Amos A. Perdew, Sr., 523 Fort Avenue, mail clerk; Russell Perdew, Jr., Route 2, carrier on Washington Street; Russell Perdew, Sr., Route 2, Eastman Road, parcel post carrier in South Cumberland; (left to right, rear) Willis Robertson, a nephew, Route 5, mail clerk, and Walter Perdew, 512 Eastern Avenue, mail messenger. Among themselves, they have given over 91 years of service to the United States government.

Area Legionnaires To Participate In State Convention

Over 100 To Leave For Ocean City

More than a hundred American Legionnaires and Auxiliary members from the Legion's Mountain District, which includes posts in Allegany and Garrett counties, plan to participate in the 30th annual American Legion State Department convention which opens at Ocean City, Md., September 8.

The largest single delegation will represent Fort Cumberland Post No. 13, this city, with 20 credited delegates and as many alternates. The Mountain District delegation, Legion officials said last night, will go unpledged, to the convention.

A varied program of activity and entertainment is in store for the visitors, including an airshow featuring Navy, Air Force and National Guard planes over the seaside resort September 11, next to the last day of the conclave.

Meanwhile political attention will center on the campaign to elect a successor for State Commander H. S. Allen.

Three candidates—all World War I veterans—have announced their intention to seek the commander's post. They are John D. Carmen of Joppa, Milton J. Dance of Towson, and Joseph L. Davis of Havre De Grace.

The convention is scheduled to open with a joint session of the legion and its auxiliary at 8 p. m. (EDT) Wednesday. All business sessions will be held at the Pier Club.

A dance will follow adjournment of the opening session.

Business meetings begin Thursday

Five Members Of Perdew Family Work At Cumberland Postoffice

The Perdew family could run a small postoffice all by itself. Working in the Cumberland Postoffice are a mail messenger, two clerks, a parcel post carrier and a mail carrier, all relatives.

Walter Perdew, 512 Eastern Avenue, has taken mail and packages to and from the B. and O. and Western Maryland Railroads off and on since 1921. He calls himself the "oldest active postoffice messenger." He is in his early forties.

He never seems to stop working. While being interviewed, he loaded boxes and mail bags constantly. It was difficult to get him in one place long enough to have his picture taken.

A brother, Russell Perdew, Sr., Route 2, Eastman Road, will have completed 30 years with the postoffice in November. He spends his day driving a truck with parcel post packages in South Cumberland.

His son, Russell Perdew, Jr., Route 2, is following his father in the postal service and delivers mail on Washington Street. He's been a carrier for a year and a half and wants to stay there. He likes the out-of-doors.

The member of the family who has been in the postal service the longest is Amos A. Perdew, a third Perdew brother, 423 Fort Avenue. He has served for 34 years, starting as a mail messenger, then becoming a substitute clerk-carrier and then a full-time clerk.

Perdew remembers the old Postoffice on Frederick Street with affection. It was "homier." He said he could get more work done without so much walking around.

The veteran mail-clerk pointed out a mark on a door of the sorting room about four feet from the floor where Wills Creek hit in 1936. He recalls putting the mail on steel trays and carrying it to the upper floors. Some of it got wet, so the clerks had to personally oversee its drying.

That was one time the elements did stop at least the local mail, he admitted. However, outgoing mail still went. Walter Perdew, himself, carried mail sacks on his back to the

Textile Workers Protest Bulletin Board Action

Company Asks Change In Union Notice

Local 1874, Textile Workers Union of America, CIO, yesterday protested what it termed the refusal of Celanese officials to allow the posting on Amcelle bulletin boards notices of meeting to solicit aid for TWUA workers in Rome, Ga., a charge flatly denied by the firm which said it merely requested changes in the wording of the notices.

The notices, as posted at union hall, call special meetings next Wednesday at 8 p. m. and Thursday at 10:30 a. m. in the union hall for action on suggested aid for the Rome workers.

The bulletin, above the signature of Playford Aldridge, president, said the meetings were called "upon the recommendation of the executive board which calls for financial aid being extended to strikers at the Tubize, Rome, Ga., plant" of the Celanese firm.

Charges Bad Faith

The union assertion brought a charge of bad faith from Edward R. Allan, personnel superintendent of the plant, who declared Local 1874 has been abusing the leave of absence clause in the contract.

The union, he said, has requested leave of absence for men who it later developed were assisting in strike action elsewhere in spite of the fact that the company and the union here are at peace.

The union released Aldridge's reply to Allan, which said:

Cites Rome Strike

"It has long been the policy of the Celanese Corporation of America. . .to post official signed notices

Ellis H. Patterson, Jr., Romney, W. Va., forfeited bond of $3.75 on a reckless driving charge.

Johnny Marvin, Weirton, W. Va., forfeited bond of $5.75 on a charge of operating without a license. Both were stopped by Trooper Hart.

Trooper Gilmore preferred the following charges:

City Police Officer Leonard Murphy reported six arrests in the town on charges of disorderly conduct and in some cases drunkeness. Officer Murphy said disorderly conduct has been on an increase and police are determined to "clean up the condition."

John Jackson, Piedmont, W. Va., colored, was given a suspended sentence of six months on condition he conduct himself properly and stay out of trouble. He was charged with being drunk and disorderly.

Emmett McGreevy, Westernport, forfeited $27 bond on a charge of being drunk and disorderly. Paul Bosley, Westernport, forfeited $12 bond on a disorderly conduct charge. Charles Spriggs, Westernport, forfeited bond of $17 on a drunk and disorderly charge.

Reserve Armory Commissioning Is Set September 18

Admiral Ainsworth To Officiate At Event

Plans are nearing completion for the commissioning of the new Navy and Marine Corps Reserve Armory on McKaig's Hill, with ceremonies scheduled Saturday afternoon, September 18, at 2:30 o'clock.

This announcement was made yesterday by Lt. Cmdr. William H. Geppert, USNR, chairman of the local Naval Reserve advisory committee, which is making arrangements for the event in co-operation with the Marine Corps Reserve.

Rear Admiral W. L. Ainsworth, Norfolk, Va., commandant of the Fifth Naval District, will officiate at the commissioning of the armory.

Rep. J. Glenn Beall (R-Allegany) will act as master of ceremonies, Geppert said.

The event will include a concert to be presented by the Quantico Marine Base Band. Members of the Naval and Marine Corps Reserve divisions in Cumberland will attend in full uniform. Combined personnel of the divisions totals about 460 officers and men.

Following the commissioning, service personnel will escort guests through the radar rooms, radio station, machine shops and other sections of the structure.

The training center will be opened to public inspection after the ceremony.

Aside from Admiral Ainsworth and members of his staff, invitations are being sent to other high Navy and Marine Corps officials, as well as to city and county authorities, fraternal, veterans and service organizations and heads of major local industries.

Mayor Marshall C. Skidmore of Frostburg and Mayor Frank Magruder of Ridgeley will also be invited to attend, Geppert said.

Other members of the Naval Reserve advisory committee are Lt. William L. Wilson, Jr. USNR and Harrison C. Givens, Jr.

Ground was broken in July, 1947, for the new armory, after a contract was awarded to the Altoona firm of Moyer Brothers, which submitted a low bid of $159,887.

The armory is located on seven and one-quarter acres of land leased to the Navy by the city. It is composed of three metal Butler buildings, each 40 feet wide by 100 feet long, connected by a main entrance corridor 154 feet long and 26 feet wide.

Freedom Train To Visit Hagerstown

Area residents will have an opportunity to view the Freedom Train at other points in this section besides Cumberland, Mayor Thomas S. Post said yesterday.

The mayor made this announcement after receiving an inquiry from a teacher in Berkeley Springs, W. Va., regarding the possibility of bringing a large number of students here on September 22, when the Freedom Train will visit Cumberland.

Mayor Post pointed out that the famed exhibit of priceless historical documents will visit Winchester, Va., on October 7, and Hagerstown on October 8.

He said he would recommend that the Berkeley Springs group plan to visit the train at either of those cities, both of which are nearer than Cumberland.

For the benefit of other residents of nearby West Virginia and Pennsylvania, Mayor Post issued the following schedule of stops to be made by the Freedom Train, as announced by the American Heritage Foundation:

Wheeling, W. Va., September 14; Johnstown, Pa., September 21; Parkersburg, W. Va., September 23; Clarksburg, W. Va., September 24; Charleston, W. Va., September 25; Huntington, W. Va., September 26; Bluefield, W. Va., September 28.

Following a swing through Tennessee and North Carolina, the Freedom Train will visit Winchester, Va., October 7 and Hagerstown October 8; York, Pa., October 9 and Lancaster, Pa., October 10.

Lowery Still Critical

There is no change in the condition of Harris Lowery, 64, who was found unconscious Thursday along the Corriganville B. and O. tracks. He has continued to be unconscious and in a "critical" condition since yesterday morning, attaches of Memorial Hospital said last night.

Unidentified Man Held In Jail

A man identified only as "John Doe" was being held in City Jail last night after receiving treatment at Memorial Hospital for a head injury, apparently sustained, police said, when he was struck with a blunt instrument.

He was taken to the hospital at 2:50 a. m. yesterday by Lt. James E Van and Officer Leo P. Law, and is being held for further identification, as there was no identification on his person.

Official Opening Of Smoke Office Set October 1

Hitchcock To Ask Long Appointment

The new smoke abatement c on the second floor at City will be opened officially on a time schedule Friday, October 1, according to George M. Hitchcock, city smoke abatement engineer.

Hitchcock also announced yesterday that he plans to recommend appointment of Mrs. Nellie V. Long as secretary at the next meeting of the Mayor and Council on Tuesday.

The Board of Civil Service Commissioners reported August 23 that Mrs. Long placed highest in the examination for secretary to the smoke abatement engineer, with a score of 85 per cent.

At present she is employed as secretary to Maurice M. Cohn, manager of Maurice's Department Store. Hitchcock said Mrs. Long has informed him she will accept the position if city officials approve the recommendation.

When the office is opened on a full-time basis, Hitchcock said, complaints will be handled there and work will begin on the enforcement phase of the smoke control ordinance.

The engineer, who is also superintendent of the Evitts Creek Water Company, plans to be in the office Mondays, Wednesdays and Fridays.

After October 1, Hitchcock said, he plans to prepare an examination for the 15 applicants for the position of deputy smoke inspector, adding that he hopes to hold the test within two weeks after that date.

Following appointment of the deputy inspector, Hitchcock said, plans will be made for installation of the 19 proposed air pollution stations at various locations throughout the city. Present tentative plans call for location of the devices on roofs of buildings.

Record Turnout Anticipated At Labor Day Picnic

A record turnout was anticipated last night by Local 1874, Textile Workers Union of America, CIO, officials at the united Labor Day celebration which will be held Monday at Crystal Park.

The events will open with a special party for children from 11 a. m. to 1 p. m. Special contests and a free treat will be available for the youngsters.

Meeting Planned Tonight To Avert Bakery Stoppage

Action On Schmidt Offer Set At 2 P. M.

Last minute efforts to avert a strike threatened tonight at midnight at four Cumberland area bakeries will be made tonight at a meeting between the union and three of the baking firms.

Charles Robinette, business manager of Local 246, Bakery Workers Union, AFL, said arrangements were made yesterday for the conference between the local and the Ort, Community and McIntyre Bakeries tonight at 7 o'clock in Central YMCA.

The union will hold a special meeting this afternoon at 2 o'clock in Allegany Trades Council Hall for action on a new wage and contract proposal made by the Schmidt Baking Company Tuesday night.

Set Strike Deadline

Union officials declined to disclose terms of the Schmidt offer until the union has had an opportunity to act upon the proposal.

Declaring the patience of the workers had reached the breaking point, heads of Local 246 reported last Saturday that the strike deadline had been set as a result of a secret mail vote by union members.

Until recently, negotiations on a contract to replace the agreement which expired May 1 were conducted on a joint basis. Recent union efforts have been on a shop-to-shop basis.

A joint offer of wage increases of two and one-half cents an hour for workers in the cake department and five cents in the bread department has been rejected by the 150 member union.

Seek Back Pay

Harold Dixon, union president, added the firms also seek to have pay increases retroactive only to August 23 despite a verbal agreement to make pay date back to May 1, the expiration date of the 1947 contract.

The union some time ago won a union security election held by the NLRB which paves the way for the union shop being asked in the new contract.

The contract of July, 1947, provided a 10 cent wage boost retroactive to May 1, 1947, and effective July 27, 1947, an overall boost of 12½ cents for all except helpers, who received 15 cents. That pact provided wage scales ranging from $1.48½ an hour for working foremen to a minimum of 77½ cents for wrapping and icing employes.

Dennis Held In Bad Check Case

Joseph M. Dennis, Mt. Lake Park, is being held in City Jail for questioning in the State's Attorney's office this morning in connection with a charge of passing a worthless check here Wednesday.

Dennis was arrested in Oakland Thursday night by State Trooper Robert F. Henline after Richard A. Johnson, proprietor of Johnson's Auto Exchange, 325 South Centre Street, reported Dennis had given him a worthless check in partial payment for a car.

Johnson said Dennis bought a car from him Wednesday for $595 and gave him a check on the First National Bank of Friendsville for $250. The other $300, Johnson said, was financed.

Johnson said he called the bank Thursday morning, but was told that Dennis had no account there. He then sent two of his men to Oakland to look for Dennis and settle the matter, he said, but they were unable to find him and notified State Police at Oakland.

Trooper Henline said he arrested Dennis Thursday night and lodged him in Garrett County Jail. He was brought to Cumberland yesterday for prosecution.

More Men Sign Up For Peacetime Draft

Incomplete returns of men born in 1924 who signed up for the draft Wednesday total 271, P. [illegible] Fahey, clerk for Cumberland boards reported yesterday.

Totals were Flintstone, 5; Cresaptown, 16; Corriganville, 4; Pennsylvania Avenue, 41; John Humbird, 48; Centre Street, 32; West Side, 36; East Side, 18; Gephart School, 16; Carver High, 3, and LaSalle, 49.

Fahey said the need for volunteer registrars is still urgent and praised the devotion to duty of the overworked crews who are conducting the lengthy registration.

Men who were born in 1925 will sign up today and Tuesday.

Court Grants Three Divorce Decrees

Three divorce decrees were signed in Circuit Court yesterday by Chief Judge William A. Huster.

Pearl V. McMillan, West Oldtown Road, was divorced from William G. McMillan and granted the use of her maiden name, Pearl V. Hefner.

Helen V. Perdew was divorced from Amos A. Perdew, Jr., and given the right to resume her maiden name, Helen V. Alderton.

Silcox Completes Red Cross Course

H. Lee Silcox, 404 Decatur Street, local chairman of the Red Cross water safety, accident prevention and first aid committee, has returned from the National Aquatic Camp for the Eastern States, Minnehaha Springs, W. Va.

Silcox was a first aid instructor at the camp under the direction of Robert O. Earl, Alexandria, Va. Earle taught first aid classes here last fall.

Twenty-five instructors taught 173 students from almost every eastern state accident prevention, water safety, first aid, boating and canoeing. Those finishing the 10-day course which began August 23, received instructor's certificates.

Silcox is now qualified as a home accident prevention teacher. He hopes to begin classes in farm and home accident prevention as soon as possible.

About one-third of all fatal accidents in the United States happen in the home, he said. The National Safety Council takes care of accidents in industry and on the highway, but the Red Cross is the only nation-wide organization which puts emphasis on safety in the home.

This course is a relatively new one in the country, according to Silcox. It was not until three years ago that a text was written. This is the first time that Cumberland has had a qualified instructor.

Silcox pointed out that if all of the fatal accidents happening in the home were put together, it would be the same as wiping out a town the size of Hagerstown.

Farm and Home accident prevention classes are divided into senior and junior classes—junior for ages 12 to 14, and senior for those over 16.

Organizations wishing to take the classes, which are 10-hour certificate courses, should contact the local Red Cross office in the Postoffice building.

Missing Mother Of Dead Child Located

The search for the mother of a 12-year-old girl who died Wednesday morning of a brain tumor, came to a close yesterday afternoon when the mother, Mrs. Martha Wilt Zimmerman, came to Cumberland and heard the news of her daughter's death—about an hour too late.

Mrs. Zimmerman's daughter, Mary Ellen, was buried at 2 p. m. yesterday in Bittinger Lutheran Cemetery.

Mary Ellen had been staying with her maternal grandparents, Mr. and Mrs. Nelson Wilt, Jennings, for some time. Her mother had been working in Baltimore, and more recently came to Cumberland.

Mrs. Zimmerman had been sought since Wednesday in the Tri-State area, and yesterday came here with her brother-in-law, Edgar B. Sheetz, Kennell's Mill, Pa. After she was informed of her daughter's death, Sheetz reported to local police that Mrs. Zimmerman had been staying with him and his wife for about two weeks, and that she intended to return to Grantsville.

Dean Family Will Reside In Frederick

Mrs. Louise C. Dean, who has resigned as home service secretary for Allegany County Chapter, American Red Cross, left Cumberland yesterday with her three daughters to join her husband, H. Albert Dean, in Frederick, where the family will reside.

Mrs. Dean began her service with the county Red Cross chapter in August, 1936. Three years later she was named executive secretary. Because of the volume of servicemen's cases during World War II, she resumed her former duties as home service secretary, continuing until she was granted an indefinite leave of absence last November.

Her husband, who served in the Pacific theater during the war, is now engaged in the insurance and produce business in Frederick.

Reserves Return To Civilian Life

Company "D", Fifth Battalion, Marine Corps Reserve, returns to civilian life at 10:30 a. m. today. A special train will return the over 200 Cumberland area men who have been training for two-weeks at Camp LeJeune, N. C.

Besides winning all the honors on the rifle range last week, Company "D" was picked out for a front page picture by the camp newspaper, The Camp LeJeune Globe, as an example of men "well-trained and prepared to assume their places in case of any eventuality."

Wednesday was payday and $6,713.16 was paid out to the enlisted men as training pay.

Master Sgt. Roger R. Jernigan of the local instructor-inspector staff, returned last night ahead of the unit.

Capt. John T. Fey, commandant of Company D, issued a memorandum of commendation to the group thanking them for their excellent spirit during their first encampment and mentioning the comments on their showing by base personnel who saw 13,000 reservists go through training this year.

Company D was the largest single unit at the LeJeune Base.

Food Prices Here Virtually Unchanged

Food prices which have been showing a slight decline here recently were at a standstill this week, the Cumberland Chamber of Commerce reported yesterday.

The food basket checked each week by the Chamber of Commerce cost $8.77 yesterday, which is actually an increase over last Friday's price of $8.57, but the increase was attributed to one product, oranges, and that due to a difference of quality. Other prices checked were reported unchanged.

The Weather

It was easier to tell that it was summer and not fall yesterday as the thermometer went up to 86. In fact, the weather remained quite pleasant even at 11 o'clock last night which was a comfortable 67. The overnight low was 52. Those who are supposed to know say that the sun and warm weather will stay with us today.

New Elementary Teacher To Be Appointed For Carver School

Because of increased enrollment in the elementary grades at Carver School, a new elementary teacher is to be added to the faculty, Earle L. Bracey, principal, announced last night.

At present the school has three elementary teachers. Appointment of the fourth has not yet been made.

New policies with reference to home room programs were discussed at a faculty meeting yesterday afternoon in preparation for the opening of classes Tuesday morning at 9 o'clock.

Half-day sessions will be held Tuesday and Wednesday, and regular full-day classes will begin Thursday.

Bracey said approximately 120 children are enrolled in the first through sixth grades, with about 108 registered in grades 7 through 12.

About 10 of the high school students will be from Williamsport and Petersburg, W. Va., attending Carver

PLANNING PROGRAM-- Victor D. Heisey, principal of Fort Hill High School (left), and Ernest A. Minka, formerly of Bound Brook, N. J., new guidance instructor at Fort Hill, are seen here in conference planning activities for the new school year. Following a general teacher meeting at Allegany High School yesterday morning, teachers assembled in their own schools in the afternoon for faculty meetings to plan the program and organization preparatory to opening schools Tuesday. Fort Hill has the largest faculty in the county, with 65 teachers including Mr. Heisey, the principal, assigned. Indications are that enrollment will be the heaviest on record, Heisey said last night.

Suspect Held In Attack On Taxi Driver

Two Others Still Sought

Police indicated late last night they were holding a suspect in the attack on Chester "Slim" O'Neal, 52, driver for the 71 Taxi concern, early Wednesday morning at Bean's Cove, Pa., when his cab was stolen.

Chief of Police R. Emmett Flynn said the suspect was arrested yesterday by Detective Lt. Edwin R. Lilya, but declined to disclose his name or the conditions leading to his arrest.

Meanwhile, State Police also reported some progress in the case, saying that the exact scene of the attack had been determined, and that O'Neal's lower denture plate was found in good condition there, along with his watch and the frames of his glasses. The lenses were broken, they reported. O'Neal's hat, they said, was found two miles from the scene of the attack.

Cab Recovered

O'Neal said he picked up three men at about 1:40 a. m. at the B. and O. YMCA Wednesday morning. They told him to take them to Leary's Tavern on the Bean's Cove Road, and attacked him near McLuckie's, he said.

The first break in the case came Wednesday night when the stolen cab, owned by William See, proprietor of the taxi service, was recovered at about 8:30 on Monroe Street near the Navay Armory. Only about four gallons of gasoline had been used between the time of the attack and the time the cab was found, police said.

Police are still looking for the other two attackers, who were said to have entered Leary's Tavern shortly after the assault. However, the suspects left before police arrived.

The attack was interrupted by the arrival of David Shank, Cresaptown, who told police he rounded a bend in the road in his truck Wednesday morning and saw two men by the road beating O'Neal. Seeing his lights, one of them ran into the brush and the other escaped in the cab, he said.

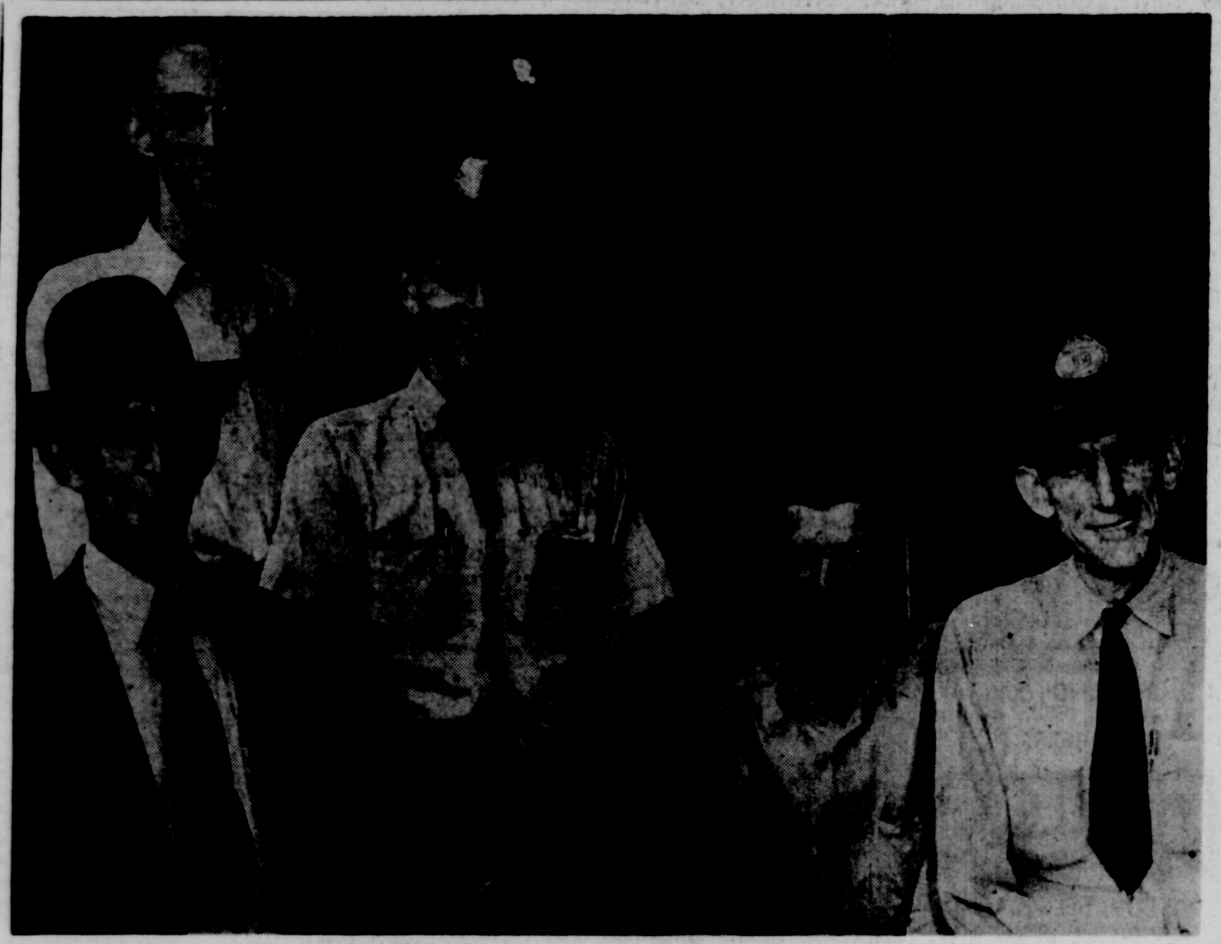

Shank and his two companions, Randall Beachy and Kenneth Stotlemeyer, also of Cresaptown, took O'Neal to Leary's Tavern, where they notified State Police.

Recognized Two Men

O'Neal later said he recognized two of the men involved in the assault while he was receiving first aid at the tavern, but was afraid to identify them at the time for fear he would receive another beating.

The injured man was taken to Memorial Hospital, where he was reported to be in "good" condition late last night.

Trooper First Class William F. Baker, criminal investigator, has been investigating for state police.

ONE FAMILY MAIL STAFF--The three Perdew brothers, a son, and a nephew, could operate a postoffice without extra help. Working at the local postoffice are (left to right, front) Amos A. Perdew, Sr., 523 Fort Avenue, mail clerk; Russell Perdew, Jr., Route 2, carrier on Washington Street; Russell Perdew, Sr., Route 2, Eastman Road, parcel post carrier in South Cumberland; (left to right, rear) Willis Robertson, a nephew, Route 5, mail clerk, and Walter Perdew, 512 Eastern Avenue, mail messenger. Among themselves, they have given over 91 years of service to the United States government.

Area Legionnaires To Participate In State Convention

Over 100 To Leave For Ocean City

More than a hundred American Legionnaires and Auxiliary members from the Legion's Mountain District, which includes posts in Allegany and Garrett counties, plan to participate in the 30th annual American Legion State Department convention which opens at Ocean City, Md., September 8.

The largest single delegation will represent Fort Cumberland Post No. 13, this city, with 20 credited delegates and as many alternates. The Mountain District delegation, Legion officials said last night, will go unpledged, to the convention.

A varied program of activity and entertainment is in store for the visitors, including an airshow featuring Navy, Air Force and National Guard planes over the seaside resort September 11, next to the last day of the conclave.

Meanwhile political attention will center on the campaign to elect a successor for State Commander H. S. Allen.

Three candidates—all World War I veterans—have announced their intention to seek the commander's post. They are John D. Carmen of Joppa, Milton J. Dance of Towson, and Joseph L. Davis of Havre De Grace.

The convention is scheduled to open with a joint session of the legion and its auxiliary at 8 p. m. (EDT) Wednesday. All business sessions will be held at the Pier Club.

A dance will follow adjournment of the opening session.

Business meetings begin Thursday

Five Members Of Perdew Family Work At Cumberland Postoffice

The Perdew family could run a small postoffice all by itself. Working in the Cumberland Postoffice are a mail messenger, two clerks, a parcel post carrier and a mail carrier, all relatives.

Walter Perdew, 512 Eastern Avenue, has taken mail and packages to and from the B. and O. and Western Maryland Railroads off and on since 1921. He calls himself the "oldest active postoffice messenger." He is in his early forties.

He never seems to stop working. While being interviewed, he loaded boxes and mail bags constantly. It was difficult to get him in one place long enough to have his picture taken.

A brother, Russell Perdew, Sr., Route 2, Eastman Road, will have completed 30 years with the postoffice in November. He spends his day driving a truck with parcel post packages in South Cumberland.

His son, Russell Perdew, Jr., Route 2, is following his father in the postal service and delivers mail on Washington Street. He's been a carrier for a year and a half and wants to stay there. He likes the out-of-doors.

The member of the family who has been in the postal service the longest is Amos A. Perdew, a third Perdew brother, 423 Fort Avenue. He has served for 34 years, starting as a mail messenger, then becoming a substitute clerk-carrier and then a full-time clerk.

Perdew remembers the old Postoffice on Frederick Street with affection. It was "homier." He said he could get more work done without so much walking around.

The veteran mail-clerk pointed out a mark on a door of the sorting room about four feet from the floor where Wills Creek hit in 1936. He recalls putting the mail on steel trays and carrying it to the upper floors. Some of it got wet, so the clerks had to personally oversee its drying.

That was one time the elements did stop at least the local mail, he admitted. However, outgoing mail still went. Walter Perdew, himself, carried mail sacks on his back to the

Textile Workers Protest Bulletin Board Action

Company Asks Change In Union Notice

Local 1874, Textile Workers Union of America, CIO, yesterday protested what it termed the refusal of Celanese officials to allow the posting on Amcelle bulletin boards notices of meeting to solicit aid for TWUA workers in Rome, Ga., a charge flatly denied by the firm which said it merely requested changes in the wording of the notices.

The notices, as posted at union hall, call special meetings next Wednesday at 8 p. m. and Thursday at 10:30 a. m. in the union hall for action on suggested aid for the Rome workers.

The bulletin, above the signature of Playford Aldridge, president, said the meetings were called "upon the recommendation of the executive board which calls for financial aid being extended to strikers at the Tubize, Rome, Ga., plant" of the Celanese firm.

Charges Bad Faith

The union assertion brought a charge of bad faith from Edward R. Allan, personnel superintendent of the plant, who declared Local 1874 has been abusing the leave of absence clause in the contract.

The union, he said, has requested leave of absence for men who it later developed were assisting in strike action elsewhere in spite of the fact that the company and the union here are at peace.

The union released Aldridge's reply to Allan, which said:

Cites Rome Strike

"It has long been the policy of the Celanese Corporation of America. . .to post official signed notices

Ellis H. Patterson, Jr., Romney, W. Va., forfeited bond of $3.75 on a reckless driving charge.

John Jackson, Piedmont, W. Va., colored, was given a suspended sentence of six months on condition he conduct himself properly and stay out of trouble. He was charged with being drunk and disorderly.

Emmett McGreevy, Westernport, forfeited $27 bond on a charge of being drunk and disorderly. Paul Bosley, Westernport, forfeited $12 bond on a disorderly conduct charge. Charles Spriggs, Westernport, forfeited bond of $17 on a drunk and disorderly charge.

Reserve Armory Commissioning Is Set September 18

Admiral Ainsworth To Officiate At Event

Plans are nearing completion for the commissioning of the new Navy and Marine Corps Reserve Armory on McKaig's Hill, with ceremonies scheduled Saturday afternoon, September 18, at 2:30 o'clock.

This announcement was made yesterday by Lt. Cmdr. William H. Geppert, USNR, chairman of the local Naval Reserve advisory committee, which is making arrangements for the event in co-operation with the Marine Corps Reserve.

Rear Admiral W. L. Ainsworth, Norfolk, Va., commandant of the Fifth Naval District, will officiate at the commissioning of the armory.

Rep. J. Glenn Beall (R-Allegany) will act as master of ceremonies, Geppert said.

The event will include a concert to be presented by the Quantico Marine Base Band. Members of the Naval and Marine Corps Reserve divisions in Cumberland will attend in full uniform. Combined personnel of the divisions totals about 460 officers and men.

Following the commissioning, service personnel will escort guests through the radar rooms, radio station, machine shops and other sections of the structure.

The training center will be opened to public inspection after the ceremony.

Aside from Admiral Ainsworth and members of his staff, invitations are being sent to other high Navy and Marine Corps officials, as well as to city and county authorities, fraternal, veterans and service organizations and heads of major local industries.

Mayor Marshall C. Skidmore of Frostburg and Mayor Frank Magruder of Ridgeley will also be invited to attend, Geppert said.

Other members of the Naval Reserve advisory committee are Lt. William L. Wilson, Jr. USNR and Harrison C. Givens, Jr.

Ground was broken in July, 1947, for the new armory, after a contract was awarded to the Altoona firm of Moyer Brothers, which submitted a low bid of $159,887.

The armory is located on seven and one-quarter acres of land leased to the Navy by the city. It is composed of three metal Butler buildings, each 40 feet wide by 100 feet long, connected by a main entrance corridor 154 feet long and 26 feet wide.

Freedom Train To Visit Hagerstown

Area residents will have an opportunity to view the Freedom Train at other points in this section besides Cumberland, Mayor Thomas S. Post said yesterday.

The mayor made this announcement after receiving an inquiry from a teacher in Berkeley Springs, W. Va., regarding the possibility of bringing a large number of students here on September 22, when the Freedom Train will visit Cumberland.

Mayor Post pointed out that the famed exhibit of priceless historical documents will visit Winchester, Va., on October 7, and Hagerstown on October 8.

He said he would recommend that the Berkeley Springs group plan to visit the train at either of those cities, both of which are nearer than Cumberland.

For the benefit of other residents of nearby West Virginia and Pennsylvania, Mayor Post issued the following schedule of stops to be made by the Freedom Train, as announced by the American Heritage Foundation:

Wheeling, W. Va., September 14; Johnstown, Pa., September 21; Parkersburg, W. Va., September 23; Clarksburg, W. Va., September 24; Charleston, W. Va., September 25; Huntington, W. Va., September 26; Bluefield, W. Va., September 28.

Following a swing through Tennessee and North Carolina, the Freedom Train will visit Winchester, Va., October 7 and Hagerstown October 8; York, Pa., October 9 and Lancaster, Pa., October 10.

Lowery Still Critical

There is no change in the condition of Harris Lowery, 64, who was found unconscious Thursday along the Corriganville B. and O. tracks. He has continued to be unconscious and in a "critical" condition since yesterday morning, attaches of Memorial Hospital said last night.

Unidentified Man Held In Jail

A man identified only as "John Doe" was being held in City Jail last night after receiving treatment at Memorial Hospital for a head injury, apparently sustained, police said, when he was struck with a blunt instrument.

He was taken to the hospital at 2:50 a. m. yesterday by Lt. James E Van and Officer Leo P. Law, and is being held for further identification, as there was no identification on his person.

Official Opening Of Smoke Office Set October 1

Hitchcock To Ask Long Appointment

The new smoke abatement c on the second floor at City will be opened officially on a ? time schedule Friday, October 1, according to George M. Hitchcock, city smoke abatement engineer.

Hitchcock also announced yesterday that he plans to recommend appointment of Mrs. Nellie V. Long as secretary at the next meeting of the Mayor and Council on Tuesday.

The Board of Civil Service Commissioners reported August 23 that Mrs. Long placed highest in the examination for secretary to the smoke abatement engineer, with a score of 85 per cent.

At present she is employed as secretary to Maurice M. Cohn, manager of Maurice's Department Store. Hitchcock said Mrs. Long has informed him she will accept the position if city officials approve the recommendation.

When the office is opened on a full-time basis, Hitchcock said, complaints will be handled there and work will begin on the enforcement phase of the smoke control ordinance.

The engineer, who is also superintendent of the Evitts Creek Water Company, plans to be in the office Mondays, Wednesdays and Fridays.

After October 1, Hitchcock said, he plans to prepare an examination for the 15 applicants for the position of deputy smoke inspector, adding that he hopes to hold the test within two weeks after that date.

Following appointment of the deputy inspector, Hitchcock said, plans will be made for installation of the 19 proposed air pollution stations at various locations throughout the city. Present tentative plans call for location of the devices on roofs of buildings.

A record turnout was anticipated last night by Local 1874, Textile Workers Union of America, CIO, officials at the united Labor Day celebration which will be held Monday at Crystal Park.

Meeting Planned Tonight To Avert Bakery Stoppage

Action On Schmidt Offer Set At 2 P. M.

Last minute efforts to avert a strike threatened tonight at midnight at four Cumberland area bakeries will be made tonight at a meeting between the union and three of the baking firms.

Charles Robinette, business manager of Local 246, Bakery Workers Union, AFL, said arrangements were made yesterday for the conference between the local and the Ort, Community and McIntyre Bakeries tonight at 7 o'clock in Central YMCA.

The union will hold a special meeting this afternoon at 2 o'clock in Allegany Trades Council Hall for action on a new wage and contract proposal made by the Schmidt Baking Company Tuesday night.

Set Strike Deadline

Union officials declined to disclose terms of the Schmidt offer until the union has had an opportunity to act upon the proposal.

Declaring the patience of the workers had reached the breaking point, heads of Local 246 reported last Saturday that the strike deadline had been set as a result of a secret mail vote by union members.

Until recently, negotiations on a contract to replace the agreement which expired May 1 were conducted on a joint basis. Recent union efforts have been on a shop-to-shop basis.

A joint offer of wage increases of two and one-half cents an hour for workers in the cake department and five cents in the bread department has been rejected by the 150 member union.

Seek Back Pay

Harold Dixon, union president, added the firms also seek to have pay increases retroactive only to August 23 despite a verbal agreement to make pay date back to May 1, the expiration date of the 1947 contract.

The union some time ago won a union security election held by the NLRB which paves the way for the union shop being asked in the new contract.

The contract of July, 1947, provided a 10 cent wage boost retroactive to May 1, 1947, and effective July 27, 1947, an overall boost of 12½ cents for all except helpers, who received 15 cents. That pact provided wage scales ranging from $1.48½ an hour for working foremen to a minimum of 77½ cents for wrapping and icing employes.

Dennis Held In Bad Check Case

Joseph M. Dennis, Mt. Lake Park, is being held in City Jail for questioning in the State's Attorney's office this morning in connection with a charge of passing a worthless check here Wednesday.

Dennis was arrested in Oakland Thursday night by State Trooper Robert F. Henline after Richard A. Johnson, proprietor of Johnson's Auto Exchange, 325 South Centre Street, reported Dennis had given him a worthless check in partial payment for a car.

Johnson said Dennis bought a car from him Wednesday for $595 and gave him a check on the First National Bank of Friendsville for $250. The other $300, Johnson said, was financed.

Johnson said he called the bank Thursday morning, but was told that Dennis had no account there. He then sent two of his men to Oakland to look for Dennis and settle the matter, he said, but they were unable to find him and notified State Police at Oakland.

Trooper Henline said he arrested Dennis Thursday night and lodged him in Garrett County Jail. He was brought to Cumberland yesterday for prosecution.

More Men Sign Up For Peacetime Draft

Incomplete returns of men born in 1924 who signed up for the draft Wednesday total 271, P. Bennett Fahey, clerk for Cumberland boards reported yesterday.

Totals were Flintstone, 5; Cresaptown, 16; Corriganville, 4; Pennsylvania Avenue, 41; John Humbird, 48; Centre Street, 32; West Side, 36; East Side, 18; Gephart School, 16; Carver High, 3, and LaSalle, 49.

Fahey said the need for volunteer registrars is still urgent and praised the devotion to duty of the overworked crews who are conducting the lengthy registration.

Men who were born in 1925 will sign up today and Tuesday.

Court Grants Three Divorce Decrees

Three divorce decrees were signed in Circuit Court yesterday by Chief Judge William A. Huster.

Pearl V. McMillan, West Oldtown Road, was divorced from William G. McMillan and granted the use of her maiden name, Pearl V. Hefner.

Helen V. Perdew was divorced from Amos A. Perdew, Jr., and given the right to resume her maiden name, Helen V. Alderton.

Silcox Completes Red Cross Course

H. Lee Silcox, 404 Decatur Street, local chairman of the Red Cross water safety, accident prevention and first aid committee, has returned from the National Aquatic Camp for the Eastern States, Minnehaha Springs, W. Va.

Silcox was a first aid instructor at the camp under the direction of Robert O. Earl, Alexandria, Va. Earle taught first aid classes here last fall.

Twenty-five instructors taught 173 students from almost every eastern state accident prevention, water safety, first aid, boating and canoeing. Those finishing the 10-day course which began August 23, received instructor's certificates.

Silcox is now qualified as a home accident prevention teacher. He hopes to begin classes in farm and home accident prevention as soon as possible.

About one-third of all fatal accidents in the United States happen in the home, he said. The National Safety Council takes care of accidents in industry and on the highway, but the Red Cross is the only nation-wide organization which puts emphasis on safety in the home.

This course is a relatively new one in the country, according to Silcox. It was not until three years ago that a text was written. This is the first time that Cumberland has had a qualified instructor.

Silcox pointed out that if all of the fatal accidents happening in the home were put together, it would be the same as wiping out a town the size of Hagerstown.

Farm and Home accident prevention classes are divided into senior and junior classes—junior for ages 12 to 14, and senior for those over 16.

Organizations wishing to take the classes, which are 10-hour certificate courses, should contact the local Red Cross office in the Postoffice building.

Missing Mother Of Dead Child Located

The search for the mother of a 12-year-old girl who died Wednesday morning of a brain tumor, came to a close yesterday afternoon when the mother, Mrs. Martha Wilt Zimmerman, came to Cumberland and heard the news of her daughter's death—about an hour too late.

Mrs. Zimmerman's daughter, Mary Ellen, was buried at 2 p. m. yesterday in Bittinger Lutheran Cemetery.

Mary Ellen had been staying with her maternal grandparents, Mr. and Mrs. Nelson Wilt, Jennings, for some time. Her mother had been working in Baltimore, and more recently came to Cumberland.

Mrs. Zimmerman had been sought since Wednesday in the Tri-State area, and yesterday came here with her brother-in-law, Edgar B. Sheetz, Kennell's Mill, Pa. After she was informed of her daughter's death, Sheetz reported to local police that Mrs. Zimmerman had been staying with him and his wife for about two weeks, and that she intended to return to Grantsville.

Dean Family Will Reside In Frederick

Mrs. Louise C. Dean, who has resigned as home service secretary for Allegany County Chapter, American Red Cross, left Cumberland yesterday with her three daughters to join her husband, H. Albert Dean, in Frederick, where the family will reside.

Mrs. Dean began her service with the county Red Cross chapter in August, 1936. Three years later she was named executive secretary. Because of the volume of servicemen's cases during World War II, she resumed her former duties as home service secretary, continuing until she was granted an indefinite leave of absence last November.

Her husband, who served in the Pacific theater during the war, is now engaged in the insurance and produce business in Frederick.

Reserves Return To Civilian Life

Company "D", Fifth Battalion, Marine Corps Reserve, returns to civilian life at 10:30 a. m. today. A special train will return the over 200 Cumberland area men who have been training for two-weeks at Camp LeJeune, N. C.

Besides winning all the honors on the rifle range last week, Company "D" was picked out for a front page picture by the camp newspaper, The Camp LeJeune Globe, as an example of men "well-trained and prepared to assume their places in case of any eventuality."

Wednesday was payday and $6,713.16 was paid out to the enlisted men as training pay.

Master Sgt. Roger R. Jernigan of the local instructor-inspector staff, returned last night ahead of the unit.

Capt. John T. Fey, commandant of Company D, issued a memorandum of commendation to the group thanking them for their excellent spirit during their first encampment and mentioning the comments on their showing by base personnel who saw 13,000 reservists go through training this year.

Company D was the largest single unit at the LeJeune Base.

Permits Granted To Build Two Homes

Permits to build two residences, estimated to cost $6,000 each were secured at the city engineer's office yesterday by Marie K. Holzshu, 619 Washington Street.

One of the residences will be built on Lot 8 and part of Lots 7 and 9, Fayette Street, while the other will be built on Lot 12 and part of Lots 11 and 13, Fayette Street.

Each will be one story in height, measuring 34 by 34 feet, with a concrete block foundation and composition roof. The former will be of stone and the latter of brick.

Food Prices Here Virtually Unchanged

Food prices which have been showing a slight decline here recently were at a standstill this week, the Cumberland Chamber of Commerce reported yesterday.

The food basket checked each week by the Chamber of Commerce cost $8.77 yesterday, which is actually an increase over last Friday's price of $8.57, but the increase was attributed to one product, oranges, and that due to a difference of quality. Other prices checked were reported unchanged.

The Weather

It was easier to tell that it was summer and not fall yesterday as the thermometer went up to 86. In fact, the weather remained quite pleasant even at 11 o'clock last night which was a comfortable 67. The overnight low was 52. Those who are supposed to know say that the sun and warm weather will stay with us today.

New Elementary Teacher To Be Appointed For Carver School

Because of increased enrollment in the elementary grades at Carver School, a new elementary teacher is to be added to the faculty, Earle L. Bracey, principal, announced last night.

At present the school has three elementary teachers. Appointment of the fourth has not yet been made.

New policies with reference to home room programs were discussed at a faculty meeting yesterday afternoon in preparation for the opening of classes Tuesday morning at 9 o'clock.

Half-day sessions will be held Tuesday and Wednesday, and regular full-day classes will begin Thursday.

Bracey said approximately 120 children are enrolled in the first through sixth grades, with about 108 registered in grades 7 through 12.

About 10 of the high school students will be from Williamsport and Petersburg, W. Va., attending Carver

Fort Hill has the largest faculty in the county, with 65 teachers including Mr. Heisey, the principal, assigned. Indications are that enrollment will be the heaviest on record, Heisey said last night.
